PRESENTATION OF FINANCIAL, INDUSTRY AND MARKET DATA

All references to “India” are to the Republic of India and all references to the “Government” are to the Government of India.

FINANCIAL DATA

Unless stated otherwise, the financial data included in this Prospectus are extracted from the restated financial statements of our Company, prepared in accordance with the applicable provisions of the Companies Act, Indian GAAP and restated in accordance with SEBI (ICDR) Regulations, as stated in the report of our Peer Reviewed Auditors, set out in the section titled ‘*Financial Statements*’ beginning on page 183 this Prospectus. Our restated financial statements are derived from our audited financial statements prepared in accordance with Indian GAAP and the Companies Act, and have been restated in accordance with the SEBI (ICDR) Regulations.

Our fiscal year commences on April 1st of each year and ends on March 31st of the next year. All references to a particular fiscal year are to the 12 month period ended March 31st of that year. In this Prospectus, any discrepancies in any table between the total and the sums of the amounts listed are due to rounding-off. All decimals have been rounded off to two decimal points.

There are significant differences between Indian GAAP, IFRS and US GAAP. The Company has not attempted to quantify their impact on the financial data included herein and urges you to consult your own advisors regarding such differences and their impact on the Company’s financial data. Accordingly to what extent, the financial statements included in this Prospectus will provide meaningful information is entirely dependent on the reader’s level of familiarity with Indian accounting practices / Indian GAAP. Any reliance by persons not familiar with Indian Accounting Practices on the financial disclosures presented in this Prospectus should accordingly be limited.

Any percentage amounts, as set forth in “*Risk Factors*”, “*Our Business*”, “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” and elsewhere in this Prospectus unless otherwise indicated, have been calculated on the basis of the Company’s restated financial statements prepared in accordance with the applicable provisions of the Companies Act, Indian GAAP and restated in accordance with SEBI (ICDR) Regulations, as stated in the report of our Peer Reviewed Auditor, set out in the section titled ‘*Financial Statements*’ beginning on page 183 of this Prospectus.

CURRENCY OF PRESENTATION

In this Prospectus, references to “Rupees” or “Rs.” or “INR” are to Indian Rupees, the official currency of the Republic of India. All references to “\$”, “US\$”, “USD”, “U.S. \$” or “U.S. Dollars” are to United States Dollars, the official currency of the United States of America.

All references to ‘million’ / ‘Million’ / ‘Mn’ refer to one million, which is equivalent to ‘ten lacs’ or ‘ten lakhs’, the word ‘Lacs / Lakhs / Lac’ means ‘one hundred thousand’ and ‘Crore’ means ‘ten million’ and ‘billion / bn./ Billions’ means ‘one hundred crores’.

INDUSTRY & MARKET DATA

Unless stated otherwise, Industry and Market data and various forecasts used throughout this Prospectus have been obtained from publically available Information, Industry Sources and Government Publications.

Industry Sources as well as Government Publications generally state that the information contained in those publications has been obtained from sources believed to be reliable but their accuracy and completeness and underlying assumptions are not guaranteed and their reliability cannot be assured.

Although we believe that industry data used in this Prospectus is reliable, it has not been independently verified by the Book Running Lead Manager or our Company or any of their affiliates or advisors. Such data involves risks, uncertainties and numerous assumptions and is subject to change based on various

factors, including those discussed in the section “*Risk Factors*” on page 19 of this Prospectus. Accordingly, investment decisions should not be based solely on such information.

Further, the extent to which the industry and market data presented in this Prospectus is meaningful depends on the reader’s familiarity with and understanding of the methodologies used in compiling such data. There are no standard data gathering methodologies in the industry in which we conduct our business, and methodologies and assumptions may vary widely among different industry sources.

FORWARD LOOKING STATEMENT

This Prospectus contains certain “forward-looking statements”. These forward looking statements can generally be identified by words or phrases such as “aim”, “anticipate”, “believe”, “expect”, “estimate”, “intend”, “objective”, “plan”, “project”, “shall”, “will”, “will continue”, “will pursue” or other words or phrases of similar meaning. Similarly, statements that describe our strategies, objectives, plans or goals are also forward-looking statements. All forward looking statements are subject to risks, uncertainties and assumptions about us that could cause actual results and property valuations to differ materially from those contemplated by the relevant forward looking statement.

Important factors that could cause actual results to differ materially from our expectations include, but are not limited to the following:-

- General economic and business conditions in the markets in which we operate and in the local, regional, national and international economies;
- Changes in laws and regulations relating to the sectors / areas in which we operate;
- Increased competition in the sectors / areas in which we operate;
- Factors affecting the Industry in which we operate;
- Our ability to meet our capital expenditure requirements;
- Fluctuations in operating costs;
- Our ability to attract and retain qualified personnel;
- Changes in political and social conditions in India, the monetary and interest rate policies of India and other countries;
- Inflation, deflation, unanticipated turbulence in interest rates, equity prices or other rates or prices;
- The performance of the financial markets in India and globally;
- Any adverse outcome in the legal proceedings in which we are involved;
- Our failure to keep pace with rapid changes in technology;
- The occurrence of natural disasters or calamities;
- Other factors beyond our control;
- Our ability to manage risks that arise from these factors;
- Conflict of Interest with affiliated companies, the promoter group and other related parties; and
- Changes in government policies and regulatory actions that apply to or affect our business.

For a further discussion of factors that could cause our actual results to differ, refer to section titled “*Risk Factors*” and chapter titled “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” beginning on pages 19 and 183 respectively of this Prospectus. By their nature, certain market risk disclosures are only estimates and could be materially different from what actually occurs in the future. As a result, actual future gains or losses could materially differ from those that have been estimated.

Future looking statements speak only as of the date of this Prospectus. Neither we, our Directors, Book Running Lead Manager, Underwriter nor any of their respective affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. In accordance with SEBI requirements, the BRLM and our Company will ensure that investors in India are informed of material developments until the grant of listing and trading permission by the Stock Exchange.

SECTION II – RISK FACTORS

An investment in Equity Shares involves a high degree of risk. You should carefully consider all the information in this Prospectus, including the risks and uncertainties described below, before making an investment in our Equity Shares. In making an investment decision, prospective investors must rely on their own examination of our Company and the terms of this offer including the merits and risks involved. Any potential investor in, and subscriber of, the Equity Shares should also pay particular attention to the fact that we are governed in India by a legal and regulatory environment in which some material respects may be different from that which prevails in other countries. The risks and uncertainties described in this section are not the only risks and uncertainties we currently face. Additional risks and uncertainties not known to us or that we currently deem immaterial may also have an adverse effect on our business. If any of the following risks, or other risks that are not currently known or are now deemed immaterial, actually occur, our business, results of operations and financial condition could suffer, the price of our Equity Shares could decline, and you may lose all or any part of your investment. Additionally, our business operations could also be affected by additional factors that are not presently known to us or that we currently consider as immaterial to our operations.

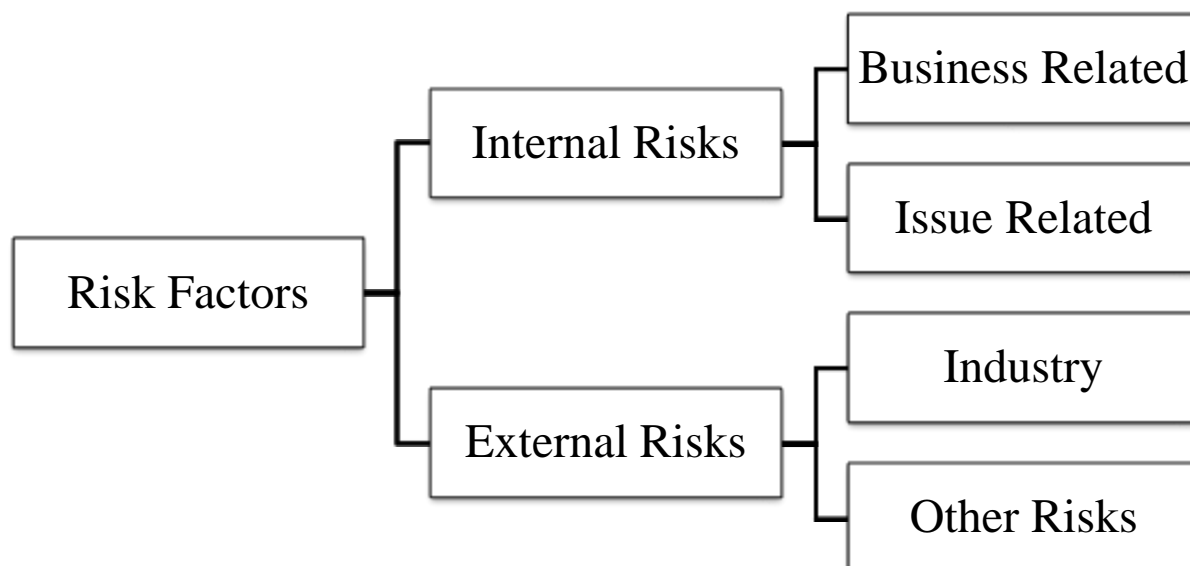

Unless otherwise stated in the relevant risk factors set forth below, we are not in a position to specify or quantify the financial or other implications of any of the risks mentioned herein. Unless otherwise stated, the financial information of our Company used in this section is derived from our restated financial statements prepared in accordance with Indian GAAP and the Companies Act, 2013 and its applicable Companies Act Rules (as amended from time to time) and its applicable Companies Act Rules (as amended from time to time) and restated in accordance with the SEBI ICDR Regulations. To obtain a better understanding, you should read this section in conjunction with the chapters titled “Our Business” beginning on page 133, “Our Industry” beginning on page 112 and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” beginning on page 184 respectively, of this prospectus as well as other financial information contained herein.

The following factors have been considered for determining the materiality of Risk Factors:

- Some events may not be material individually but may be found material collectively;*
- Some events may have material impact qualitatively instead of quantitatively; and*
- Some events may not be material at present but may have material impact in future.*

The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors mentioned below. However, there are risk factors where the impact may not be quantifiable and hence the same has not been disclosed in such risk factors. Unless otherwise stated, the financial information of the Company used in this section is derived from our financial statements under Indian GAAP, as restated in this Prospectus. Unless otherwise stated, we are not in a position to specify or quantify the financial or other risks mentioned herein. For capitalized terms used but not defined in this chapter, refer to the chapter titled “Definitions and Abbreviation” beginning on page 3 of this Prospectus. The numbering of the risk factors has been done to facilitate ease of reading and reference and does not in any manner indicate the importance of one risk factor over another.

The risk factors are classified as under for the sake of better clarity and increased understanding:

INTERNAL RISKS

Business Related Risks

- Weather conditions, crop diseases and pest attacks could adversely affect the production of our seed products, as well as the demand for our seed products, which may adversely affect our business, financial condition, results of operations and prospects.**

Our seed production activities and the Indian seeds industry are subject to substantially all the risks faced by the agriculture industry in India. Crop yields depend significantly on the absence of any crop disease or pest attacks and favourable weather conditions such as adequate rainfall and temperature, which vary from location to location. Adverse weather conditions such as windstorms, flood, drought or frost may cause crop failures and reduce harvests, which may adversely affect our operations. However, results of changes in weather and climatic conditions are difficult to predict and may affect crop planning and timing. In addition to factors such as soil quality and the use of fertilisers, weather conditions may also affect the presence of diseases and pests. Any of these factors may adversely affect our production of seeds. We bear the risks associated with bad weather and climatic conditions. Furthermore, if crop diseases and pests develop resistance to our products, this could adversely affect our Seed Growing Farmers' crop yields. Additionally, we cannot assure you that adverse weather patterns in the future or potential crop diseases will not affect our ability to produce the desired quality or quantity of products to meet demand and in turn, their pricing. Any of these factors, or a combination thereof, can adversely affect the quality of our seeds, yield and inventory levels, could increase our cost of operations, strain our operating margins and reduce our operating revenue, which could materially and adversely affect our business, financial condition, results of operations and prospects.

- Currently our Company is involved in tax related proceeding; any adverse decision in such proceedings may render us liable to liabilities and penalties and may adversely affect our business and results of operations.**

Also, there is no assurance that in future, we, our promoters, our directors or group companies may not face legal proceedings; any adverse decision in such legal proceedings may impact our business. For further details in relation to legal proceedings involving our Company, Promoters, Directors, Group and Companies see the chapter titled "Outstanding Litigation and Material Developments" on page 203 of this Prospectus.

A classification of legal proceedings is mentioned below:

3. **We require a number of approvals, NOCs, licences, registrations and permits in the ordinary course of our business. Some of the approvals are required to be transferred in the name of SHREEOSWAL SEEDS AND CHEMICALS LIMITED from OSWAL SEEDS AND CHEMICALS pursuant to name change of our company and any failure or delay in obtaining the same in a timely manner may adversely affect our operations.**

We need to apply for renewal of approvals which expire, from time to time, as and when required in the ordinary course of our business Pursuant to our conversion from a Partnership firm to a public limited company in the year 2017, we need to take necessary steps for transferring the approvals of our company in the new name.

Approvals like TAN Allotment Letter are currently not traceable by the company. Any failure to renew the approvals that have expired, or to apply for and obtain the required approvals, licences, registrations or permits, or any suspension or revocation of any of the approvals, licences, registrations and permits that have been or may be issued to us, could result in delaying the operations of our business, which may adversely affect our business, financial condition, results of operations and prospects. We cannot assure you that the approvals, licences, registrations and permits issued to us would not be suspended or revoked in the event of non-compliance or alleged non-compliance with any terms or conditions thereof, or pursuant to any regulatory action. Further, a complete series of approvals is required to be obtained , the assignment of the trademark from Sanjay Kumar Baigani (partner in Partnership firm – “Oswal Seeds and Chemicals”) is not yet been made by the Company in the name of “Shreeoswal Seeds and Chemicals Limited Additionally, our company has not applied for change of name of the approval/s as mentioned in pending approvals section of Government and Other Statutory Approvals Chapter. For more information, see chapter “Government and Other Statutory Approvals” on page 210 of this Prospectus.

4. **We depend on certain brand names and our corporate name and logo that we may not be able to protect and/or maintain. The Company was a partnership firm prior to Incorporation and the logo was registered in the name of partnership firm and assignment of the same is pending for registration which is used for our business purpose.**

Our ability to market and sell our products depends upon the recognition of our brand names and associated consumer goodwill. Currently, have not assigned the registered trademark for our own or our corporate name and logo under the Trade Marks Act, 1999. Consequently, we do not enjoy the statutory protections accorded to registered trademarks in India for the corporate name and logo of our company. In the absence of such registrations, competitors and other companies may challenge the validity or scope of our intellectual property right over these brands or our corporate name or logo. As a result, we may be required to invest significant resources in developing new brands or names, which could materially and adversely affect our business, financial condition, results of operations and prospects.

Our failure to comply with existing or increased regulations, or the introduction of changes to existing regulations, could adversely affect our business, financial condition, results of operations and prospects.

The material approvals, licences or permits required for our business include trade licence, excise and tax laws, environment laws and shops and establishment licences, among others. See “Government and other Statutory Approvals” on page 210 of this Prospectus

5. **We generate our major portion of sales from our operations in certain geographical regions especially in 3 states and any adverse developments affecting our operations in these regions could have an adverse impact on our revenue and results of operations.**

A major portion of our total sales are made in the states of Maharashtra, Madhya Pradesh and Rajasthan. Our revenue from these states constitutes around 93.30% of our Total Revenue for the year ended 31st March, 2018. Such geographical concentration of our business in these regions heightens our exposure to adverse developments related to competition, as well as economic and demographic changes in these regions which may adversely affect our business prospects, financial conditions and results of operations. We may not be able to leverage our experience in these states to expand our operations in other parts of India, should we decide to further expand our operations.

6. Our inability to predict accurately the demand for our products and to manage our production and inventory levels could materially and adversely affect our business, financial condition, results of operations and prospects.

We are engaged in the business of production, processing and sale of agricultural seeds which has a long production cycle. Because of the length of time necessary to produce commercial quantities of seeds, we are typically required to make production decisions in advance of sales. Demand for our products may also be affected by factors such as irrigation facilities, availability of credit, overall agricultural production, farmers' ability to generate income from their produce. Any negative change in preferences of our end consumers for our products could result in reduced demand for our products.

An accurate forecast of demand for any product is required before hand because an inaccurate forecast may result in an over-supply of products, which may increase costs, negatively impact our cash flow, erode margins substantially and ultimately necessitate write-offs of inventory. Any of the aforesaid circumstances could have a material adverse effect on our business, results of operations and financial condition.

7. Our business is seasonal in nature and our revenues, cash flows from operations and other operating results may fluctuate on a seasonal and quarterly basis.

Our business is seasonal in nature and as a result, our operating results may fluctuate. Both raw material supplies and sales are seasonal, as our business is influenced by the traditional crop seasons in India. Our production as well as the demand for our products may be affected by seasonal factors such as weather conditions, irrigation facilities, availability of credit to farmers and overall agricultural production. Consequently, the results of one reporting period may not be necessarily comparable with the preceding, succeeding or corresponding reporting periods. Thus, we are subject to seasonal factors, which make our operational results very unpredictable.

8. Our Company requires significant amount of working capital for a continued growth. Our inability to meet our working capital requirements may have an adverse effect on our results of operations.

Our business is working capital intensive primarily on account of high receivables days and inventory levels. Summary of our working capital position is given below:-

Particulars	March 31, 2018	Novem ber 30, 2017	For the year ended				
			2017	2016	2015	2014	2013

Trade receivables as % of total current assets	18.78%	69.85%	24.31%	5.88%	2.95%	0.78%	2.17%

Our Company intends to continue growing by expanding our operations and geographical reach. All these factors may result in increase in the quantum of current assets. Our inability to maintain sufficient cash flow, credit facility and other sources of fund, in a timely manner, or at all, to meet the requirement of working capital or pay out debts, could adversely affect our financial condition and result of our operations. For further details regarding working capital requirement, please refer to the chapter titled “*Objects of the Issue*” beginning on page 95 of this Prospectus.

9. *Lack of awareness and knowledge among farmers*

All the major developments and the inventions are not able to reach the people at the grassroot level like farmers, who are the main human resource for agriculture, thus lack of knowledge and awareness among them is the basic reason for them not opting for hybrid seeds and choosing naturally grown seeds over them. However, our Company undertake awareness initiatives to update the farmers and also engage agricultural scholars to improve the yield and quality of the seeds.

10. Any disruption in production at, or shutdown of, our sole processing facility could adversely affect our business, results of operations and financial condition.

We own and operate only one processing facility situated at Neemuch, Madhya Pradesh. All of our products are processed at this facility only. Our manufacturing facility is susceptible to damage or interruption or operating risks, such as human error, power loss, breakdown or failure of equipment, performance below expected levels of output or efficiency, obsolescence, break-ins, and industrial accidents and similar events. Further, our processing facility is also subject to operating risk arising from compliance with the directives of relevant government authorities. If our Company experiences delays in production or shutdowns due to any reason our Company’s operations will be significantly affected, which in turn would have a material adverse effect on its business, financial condition and results of operations.

11. Our operations are hazardous and could expose us to the risk of liabilities, loss of revenue and increased expenses.

Our operations are subject to various hazards associated with the production of chemical and other products, such as the use, handling, processing, storage and transportation of hazardous materials, as well as accidents such as leakage or spillages of chemicals. Any mishandling of hazardous chemicals and poisonous substances could also lead to fatal accidents. These hazards can cause personal injury and loss of life, severe damage to and destruction of property and equipment, environmental damage and may result in the suspension of operations and the imposition of civil and criminal liabilities. As a result

of past or future operations, claims for damages from our customers along with claims of injury by employees or members of the public due to exposure, or alleged exposure, to the hazardous materials involved in our business may arise. Events like these could result in liabilities, or adversely affect our reputation with suppliers, customers, regulators, employees and the public, which could in turn affect our financial condition and business performance.

12. The use of pesticides and hazardous substances in our operations may lead loss of nutrients in the seeds produced and may lead to environmental damage and result in increased costs.

Seed production requires chemical usage, such as, pesticides and other hazardous substances for increased productivity. Use of this substances also has adverse effect on seeds and may lead to environmental damages. Our Company may be required to pay the costs of damages associated with improper application, accidental release or misuse of these substances. Further, such increased usage of pesticides and like substances may also lead to litigations from third parties. These factors could adversely affect the business operations while damaging brand reputation, consequently leading to effect on financial condition. Using pesticides in increased quantity could also result in loss of nutrients in the seeds which may make them less attractive from that of organic seeds produced.

13. *Product defects could adversely affect our business.*

Although seeds undergo extensive quality checks before they are processed, they may still contain defective or undesired characteristics that may be difficult to detect, with the available technology and tools at our dominion, prior to their sale and use. Since our seeds are used by farmers, any quality defects therein would directly affect the earnings of the farmer. Losses claimed by farmers may include the value of lost crops, which could greatly exceed the value of the seeds we sell. If defective or contaminated seeds are sold to a large number of farmers or over a geographically wide area, it may lead to a large-scale crop failure thus substantially increasing our potential liability for claims. The proper usage of seeds and adherence to recommended farm practices as well as the environment during crop period are all beyond our control once we sell the seed to our customer. Irrespective of the quality of the seeds, farmers may claim poor crop yields in one or more seasons as resulting from alleged seed defects, which may not exist or may be exaggerated, and seek to claim damages/compensation from us on that ground. Further, in order to attain the desired levels of crop yield, certain precautions like utilization of the soil application, proper application of fertilizers, timely application of pesticides, timely supply of water etc. have to be followed. Moreover, weather conditions must be favourable. In the event of any errors on the part of the farmers, or adverse weather conditions, they may claim defects in the quality of the seed. However, ascertained product defects cannot be determined in percentage terms though we face claims for product defects. Furthermore, we are subject to government regulations and periodic government inspections. We believe that our processing plants/facilities comply in all material respects with all applicable laws and regulations, we cannot assure that use of our products will not expose us to costly and time-consuming litigations/claims and lead to negative publicity about the quality of our products, further affecting our sales and performance. Any of the aforesaid factors would have a material adverse effect on business, financial condition and results of operations

14. Our Company faces competition from certified seed players. Our failure to effectively compete may reduce our profitability and results of operations

Increased competition may result in decrease in demand or lower prices for our products. Our failure to compete effectively could reduce our profitability and in turn our results of operations. We face substantial competition due to technological advances by our competitors in various facets of the agri-inputs business especially certified seed players. Multinational corporations invest huge amounts of money and considerable resources on Research and Development and technology and are thus able to come out with very effective and highly improved versions of hybrids. Further, the introduction of biotechnology has resulted in the entry of various agro-input companies into the seed industry, thus fostering intense competition in the industry.

The period for developing and commercializing a hybrid can run into several years. If a competitor introduces a product more suited to farmer needs, it could take a long period for us to develop a suitably competing product, which could have a material adverse effect on our business, results of operations and financial condition. Some of our competitors may have, or are subsidiaries of large international corporations that have, significantly greater resources than those available to us. If we are unable to compete effectively, including in terms of pricing or providing quality products, our market share may decline, which could have a material adverse effect on our financial condition and results of operations.

15. Our Company does not have long-term agreements with any of land vendors for farm lands on which we undertake seed multiplication and is subject to uncertainties in availability which could hamper production, decrease sales and negatively affect its operating results.

We do not have any long term agreements with any of land vendors for farm lands on which we undertake seed multiplication. We usually enters in to contract farming with farmers. As a result, our vendors can terminate their relationships with us due to a change in preference or any other reason upon relatively short notice, which could materially and adversely impact our business. Consequently, our revenue may be subject to variability in case production process gets hampered due to non-availability of farm land.

16. Our Company has negative cash flows from its operating activities, investing activities and financing activities in the past years, details of which are given below. Sustained negative cash flows could impact our growth and business.

Our Company had negative cash flows from our operating activities, investing activities and Financing activities in the previous year(s) as per the Restated Standalone Financial Statements and the same are summarized as under:

Amount (Rs. in Lakhs)

Particulars	For the period during December 1, 2017 to March 31, 2018	For the period ended November 30, 2017	For the year ended March 31,				
			2017	2016	2015	2014	2013
Cash Flow from / (used in) Operating Activities	(595.87)	510.99	692.70	443.42	(631.22)	(506.65)	(68.08)
Cash Flow from / (used in) Investing Activities	16.42	(316.91)	3.80	(89.64)	(20.91)	(12.03)	(105.28)
Cash Flow from / (used in) Financing Activities	576.68	(521.68)	(357.83)	(478.61)	805.51	518.11	197.41

Cash flow of a company is a key indicator to show the extent of cash generated from operations to meet capital expenditure, pay dividends, repay loans and make new investments without raising finance from external resources. If we are not able to generate sufficient cash flows in future, it may adversely affect our business and financial operations.

17. Changes in technology may render our current technologies obsolete or require us to make substantial capital investments.

Modernization and technology up gradation is essential to reduce costs and increase the efficiency. Our technology may become obsolete or may not be upgraded timely, hampering our operations and financial conditions and we may lose our competitive edge. In case of a new found technology in the Food grain sector, we may be required to implement new technology employed by us. Further, the cost in upgrading our technology is significant which could substantially affect our finances and operations.

18. Our Company has unsecured loans which are repayable on demand. Any demand from lenders for repayment of such unsecured loans, may adversely affect our cash flows.

As on March 31, 2018, our Company had unsecured loans amounting to Rs. 17.43 lakhs from related parties and other parties that are repayable on demand to the relevant lender. Further, some of these loans are not repayable in accordance with any agreed repayment schedule and may be recalled by the relevant lender at any time. Any such unexpected demand or accelerated repayment may have a material adverse effect on the business, cash flows and financial condition of the borrower against which repayment is sought. Any demand from lenders for repayment of such unsecured loans, may adversely affect our cash flows. For further details of unsecured loans of our Company, please refer the chapter titled "*Financial Statements as Restated*" beginning on page 183 of this Prospectus.

19. Changes in customer preferences could affect our business, financial condition, results of operations and prospects.

Any change in the customer preference can render our old stock obsolete, as changes in customer preference are generally beyond our control. Some or all of our products may become less attractive in light of changing customer preferences or better products by competitors and we may be unable to adapt to such changes in a timely manner. However, any change in customer preferences that decreases demand could affect our business, financial condition, results of operations and prospects.

20. We may be sensitive to fluctuations in market prices or demand for our products and a decline in prices of our products may materially reduce our profit margins.

We operate in price sensitive markets where the prices we are able to charge for our products are influenced by factors such as fluctuations in market conditions, the competitive environment, quality issues, government regulation and general supply and demand factors. The prices and demand for related agricultural commodities also influence the prices and demand for our products. Any changes in the international market could influence the market price and demand for our products in India. The competitive market environment may also lead to seed suppliers offering significant discounts to customers in the market. This may cause our market share to decrease, or if we offer similar discounts, our profit margins may decrease. Such competitive pressures may also lead to the supply of products of inferior quality, which could adversely affect the reputation of the Indian seed industry and of our Company.

Demand for our products may also be adversely affected by a general decline in the number of farmers. The agriculture industry typically provides a limited profit margin for farmers, and this could encourage farmers to shift to other more profitable vocations. Furthermore, a general increase in preference for urban lifestyles could also reduce the number of farmers. A general decrease in the number of participants in the agriculture industry could reduce the demand for our products.

21. Our ability to deliver our products in a timely manner is crucial to our business and results of operations.

Availability of the seed variety before crop season is crucial for our business. Crop yields depend significantly on the absence of any crop disease or pest attacks and favourable weather conditions such as adequate rainfall and temperature. Adverse weather conditions such as windstorms, flood, drought or

frost may cause crop failures and reduce harvests, which may adversely affect our operations. However, results of changes in weather and climatic conditions are difficult to predict and may affect crop planning and timing. In addition to factors such as soil quality and the use of fertilisers, weather conditions may also affect the presence of diseases and pests. Any of these factors may adversely affect our production of seeds. We also rely on third party transporters for transportation and delivery of our products. Factors such as unavailability of transport services, damage or loss of goods in transit, strikes, natural disasters etc. can interrupt the delivery of our products and affect our business and results of operations.

22. The use of pesticides and other hazardous substance in our operations may lead to loss of nutrients in the seeds produced and also may lead to environmental damage and result in increased costs.

Hybrid seed production involves high usage of pesticides and other hazardous substance. We may also have to pay for the costs or damages associated with the improper application, accidental release or the use or misuse of these substances. In these cases, payment of costs or damages could have a material adverse effect on our business, results of operations and financial condition. Seed production involve high usage of pesticides and other hazardous substance, using pesticides in such an increased quantity could lead to loss of nutrients in the seeds which make them less attractive from that of organic seeds produced.

23. Our inability to maintain the stability of our distribution network and attract additional high-quality dealers may have an adverse effect on our results of operations and financial condition.

The challenge in the agri-inputs business lies in reaching a geographically dispersed end-user at the right time at the right place with the right product. We rely on our distribution network and dealerships to reach the end customer, that is the farmer, and distribute, market and sell our agri-input products in each of the regions in which we operate. Competition for seed and other agri-inputs dealers is intense. Hence, our business is dependent on maintaining good relationships with our distributors and dealers and ensuring that our distributors and dealers find our products to be commercially remunerative and have continuing demand from farmers. Furthermore, our growth as a business depends on our ability to attract additional high-quality dealerships to our distribution network. There can be no assurance that our current distributors and dealers will continue to do business with us, or that we can continue to attract additional distributors and dealers to our network. If we do not succeed in maintaining the stability of our distribution network and attracting additional high-quality dealers to our distribution network, our market share may decline and our products may not reach the end customers, materially adversely affecting our results of operations and financial condition.

24. The Company is yet to place orders for 100% of the machinery and equipment required for up gradation and expansion. Any delay in placing orders, procurement of equipment may delay our implementation schedule and may also lead to increase in price of these equipment.

We are yet to place orders for machinery and equipment worth Rs. 162.95 lakhs as detailed in the chapter titled, “*Objects of the Issue*” beginning on page 95 of this Prospectus. These are based on our estimates and on third-party quotations, which are subject to a number of variables, including possible cost overruns, changes in management’s views of the desirability of current plans, change in supplier of equipment or equipment depending on the contracts bided and actually awarded, among others, which may have an adverse effect on our business and results of operations.

25. Our lenders have charge over our movable or immovable properties in respect of finance availed by us.

Our Company has taken secured loan from banks by creating a charge over our movable or immovable properties in respect of loans/facilities availed by us. The total amounts outstanding and payable by us for secured loans were Rs. 1,225.08 Lakhs as on March 31, 2018. In the event we default in repayment of the loans / facilities availed by us and any interest thereof, our properties may be forfeited by lenders, which in turn could have significant adverse effect on our business, financial condition and results of

operations. For further details please refer to chapter titled Financial Indebtedness in chapter titled “*Financial Indebtedness*” on page 200 of this Prospectus.

26. If we are unable to source business opportunities effectively, we may not achieve our financial objectives.

Our ability to achieve our financial objectives will depend on our ability to identify, evaluate and accomplish business opportunities. To grow our business, we will need to hire, train, supervise and manage existing employees along with new employees, expand our distribution network and to implement systems capable of effectively accommodating our growth. However, we cannot assure you that any such employees will contribute to the success of our business or that we will implement such systems effectively. Our failure to source business opportunities effectively could have a material adverse effect on our business, financial condition and results of operations. It is also possible that the business strategies used by us in the future may be different entirely from those presently in use. No assurance can be given that our analysis of market and other data or the business strategies we use or the business plans that we intend to use in future will be successful under prevalent market conditions.\

27. Our Company has taken factory and warehouse premises on rent. Any termination of the lease(s) or our failure to renew the same in a favorable, timely manner, or at all, could adversely affect our activities.

Our factory premise is taken on rent from our subsidiary Company and warehouse premise is taken on rent from third parties. If we are unable to renew these leases or if they are not renewed on favorable conditions, it may affect our operations adversely. Also if we do not comply with certain conditions of the lease agreements, it may lead to termination of the leases. In the event of non-renewal or termination of the leases, we may have to vacate our current manufacturing facility or office premises and shift the same to new premises. There can be no assurance that we shall be able to find a suitable location, or one at present terms and conditions. Any additional burden due to shifting of premises, or increased rental expenses, may adversely affect our business operations and financial conditions. For details on properties taken on lease/rent by us please refer to the heading titled “Land & Property” in chapter titled “*Our Business*” beginning on page 133 of this Prospectus.

28. We have taken guarantees from Promoters and members of Promoter Group in relation to debt facilities provided to us.

We have taken guarantees from Promoters and members of Promoter Group in relation to our secured debt facilities availed from Union Bank of India amounting to Rs. 1.19 lakhs. In an event any of these persons withdraw or terminate its/their guarantees, the lender for such facilities may ask for alternate guarantees, repayment of amounts outstanding under such facilities, or even terminate such facilities. We may not be successful in procuring guarantees satisfactory to the lender and as a result may need to repay outstanding amounts under such facilities or seek additional sources of capital, which could adversely affect our financial condition. For more information please see the chapter titled “*Financial Indebtedness*” beginning on page 200 of this Prospectus.

29. The shortage or non-availability of power facilities may adversely affect our manufacturing processes and have an adverse impact on our results of operations and financial condition.

Our manufacturing processes require substantial amount of power facilities. Currently, Company receives power from M P Paschim Kshetra Vidyut Vitaran Co. Ltd. The quantum and nature of power requirements of our industry and the Company is such that it cannot be supplemented/ augmented by alternative/ independent sources of power supply since it involves significant capital expenditure and per unit cost of electricity produced is very high in view of increasing oil prices and other constraints. We are mainly dependent on State Government for meeting our electricity requirements. Any defaults or non-compliance of the conditions may render us liable for termination of the agreement or any future changes in the terms of the agreement may lead to increased costs, thereby affecting the profitability.

Further, since we are majorly dependent on third party power supply; there may be factors beyond our control affecting the supply of power.

Any disruption / non availability of power shall directly affect our production which in turn shall have an impact on profitability and turnover of our Company.

30. Compliance with, and changes in, safety, health and environmental laws and regulations may adversely affect our business, prospects, financial condition and results of operations.

Due to the nature of our business, we expect to be or continue to be subject to extensive and increasingly stringent environmental, health and safety laws and regulations and various labour, workplace and related laws and regulations. We are also subjected to environmental laws, rules and regulations, including but not limited to:

- a. The Environment Protection Act, 1986;
- b. Air (Prevention and Control of Pollution) Act, 1981;
- c. Water (Prevention and Control of Pollution) Act, 1974; and
- d. Hazardous Waste (Management and Handling) Rules, 1989.

Which govern the discharge, emission, storage, handling and disposal of a variety of substances that may be used in or result from the operations of our business.

The scope and extent of new environmental regulations, including their effect on our operations, cannot be predicted and hence the costs and management time required to comply with these requirements could be significant. Amendments to such statutes may impose additional provisions to be followed by our Company and accordingly the Company needs to incur clean-up and remediation costs, as well as damages, payment of fines or other penalties, closure of production facilities for non-compliance, other liabilities and related litigation, could adversely affect our business, prospects, financial condition and results of operations.

31. Our cost of production is exposed to fluctuations in the prices of materials.

We are exposed to fluctuations in the prices of raw materials as well as their unavailability. We may be unable to control the factors affecting the price at which we procure the materials. We also face the risks associated with compensating for or passing on such increase in our cost of production on account of such fluctuations in prices to our customers. Upward fluctuations in the prices of raw material may thereby affect our margins and profitability, resulting in a material adverse effect on our business, financial condition and results of operations. Though we enjoy favourable terms from the suppliers both in prices as well as in supplies, our inability to obtain high quality materials in a timely and cost-effective manner would cause delays in our production and delivery schedules, which may result in the loss of our customers and revenues.

32. *We have not entered into any definitive agreements with our customers. If our customers choose not to buy the products from us, our business, financial condition and results of operations may be adversely affected and we do business with our customers on purchase order basis.*

We have not entered into any definitive agreements with our customers, and instead we majorly rely on purchase orders to govern the volume, pricing and other terms of sales of our products. However, such orders may be amended or cancelled prior to finalization, and should such an amendment or cancellation take place. Consequently, there is no commitment on the part of the customer to continue to source their requirements from us, and as a result, our sales from period to period may fluctuate significantly as a result of changes in our customers' vendor preferences.

Any failure to meet our customers' expectations could result in cancellation of orders. There are also a number of factors other than our performance that are beyond our control and that could cause the loss

of a customer. Customers may demand price reductions, set-off any payment obligations, require indemnification for themselves or their affiliates, any of which may have an adverse effect on our business, results of operations and financial condition. Our business is conducted on purchase order basis, depending on the requirements of the client preferences and demand. We do not have long-term contracts with most of our customers and there can be no assurance that we will continue to receive repeat orders from any of them, including our long-standing customers.

Further, even if we were to continue receiving orders from our clients, there can be no assurance that they will be on the same terms, and the new terms may be less favourable to us than those under the present terms.

33. Our insurance coverage may not be adequate.

Our insurance policies consist of, among others, standard fire and special perils, burglary policy, etc. While we believe that we maintain insurance coverage in adequate amounts consistent with size of our business, our insurance policies do not cover all risks, specifically risks like product defect/liability risk, loss of profits, losses due to terrorism, etc. Further there can be no assurance that our insurance policies will be adequate to cover the losses in respect of which the insurance has been availed. If we suffer a significant uninsured loss or if insurance claim in respect of the subject-matter of insurance is not accepted or any insured loss suffered by us significantly exceeds our insurance coverage, our business, financial condition and results of operations may be materially and adversely affected.

For further details, please refer chapter titled “Our Business” beginning on page 133 of this Prospectus.

34. We have not made any alternate arrangements for meeting our capital requirements for the Objects of the issue. Further we have not identified any alternate source of financing the ‘Objects of the Issue’. Any shortfall in raising / meeting the same could adversely affect our growth plans, operations and financial performance.

As on date, we have not made any alternate arrangements for meeting our capital requirements for the Objects of the Issue. We meet our capital requirements through our bank finance, unsecured loans, owned funds and internal accruals. Any shortfall in our net owned funds, internal accruals and our inability to raise debt in future would result in us being unable to meet our capital requirements, which in turn will negatively affect our financial condition and results of operations. Further, we have not identified any alternate source of funding and hence any failure or delay on our part to raise money from this issue or any shortfall in the issue proceeds may delay the implementation schedule and could adversely affect our growth plans. For further details, please refer to the chapter titled “Objects of the Issue” beginning on page 95 of this Prospectus.

35. Our ability to pay dividends in the future will depend upon our future earnings, financial condition, cash flows, working capital requirements, capital expenditure and restrictive covenants in our financing arrangements.

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations, financial condition, cash requirements, business prospects and any other financing arrangements. Accordingly, realization of a gain on shareholders investments may largely depend upon the appreciation of the price of our Equity Shares. There can be no assurance that our Equity Shares will appreciate in value. For details of our dividend history, see “*Dividend Policy*” on page 182 of this prospectus.

36. Within the parameters as mentioned in the chapter titled ‘Objects of this Issue’ beginning on page 95 of this Prospectus, our Company’s management will have flexibility in applying the proceeds

of this Issue. The fund requirement and deployment mentioned in the Objects of this Issue have not been appraised by any bank or financial institution.

We intend to use entire Issue Proceeds towards purchasing of plant and machinery, meeting working capital requirements and general corporate purposes. We intend to deploy the Net Issue Proceeds in financial year 2018-19 and such deployment is based on certain assumptions and strategy which our Company believes to implement in future. The funds raised from the Issue may remain idle on account of change in assumptions, market conditions, strategy of our Company, etc., For further details on the use of the Issue Proceeds, please refer chapter titled "*Objects of the Issue*" beginning on page 95 of this Prospectus. The deployment of funds for the purposes described above is at the discretion of our Company's Board of Directors.

The fund requirement and deployment is based on internal management estimates and has not been appraised by any bank or financial institution. Accordingly, within the parameters as mentioned in the chapter titled "*Objects of the Issue*" beginning on page 95 of this Prospectus, the Management will have significant flexibility in applying the proceeds received by our Company from the Issue. Our Board of Directors will monitor the proceeds of this Issue. However, Audit Committee will monitor the utilization of the proceeds of this Issue and prepare the statement for utilization of the proceeds of this Issue. However in accordance with Section 27 of the Companies Act, 2013, a company shall not vary the objects of the Issue without our Company being authorised to do so by our shareholders by way of special resolution and other compliances in this regard. Our Promoters and controlling shareholder shall provide exit opportunity to such shareholders who do not agree to the proposal to vary the objects, at such price, and in such manner, as may be prescribed by SEBI, in this regard.

37. Our future funds requirements, in the form of issue of capital or securities and/or loans taken by us, may be prejudicial to the interest of the shareholders depending upon the terms on which they are eventually raised.

We may require additional capital from time to time depending on our business needs. Any issue of shares or convertible securities would dilute the shareholding of the existing shareholders and such issuance may be done on terms and conditions, which may not be favourable to the then existing shareholders. If such funds are raised in the form of loans or debt, then it may substantially increase our interest burden and decrease our cash flows, thus prejudicially affecting our profitability and ability to pay dividends to our shareholders.

38. The deployment of funds raised through this Issue shall not be subject to any Monitoring Agency and shall be purely dependent on the discretion of the management of our Company.

Since, the Issue size is less than Rs.10,000 lakh, there is no mandatory requirement of appointing an Independent Monitoring Agency for overseeing the deployment of utilization of funds raised through this Issue. The deployment of these funds raised through this Issue, is hence, at the discretion of the management and the Board of Directors of our Company and will not be subject to monitoring by any independent agency. Any inability on our part to effectively utilize the Issue proceeds could adversely affect our financials.

However, Audit Committee will monitor the utilization of the proceeds of this Issue and prepare the statement for utilization of the proceeds of this Issue. However in accordance with Section 27 of the Companies Act, 2013, a company shall not vary the objects of the Issue without our Company being authorised to do so by our shareholders by way of special resolution and other compliances in this regard. Our Promoters and controlling shareholder shall provide exit opportunity to such shareholders who do not agree to the proposal to vary the objects, at such price, and in such manner, as may be prescribed by SEBI, in this regard.

39. Our success depends largely upon the services of our Directors, Promoters and other Key Managerial Personnel and our ability to attract and retain them. Demand for Key Managerial

Personnel in the industry is intense and our inability to attract and retain Key Managerial Personnel may affect the operations of our Company.

Our success is substantially dependent on the expertise and services of our Directors, Promoter and our Key Managerial Personnel (“KMP”). They provide expertise which enables us to make well informed decisions in relation to our business and our future prospects. Our future performance will depend upon the continued services of these persons. Demand for KMP in the industry is intense. We cannot assure you that we will be able to retain any or all, or that our succession planning will help to replace, the key members of our management. The loss of the services of such key members of our management team and the failure of any succession plans to replace such key members could have an adverse effect on our business and the results of our operations.

40. In addition to normal remuneration or benefits and reimbursement of expenses, some of our Directors and Key Managerial Personnel are interested in our Company to the extent of their shareholding, dividend entitlement, if any, loan availed by our Company, etc.

Our Directors and Key Managerial Personnel (“KMP”) are interested in our Company to the extent of remuneration paid to them for services rendered and reimbursement of expenses payable to them. In addition, some of our Directors and KMP may also be interested to the extent of their shareholding and dividend entitlement in our Company. For further information, see “*Capital Structure*” and “*Our Management*” on pages 81 and 163, respectively, of this Prospectus.

41. Our Promoters and members of the Promoter Group will continue jointly to retain majority control over our Company after the Offer, which will allow them to determine the outcome of matters submitted to shareholders for approval.

After completion of the Offer, our Promoters and members of the Promoter Group will collectively own 69.97 % of our equity share capital. As a result, our Promoters, together with the members of the Promoter Group, will continue to exercise a significant degree of influence over us and will be able to control the outcome of any proposal that can be approved by a majority shareholder vote, including, the election of members to our Board, in accordance with the Companies Act and our Articles of Association. Such a concentration of ownership may also have the effect of delaying, preventing or deterring a change in control of our Company.

In addition, our Promoters will continue to have the ability to cause us to take actions that are not in, or may conflict with, our interests or the interests of some or all of our creditors or minority shareholders, and we cannot assure you that such actions will not have an adverse effect on our future financial performance or the price of our Equity Shares.

42. Our operations may be adversely affected in case of industrial accidents at our production facility.

Usage and handling of machinery or any sharp part of any machinery by labour during any part of production process, handling of materials, etc. may result in accidents and fires, which could cause indirect injury to our labour, employees, other persons on the site and could also damage our properties thereby affecting our operations. Occurrence of accidents could hamper our production and consequently affect our profitability.

43. We have in the past entered into related party transactions and may continue to do so in the future.

Our Company has entered into transactions with our certain related parties. While we believe that all such transactions have been conducted on an arm’s length basis, there can be no assurance that we could not have achieved more favourable terms had such transactions not been entered into with related parties. Furthermore, it is likely that we will enter into related party transactions in the future. There can be no assurance that such transactions, individually or in the aggregate, will not have an adverse effect on our financial condition and results of operation. For details on the transactions entered by us, please refer to chapter “*Related Party Transactions*” beginning on page 181 of the Prospectus.

44. We may not be successful in implementing our business and growth strategies.

The success of our business depends substantially on our ability to implement our business and growth strategies effectively. Even though we have successfully executed our business strategies in the past, there is no guarantee that we can implement the same on time and within the estimated budget going forward, or that we will be able to meet the expectations of our targeted customers. Changes in regulations applicable to us may also make it difficult to implement our business strategies. Failure to implement our business and growth strategies would have a material adverse effect on our business and results of operations.

45. The average cost of acquisition of Equity Shares by our Promoters could be lower than the floor price.

Our Promoters average cost of acquisition of Equity Shares in our Company may be lower than the Floor Price of the Price Band as may be decided by the Company in consultation with the Lead Manager. For further details regarding average cost of acquisition of Equity Shares by our Promoters in our Company and build-up of Equity Shares by our Promoters in our Company, please refer chapter title “*Capital Structure*” beginning on page 81 of this Prospectus.

Issue related risk

46. We have issued Equity Shares in the last twelve months, the price of which may be lower than the Issue Price.

Our Company has issued 1,06,69,000 Equity Shares in the last twelve months which may be at a price lower than the issue price. For further details of Equity Shares issued, please refer to chapter titled, ‘*Capital Structure*’ beginning on page 81 of this Prospectus.

47. The Issue price of our Equity Shares may not be indicative of the market price of our Equity Shares after the Issue and the market price of our Equity Shares may decline below the issue price and you may not be able to sell your Equity Shares at or above the Issue Price.

The Issue Price of our Equity Shares will be determined by book built method. This price is based on numerous factors (For further information, please refer chapter titled “*Basis for Issue Price*” beginning on page 104 of this Prospectus) and may not be indicative of the market price of our Equity Shares after the Issue. The market price of our Equity Shares could be subject to significant fluctuations after the Issue, and may decline below the Issue Price. We cannot assure you that you will be able to sell your Equity Shares at or above the Issue Price. Among the factors that could affect our share price include without limitation. The following:

- Half yearly variations in the rate of growth of our financial indicators, such as earnings per share, net income and revenues;
- Changes in revenue or earnings estimates or publication of research reports by analysts;
- Speculation in the press or investment community;
- General market conditions; and
- Domestic and international economic, legal and regulatory factors unrelated to our performance.

48. Sale of Equity Shares by our Promoters or other significant shareholder(s) may adversely affect the trading price of the Equity Shares.

Any instance of disinvestments of equity shares by our Promoters or by other significant shareholder(s) may significantly affect the trading price of our Equity Shares. Further, our market price may also be adversely affected even if there is a perception or belief that such sales of Equity Shares might occur.

EXTERNAL RISK FACTORS

Industry Risks

49. Changes in government regulations or their implementation could disrupt our operations and adversely affect our business and results of operations.

Our business and industry is regulated by different laws, rules and regulations framed by the Central and State Government. These regulations can be amended/ changed on a short notice at the discretion of the Government. If we fail to comply with all applicable regulations or if the regulations governing our business or their implementation change adversely, we may incur increased costs or be subject to penalties, which could disrupt our operations and adversely affect our business and results of operations.

Other Risks

50. You may be subject to Indian taxes arising out of capital gains on the sale of the Equity.

Under current Indian tax laws and regulations, capital gains arising from the sale of equity shares in an Indian company are generally taxable in India. Any gain above Rs. 1,00,000 realised on the sale of shares on a stock exchange held for more than 12 months will be subject to long term capital gains tax in India even if the securities transaction tax (“STT”) has been paid on the transaction as per new Finance Act, 2018. Further, any gain realised on the sale of listed equity shares held for a period of 12 months or less will be subject to short term capital gains tax in India, if securities transaction tax has been paid on the transaction. Capital gains arising from the sale of shares will be exempt from taxation in India in cases where an exemption is provided under a tax treaty between India and the country of which the seller is a resident. Generally, Indian tax treaties do not limit India’s ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdictions on gains arising from a sale of the shares subject to relief available under the applicable tax treaty or under the laws of their own jurisdiction.

51. Significant differences exist between Indian GAAP and other accounting principles, such as U.S. GAAP and IFRS, which may be material to the financial statements prepared and presented in accordance with SEBI ICDR Regulations contained in this prospectus.

As stated in the reports of the Auditor included in this Prospectus under chapter “*Financial Statements as restated*” beginning on page 183, the financial statements included in this Prospectus are based on financial information that is based on the audited financial statements that are prepared and presented in conformity with Indian GAAP and restated in accordance with the SEBI ICDR Regulations, and no attempt has been made to reconcile any of the information given in this Prospectus to any other principles or to base it on any other standards. Indian GAAP differs from accounting principles and auditing standards with which prospective investors may be familiar in other countries, such as U.S. GAAP and IFRS. Significant differences exist between Indian GAAP and U.S. GAAP and IFRS, which may be material to the financial information prepared and presented in accordance with Indian GAAP contained in this Prospectus. Accordingly, the degree to which the financial information included in this Prospectus will provide meaningful information is dependent on familiarity with Indian GAAP, the Companies Act and the SEBI ICDR Regulations. Any reliance by persons not familiar with Indian GAAP on the financial disclosures presented in this Prospectus should accordingly be limited.

52. Taxes and other levies imposed by the Government of India or other State Governments, as well as other financial policies and regulations, may have a material adverse effect on our business, financial condition and results of operations.

Taxes and other levies imposed by the Central or State Governments in India that affect our industry include:

- custom duties on imports of raw materials and components;
- excise duty on certain raw materials and components;

- central and state sales tax, value added tax and other levies; and
- Other new or special taxes and surcharges introduced on a permanent or temporary basis from time to time.

These taxes and levies affect the cost and prices of our products and therefore demand for our product. An increase in any of these taxes or levies, or the imposition of new taxes or levies in the future, may have a material adverse effect on our business, profitability and financial condition.

53. Political instability or a change in economic liberalization and deregulation policies could seriously harm business and economic conditions in India generally and our business in particular.

The GoI has traditionally exercised and continues to exercise influence over many aspects of the economy. Our business and the market price and liquidity of our Equity Shares may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. The rate of economic liberalization could change, and specific laws and policies affecting the information technology sector, foreign investment and other matters affecting investment in our securities could change as well. Any significant change in such liberalization and deregulation policies could adversely affect business and economic conditions in India, generally, and our business, prospects, financial condition and results of operations, in particular.

54. Global economic, political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.

Global economic and political factors that are beyond our control, influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, fluctuations in commodities markets, consumer debt levels, unemployment trends and other matters that influence consumer confidence, spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency and magnitude, which may negatively affect our stock prices.

55. Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.

Under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

56. The extent and reliability of Indian infrastructure could adversely affect our Company's results of operations and financial condition.

India's physical infrastructure is in developing phase compared to that of many developed nations. Any congestion or disruption in its port, rail and road networks, electricity grid, communication systems or any other public facility could disrupt our Company's normal business activity. Any deterioration of India's physical infrastructure would harm the national economy, disrupt the transportation of goods and supplies, and add costs to doing business in India. These problems could interrupt our Company's business operations, which could have an adverse effect on its results of operations and financial condition.

57. Any downgrading of India's sovereign rating by an independent agency may harm our ability to raise financing.

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing may be available. This could have an adverse effect on our business and future financial performance, our ability to obtain financing for capital expenditures and the trading price of our Equity Shares.

58. Natural calamities could have a negative impact on the Indian economy and cause our Company's business to suffer.

India has experienced natural calamities such as earthquakes, tsunami, floods etc. in recent years. The extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.

59. Terrorist attacks, civil unrests and other acts of violence or war involving India or other countries could adversely affect the financial markets, our business, financial condition and the price of our Equity Shares.

Any major hostilities involving India or other acts of violence, including civil unrest or similar events that are beyond our control, could have a material adverse effect on India's economy and our business. Incidents such as the terrorist attacks, other incidents such as those in US, Indonesia, Madrid and London, and other acts of violence may adversely affect the Indian stock markets where our Equity Shares will trade as well the global equity markets generally. Such acts could negatively impact business sentiment as well as trade between countries, which could adversely affect our Company's business and profitability. Additionally, such events could have a material adverse effect on the market for securities of Indian companies, including the Equity Shares.

PROMINENT NOTES

1. Public Issue of 45,76,000 Equity Shares of face value of Rs. 10 each of our Company for cash at a price of Rs. 26 per Equity Share ("Issue Price") aggregating to Rs. 1189.76 Lakhs, of which 2,32,000 Equity Shares of face value of Rs. 10 each was reserved for subscription by Market Maker to the Issue ("Market Maker Reservation Portion"). The Issue less the Market Maker Reservation Portion i.e. Net Issue of 43,44,000 Equity Shares of face value of Rs. 10 each is hereinafter referred to as the "Net Issue". The Issue and the Net Issue will constitute 30.02% and 28.49%, respectively of the post Issue paid up equity share capital of the Company.

INTRODUCTION TO AGRICULTURE SECTOR IN INDIA

At 157.35 million hectares, India holds the second largest agricultural land in the world. With 20 agro-climatic regions, all 15 major climates in the world exist in India. India is the largest producer of spices, pulses, milk, tea, cashew and jute; and the second largest producer of wheat, rice, fruits and vegetables, sugarcane, cotton and oilseeds. Further, India is second in global production of fruits and vegetables, and is the largest producer of mango and banana. It also has the highest productivity of grapes in the world.

Total food grains production in India reached an all-time high of 275.68 million tonnes (MT) in FY17 (as per 4th Advance Estimates). During 2017-18 crop year, food grain production is expected to reach a record 277.49 million tonnes. Rice and wheat production in the country stood at 110.15 MT and 98.38 MT, respectively as on FY17. Milk production was estimated at 165.4 million tonnes during FY17, while meat production was 7.4 million tonnes. India is among the 15 leading exporters of agricultural products in the world. Agricultural exports from India reached US\$ 28.28 billion during April-December 2017.

The Government plans to revamp the old model Agriculture Produce Marketing Committee Act (APMC Act) and carve out the provisions on contract farming into a separate law to form a new Contract Farming Act. The Electronic National Agriculture Market (eNAM) was launched in April 2016 to create a unified national market for agricultural commodities by networking existing Agriculture Produce Marketing Committees (APMCs). Under Union Budget 2018-19, an Agri-Market Infrastructure Fund was announced to develop and upgrade the infrastructure in 22,000 Gramen Agricultural Markets (GrAMs) and 585 APMCs. Minimum wage for unskilled agricultural labour in C-class towns in central sphere has been fixed at US\$ 5.28 (Rs 350) per day by the Government, effective from November 2016.

The Government of India has introduced several projects to assist the agriculture sector. They are Pradhanmantri Gram Sinchai Yojana: The scheme aims to irrigate the field of every farmer and improving water use efficiency to achieve the motto ‘Per Drop More Crop’. Overall the scheme ensures improved access to irrigation. Around 285 new irrigation projects will be undertaken in 2018 to provide irrigation for 18.8 million hectares of land. As per Union Budget 2018-19 the scheme has been allocated US\$ 401.6 million. Paramparagat Krishi Vikas Yojana (PKVY): The scheme aims to motivate groups of farmers to take up organic farming.

INTRODUCTION TO INDIAN SEED INDUSTRY

Seed is the basic and most critical input for sustainable agriculture. The response of all other inputs depends on quality of seeds to a large extent. It is estimated that the direct contribution of quality seed alone to the total production is about 15 – 20% depending upon the crop and it can be further raised up to 45% with efficient management of other inputs. The developments in the seed industry in India, particularly in the last 30 years, are very significant. A major re-structuring of the seed industry by Government of India

through the National Seed Project Phase-I (1977-78), Phase-II (1978-79) and Phase-III (1990-1991), was carried out, which strengthened the seed infrastructure that was most needed and relevant around those times. This could be termed as a first turning point in shaping of an organized seed industry. Introduction of New Seed Development Policy (1988 – 1989) was yet another significant mile stone in the Indian Seed Industry, which transformed the very character of the seed industry. The policy gave access to Indian farmers of the best of seed and planting material available anywhere on the world. The policy stimulated appreciable investments by private individuals, Indian Corporate and MNCs in the Indian seed sector with strong R&D base for product development in each of the seed companies with more emphasis on high value hybrids of cereals and vegetables and hi-tech products such as Bt. Cotton. As a result, farmer has a wide product choice and seed industry today is set to work with a ‘farmer centric’ approach and is market driven. However, there is an urgent need for the State Seed Corporations also to transform themselves in tune with the industry in terms of infrastructure, technologies, approach and the management culture to be able to survive in the competitive market and to enhance their contribution in the national endeavour of increasing food production to attain food & nutritional security.

GLOBAL ECONOMIC OVERVIEW

According to the International Monetary Fund (IMF), the global economy is experiencing a near-synchronous recovery, the most broad-based since 2010. In 2017, roughly three-quarters of countries experienced improvements in their growth rates, the highest share since 2010. The latest World Economic Outlook (WEO) of the IMF shows global GDP growth accelerated to around 3.6 percent in 2017 from 3.2 percent in 2016, and the forecast for 2018 has been upgraded by 0.2 percentage points to 3.9 percent. Although rebounding, global growth is still well below levels reached in the 2000s.

One reason why the recovery has spread around the globe is that world trade in goods and services has finally emerged from its torpor, registering 4.7 percent real volume growth in 2017 compared with 2.5 percent in 2016. Another reason is that commodity producers such as Russia, Brazil, and Saudi Arabia, which for the past few years been suffering from depressed prices, have benefitted from the upswing in demand. Commodity prices increased smartly in 2017, led by petroleum, whose price rose by 16 percent to reach \$61 per barrel by the end of the year.

Even as global growth and commodity prices have surged, inflation has remained remarkably quiescent, remaining below 2 percent in the main advanced regions. Consequently, monetary policies in the US, Eurozone and Japan have remained highly accommodative despite a strong recovery. These unusual settings—rapid growth, ultra-low interest rates—at a late stage in the economic cycle have produced the rarest of combinations: record-high high bond prices and stock market valuations, both at the same time. The consensus forecast calls for these conditions to be sustained in 2018, as companies respond to buoyant demand conditions by stepping up investment, some governments (such as the US) embark on expansionary fiscal policies, while advanced country monetary policies remain stimulative and world trade continues to grow briskly.

What are the risks? Of course, there are the usual geo-political and geo-economic risks: war in the Korean peninsula; political upheaval in the Middle East; aggressive output cuts by Saudi Arabia (and Russia) in advance of the planned listing of the Saudi Arabian oil company, Aramco, which could force oil prices even higher; a final reckoning from China’s unprecedented credit surge in the form of capital controls, slowdown in growth, and a sharply depreciating currency with consequences for the global economy (Economic Survey, 2016-17, Chapter 1); and trade tensions that could lead to skirmishes, and then spiral out of control. But perhaps the main risks lie on the macro-finance front in advanced economies. These stem from three, inter-related, sources:

- Asset valuations (price-equity ratios) tend to revert to their mean. And the faster and higher they climb, especially so late in the economic cycle, the greater the risk of sharp corrections.

- Simultaneously high valuations of both bonds and equities tend to be briefly lived because they suffer from an acute tension: if future earnings and economic growth are so bright, justifying high equity prices, interest rates cannot be forever so low.
- And if interest rates rise—or if markets even sense that central banks will need to shift their stance—both bond and equity prices could correct sharply. A plausible scenario would be the following. The IMF is now forecasting that advanced country output gaps will close in 2018 for the first time since the Global Financial Crisis. As this occurs, wages would start rising, eating into profits (which would prick equity valuations); and as inflation rises in tandem, policy makers would be forced into raising rates, deflating bond valuations and further undermining share prices.

What would happen to growth if asset prices correct? Surely, the impact would be far smaller than it was in 2007-09, because advanced countries are far less vulnerable than they were a decade ago. In particular, the leverage tied to these assets is much lower, which would minimize contagious propagation; while banks are much better buffered, with higher levels of capital and core deposits, and lower levels of risky assets.

Even so, there would be some consequences. For one, a large decline in wealth would force advanced country consumers to cut back on their spending, which in turn would lead firms to curtail their investments. And if this happens, monetary and fiscal policies would have much less room for expansionary manoeuvre since interest rates are already low while government debts are high. And the political implications of yet another decline in asset prices, the second in a decade, could also be significant, with effects that are difficult to imagine.

In sum, assessing future risks hinges on two calls: interest rate policy and asset valuations. On policy, extraordinarily low rates have, to paraphrase Paul Krugman, become “an obsession in search of a justification.” Initially justified by the dislocations caused by the Global Financial Crisis, then by large output gaps, they are now defended on the grounds that inflation remains weak, even as the slack in product and labor markets is disappearing rapidly. Will the gathering new evidence on closing output gaps and rising employment dispel that obsession?

On valuations, the prognosticator must navigate a narrow strait: steering clear of the “Cry of Wolf” trap (bond prices will finally, finally correct, having defied the prediction of correction in each of the last several years), without succumbing to the siren call of “This Time is Different” (stock valuations are sustainable this time because interest rates will remain at historic lows).

OVERVIEW OF INDIA’S ECONOMIC PERFORMANCE IN 2017-18

Economic activity

The key question going forward is whether the economy has troughed, and if so at what pace it will recover toward its medium term trend. High frequency indicators do suggest that a robust recovery is taking hold as reflected in a variety of indicators, including overall GVA, manufacturing GVA, the IIP, gross capital formation (Figure 17) and exports.

Similarly, real non-food credit growth has rebounded to 4 percent in November 2017 on a year-on-year basis, while the squeeze on real credit to industry is abating (Figure 18). Moreover, the flow of nonbank resources to the corporate sector, such as bond market borrowing and lending by NBFCs, has increased by 43 percent (April-December 2017 compared to the same period a year ago), substituting in part for weak bank credit. Rural demand, proxied by motor cycle sales, and auto sales, while not yet back to its pre-demonetization trend, are recovering (Figures 19 and 20).

Perhaps most significantly, the behaviour of manufacturing exports and imports in the second and third quarters of this fiscal year has started to reverse. The re-acceleration of export growth to 13.6 percent in the third quarter of FY2018 and deceleration of import growth to 13.1 percent, in line with global trends, suggest that the demonetization and GST effects are receding. Services export and private remittances are also rebounding (Figure 21).

On demonetization specifically, the cash-to-GDP ratio has stabilized, suggesting a return to equilibrium. The evidence is that since about June 2017 the trend in currency is identical to that pre-demonetization (Figure 22). The stabilization also permits estimation of the impact of demonetization: about Rs. 2.8 lakh Crores less cash (1.8 percent of GDP) and about Rs. 3.8 lakh Crores less high denomination notes (2.5 percent of GDP).

A final, important factor explaining the growth recovery is fiscal, which is providing a boost to aggregate demand. For reasons related to smoothening the transition, GST revenues will only be collected for 11 months, which is akin to a tax cut for consumers. Meanwhile, overall revenue expenditure growth by the central and state governments remains strong at 11.7 percent (April to November). Cyclical conditions may also lead to lower tax and non-tax revenues, which act as an automatic stabilizer.

All this said, while the direction of the indicators is positive, their level remains below potential. IIP growth (April-November 2017 over same period in the previous year) is 3.2 percent, real credit growth to industry

is still in negative territory, and the growth in world trade remains less than half its level of a decade ago. Moreover, even though the cost of equity has fallen to low levels, corporates have not raised commensurate amounts of capital, suggesting that their investment plans remain modest (Box 6). In other words, the twin engines that propelled the economy's take-off in the mid-2000s – exports and investment – are continuing to run below take-off speed.

Meanwhile, developments in the agriculture sector bear monitoring. The trend acceleration in rural wages (agriculture and non-agriculture), which had occurred through much of 2016 because of increased activity on the back of a strong monsoon, seems to have decelerated beginning just before the kharif season of 2017-18 (Figure 23) but it is still greater than much of the last three years. Three crop-specific developments are evident. Sowing has been lower in both kharif and rabi, reducing the demand for labor. The acreage for kharif and rabi for 2017-18 is estimated to have declined by 6.1 percent and 0.5 percent, respectively. Pulses and oilseeds have seen an increase in sowing, but this has translated into unusually low farmgate prices (below their minimum support price, MSP), again affecting farm revenues. The so-called TOP perishables (tomatoes, onions, and potatoes) have meanwhile fluctuated between high and low prices, engendering income uncertainty for farmers.

The CSO has forecast real GDP growth for 2017-18 at 6.5 percent. However, this estimate has not fully factored in the latest developments in the third quarter, especially the greater-than-CSO-forecast exports and government contributions to demand. Accordingly, real GDP growth for 2017-18 as a whole is expected to be close to 6 3/4 percent. Given real GDP growth of 6 percent in the first half, this implies that growth in the second half would rebound to 7.5 percent, aided by favourable base effects, especially in the fourth quarter.

Average CPI inflation for the first nine months has averaged 3.2 percent and is projected to reach 3.7 percent for the year as a whole. This implies average CPI inflation in the last quarter of 5 percent, in line with the RBI's forecast. Therefore, the GDP deflator is expected to grow by 3.6 percent for 2017-18, somewhat higher than the CSO's forecast of 2.8 percent. Consequentially, nominal GDP growth is estimated at 10.5 percent, compared with the CSO's 9.5 percent estimate.

OUTLOOK FOR 2018-19

The outlook for 2018-19 will be determined by economic policy in the run-up to the next national election. If macro-economic stability is kept under control, the ongoing reforms are stabilized, and the world economy remains buoyant as today, growth could start recovering towards its medium term economic potential of at least 8 percent.

Consider the components of demand that will influence the growth outlook. The acceleration of global growth should in principle provide a solid boost to export demand. Certainly, it has done so in the past, particularly in the mid-2000s when the booming global economy allowed India to increase its exports by more than 26 percent per annum. This time, the export response to world growth has been in line with the long-term average, but below the response in the mid-2000s. Perhaps it is only a matter of time until exports start to grow at a healthy rate. Remittances are already perking up, and may revive further due to higher oil prices.

Private investment seems poised to rebound, as many of the factors exerting a drag on growth over the past year finally ease off. Translating this potential into an actual investment rebound will depend on the resolution and recapitalization process. If this process moves ahead expeditiously, stressed firms will be put in the hands of stronger ownership, allowing them to resume spending. But if resolution is delayed, so too will the return of the private capex cycle. And if this occurs public investment will not be able to step into the breach, since it will be constrained by the need to maintain a modicum of fiscal consolidation to head off market anxieties.

Consumption demand, meanwhile, will encounter different tugs. On the positive side, it will be helped by the likely reduction in real interest rates in 2018-19 compared to the 2017-18 average. At the same time, average oil prices are forecast by the IMF to be about 12 percent higher in 2018-19, which will crimp real incomes and spending—assuming the increase is passed on into higher prices, rather than absorbed by the budget through excise tax reductions or by the oil marketing companies. And if higher oil prices requires tighter monetary policy to meet the inflation target, real interest rates could exert a drag on consumption.

Putting all these factors together, a pick-up in growth to between 7 and 7.5 percent in 2018-19 can be forecasted, re-instating India as the world's fastest growing major economy. This forecast is subject to upside potential and downside risks. The biggest source of upside potential will be exports. If the relationship between India's exports and world growth returns to that in the boom phase, and if world growth in 2018 is as projected by the IMF, then that could add another ½ percentage point to growth.

Another key determinant of growth will be the implementation of the IBC process. Here timeliness in resolution and acceptance of the IBC solutions must be a priority to kick-start private investment. The greater the delays in the early cases, the greater the risk that uncertainty will soon shroud the entire IBC process. It is also possible that expeditious resolution may require the government to provide more resources to PSBs, especially if the haircuts required are greater than previously expected, the ongoing process of asset quality recognition uncovers more stressed assets, and if new accounting standards are implemented.

Persistently high oil prices (at current levels) remain a key risk. They would affect inflation, the current account, the fiscal position and growth, and force macroeconomic policies to be tighter than otherwise. One eventuality to guard against is a classic emerging market “sudden stall” induced by sharp corrections to elevated stock prices. (Box 9 suggests that India's stock price surge is different from that in other countries but does not warrant sanguine-ness about its sustainability.) Savers, already smarting from reduced opportunities in the wake of demonetization, from depressed gold prices, and from lower nominal interest rates, would feel aggrieved, leading to calls for action. Stock price corrections could also trigger capital outflows, especially if monetary policy unwinds less hesitantly in advanced countries and if oil prices remain high. Policy might then have to respond with higher interest rates, which could choke off the nascent recovery. The classic emerging market dilemma of reconciling the trade-off between macro-stability and growth could then play itself out.

A key policy question will be the fiscal path for the coming year. Given the imperative of establishing credibility after this year, given the improved outlook for growth (and hence narrowing of the output gap), and given the resurgence of price pressures, fiscal policy should ideally have targeted a reasonable fiscal consolidation. However, setting overly ambitious targets for consolidation—especially in a pre-election year—based on optimistic forecasts that carry a high risk of not being realized will not garner credibility

either. Pragmatically steering between these extremes would suggest the following: a modest consolidation that credibly signals a return to the path of gradual but steady fiscal deficit reductions.

Against this overall economic and political background, economic management will be challenging in the coming year. If the obvious pitfalls (such as fiscal expansion) are avoided and the looming risks are averted that would be no mean achievement.

GLOBAL MANUFACTURING SECTOR

World manufacturing growth

World manufacturing growth accelerated in the third quarter of 2017, as economic recovery strengthened worldwide. Positive results reported in the First half of this year carried over into the third quarter. Steady progress over several consecutive quarters characterizes both industrialized and developing and emerging industrial economies, and prospects for sustained global industrial growth in forthcoming periods are good (Figure 1). For the first time in several years, industrial growth moved back to the positive zone in all of the major economies.

The driving forces behind the positive developments in global manufacturing were improving business conditions, rising consumer spending, promising investment plans directed towards developing economies and healthy external demand support activities. On the other hand, risks for global growth such as concerns where Brexit negotiations will lead to, changes in global trade arrangements or high geopolitical uncertainty have not yet dissipated.

Global manufacturing output rose by 4.5 per cent in the third quarter of 2017 compared to the same period of the previous year. This impressive gain was based on an already strong growth throughout the first half of 2017. The disaggregated data points to the thriving performance of major industrialized economies with a significant share in global manufacturing output, namely the United States, Japan, Germany, the Republic of Korea, Italy as well as Brazil. The manufacturing output of China, the world's largest manufacturer, continued to register a high growth rate in the third quarter.

Industrialized economies as a whole exhibited record-breaking growth at 3.1 per cent in the third quarter of 2017 - the highest manufacturing output growth in a year-by-year comparison in the post-crisis period. Such growth was attributable to Europe's dynamic recovery, where a 4.0 per cent growth was achieved. East Asian industrialized economies experienced a healthy 4.5 per cent year-by-year upward trend and the nearly two-year consecutive slump has all but been forgotten. Relative lower growth was observed in the North America region, where manufacturing output expanded by a mere 1.4 per cent.

A reversal of negative trends in Argentina and Brazil has had a considerable impact on recovery in the Latin America region. Manufacturing output of the region rose by 2.5 per cent in the third quarter of 2017, which also resulted in an accelerated growth rate of developing and emerging industrial economies as a whole at 6.2 per cent. A relatively higher increase was achieved by Asia's developing economies with a 6.5 per cent expansion recorded in the third quarter on a year-to-year basis. The manufacturing production of African regions remained in the positive zone of high growth despite the weak foundation of these countries' manufacturing industries. According to UNIDO's latest estimates, African manufacturing experienced a 6.4 per cent year-to-year gain in the third quarter of 2017.

Entering the second half of the year 2017, recovery in global manufacturing has evolved from being relatively modest to becoming more dynamic. Improvements were recorded in both industrialized economies and developing and emerging industrial economies.

Key Findings - Global manufacturing Sector

Global manufacturing production maintained a positive growth rate in all industries in the third quarter of 2017. Advanced manufacturing such as automation, robotics and digital products have been experiencing a steady expansion at the global level. Shifting from low technology to high technology manufacturing industries plays a key role in promoting innovation in the long term and, moreover, determines the positioning of economies within the global market. Therefore, the competition between advanced and emerging economies in high-tech leadership will be compelling and crucial for both groups. In the wake of the fourth industrial revolution, embracing emerging technologies brings global manufacturing production to a new level. The high growth rate in medium high and high technology industries observed in the third quarter of 2017 led to an increase in high value goods, indicating a high level of consumer confidence (Figure 4). UNIDO data largely support this pro-technology approach.

Medium high and high technology manufacturing industries have repeatedly held top positions when looking at year-by-year comparisons - these industries witnessed a 6.0 per cent growth rate, a record-breaking result in the last five years. When reviewing the individual top industries, the manufacturing of computers, electronics and optical products grew by 8.3 per cent, the production of machinery and

equipment rose by 8.0 per cent, the manufacturing of pharmaceutical products by 6.7 per cent (which recorded a visibly accelerated growth rate compared to the results of the previous quarter), the production of electrical equipment by 6.1 per cent and the manufacturing of motor vehicles by 5.9 per cent. The production in all of the above- mentioned industries was dominated by developing and emerging industrial economies compared with industrialized economies (Figure 5).

As regards medium technology manufacturing industries, 2.3 per cent growth was registered worldwide in the third quarter of 2017. The global manufacturing of rubber and plastic products increased by 3.4 per cent in a year-by-year comparison, while the manufacturing of non-metallic mineral products recorded a growth rate of 3.0 per cent. The global manufacturing of basic metals rose at a moderate pace of 1.6 per cent.

In low technology manufacturing industries, overall global production rose by 3.3 per cent in the third quarter of 2017 compared to the same period of the previous year. The global manufacturing of fabricated metal products grew by 4.6 per cent, followed by the manufacturing of furniture with a 4.3 per cent increase. Relatively high growth rates were maintained worldwide in the production of basic consumer goods - the global manufacturing of food products rose by 3.8 per cent, beverages by 3.4 per cent and the global manufacturing of both textile and wearing apparel increased by slightly over 2.5 per cent. The growth rate of the manufacturing of paper products expanded by 2.4 per cent, while coke and refined petroleum products and printing remained below 2.0 per cent.

The growth rates for selected industries are presented below. Additional statistics on the growth rates in the third quarter of 2017 are available in the Statistical Tables.

INDIAN MANUFACTURING SECTOR

Introduction

Manufacturing has emerged as one of the high growth sectors in India. Prime Minister of India, Mr Narendra Modi, had launched the 'Make in India' program to place India on the world map as a manufacturing hub and give global recognition to the Indian economy. India is expected to become the fifth largest manufacturing country in the world by the end of year 2020*.

Market Size

The Gross Value Added (GVA) at basic constant (2011-12) prices from the manufacturing sector in India grew 7.9 per cent year-on-year in 2016-17, as per the first revised estimates of annual national income published by the Government of India. Under the Make in India initiative, the Government of India aims to increase the share of the manufacturing sector to the gross domestic product (GDP) to 25 per cent by 2022, from 16 per cent, and to create 100 million new jobs by 2022. Business conditions in the Indian manufacturing sector continue to remain positive.

Investments

With the help of Make in India drive, India is on the path of becoming the hub for hi-tech manufacturing as global giants such as GE, Siemens, HTC, Toshiba, and Boeing have either set up or are in process of setting up manufacturing plants in India, attracted by India's market of more than a billion consumers and increasing purchasing power. Cumulative Foreign Direct Investment (FDI) in India's manufacturing sector reached US\$ 72.31 billion during April 2000-September 2017. India has become one of the most attractive destinations for investments in the manufacturing sector.

Road Ahead

India is an attractive hub for foreign investments in the manufacturing sector. Several mobile phone, luxury and automobile brands, among others, have set up or are looking to establish their manufacturing bases in the country.

The manufacturing sector of India has the potential to reach US\$ 1 trillion by 2025 and India is expected to rank amongst the top three growth economies and manufacturing destination of the world by the year 2020. The implementation of the Goods and Services Tax (GST) will make India a common market with a GDP of US\$ 2.5 trillion along with a population of 1.32 billion people, which will be a big draw for investors.

With impetus on developing industrial corridors and smart cities, the government aims to ensure holistic development of the nation. The corridors would further assist in integrating, monitoring and developing a conducive environment for the industrial development and will promote advance practices in manufacturing.

AGRICULTURE SECTOR IN INDIA

Introduction

Agriculture plays a vital role in India's economy. Over 58 per cent of the rural households depend on agriculture as their principal means of livelihood. The share of primary sectors* (including agriculture, livestock, forestry and fishery) is estimated to be 20.4 per cent of the Gross Value Added (GVA) during 2016-17 at current prices.

The Indian food industry is poised for huge growth, increasing its contribution to world food trade every year due to its immense potential for value addition, particularly within the food processing industry. The Indian food and grocery market is the world's sixth largest, with retail contributing 70 per cent of the sales. The Indian food processing industry accounts for 32 per cent of the country's total food market, one of the largest industries in India and is ranked fifth in terms of production, consumption, export and expected growth. It contributes around 8.80 and 8.39 per cent of Gross Value Added (GVA) in Manufacturing and Agriculture respectively, 13 per cent of India's exports and six per cent of total industrial investment.

Market Size

India's GDP is expected to grow at 7.4 per cent¹ in 2018-19. India's food grain production reached 275.68 million tonnes in 2016-17 and is targeted at 274.55 million tonnes in 2017-18. India has been the world's largest producer of milk for the last two decades and contributes 19 per cent of the world's total milk production. India is emerging as the export hub of instant coffee which has led to exports of coffee increase 17 per cent in calendar year 2017 to reach US\$ 958.80 million.

India topped the list of shrimp exporters globally in 2016 with exports of US\$ 3.8 billion which are expected to double to US\$ 7 billion by 2022. Total area in India, sown with rabi crops reached 61.79 million hectares in January² 2018. India is the second largest fruit producer in the world. India's horticulture output reached 300.64 million tonnes in 2016-17 and is expected to reach 305.43 million tonnes in 2017-18.

Agricultural export constitutes 10 per cent of the country's exports and is the fourth-largest exported principal commodity. Agricultural exports from India reached US\$ 24.66 billion during April-November 2017 with exports of basmati, buffalo meat reaching US\$ 2.61 billion and US\$ 2.76 billion, respectively. India is the largest producer, consumer and exporter of spices and spice products. Spice exports from India grew by 6 per cent year-on-year between April-September 2017 to US\$ 1.37 billion.

Dairy sector in India is expected to grow at 15 per cent CAGR to reach Rs 9.4 trillion (US\$ 145.7) billion by 2020. The online food delivery industry grew at 150 per cent year-on-year with an estimated Gross Merchandise Value (GMV) of US\$ 300 million in 2016. The sector grew 15 per cent every quarter during January-September 2017.

Investments

According to the Department of Industrial Policy and Promotion (DIPP), the Indian agricultural services and agricultural machinery sectors have cumulatively attracted Foreign Direct Investment (FDI) equity inflow of about US\$ 1.99 billion and US\$ 466.31 million, respectively, during April 2000 to September 2017. The food processing sector attracted FDI of US\$ 8 billion in the same period.

Road Ahead

India is expected to achieve the ambitious goal of doubling farm income by 2022. The agriculture sector in India is expected to generate better momentum in the next few years due to increased investments in agricultural infrastructure such as irrigation facilities, warehousing and cold storage. Furthermore, the growing use of genetically modified crops will likely improve the yield for Indian farmers. India is expected to be self-sufficient in pulses in the coming few years due to concerted efforts of scientists to get early-maturing varieties of pulses and the increase in minimum support price.

India's Gross Value Added (GVA) at basic prices increased by 6.1 per cent during the July-September 2017 quarter, driven by agriculture and government spending. GVA from agriculture, forestry and fishing sector grew 1.7 per cent in this July-September 2017 quarter.

The government of India targets to increase the average income of a farmer household at current prices to Rs 219,724 (US\$ 3,420.21) by 2022-23 from Rs 96,703 (US\$ 1,505.27) in 2015-16.

Going forward, the adoption of food safety and quality assurance mechanisms such as Total Quality Management (TQM) including ISO 9000, ISO 22000, Hazard Analysis and Critical Control Points

(HACCP), Good Manufacturing Practices (GMP) and Good Hygienic Practices (GHP) by the food processing industry will offer several benefits.

ADVANTAGES IN INDIA

Robust Demand

A large population and rising urban and rural incomes have aided demand growth. External demand has also been growing especially from key markets like the Middle East. Demand for processed food rising with growing disposable income, urbanisation, young population and nuclear families. Changing lifestyle and increasing expenditure on health and nutritional foods.

Attractive Opportunities

Increasing demand for agricultural inputs such as hybrid seeds and fertilizers. Promising opportunities in storage facilities; potential storage capacity expansion of 35 million tonnes under the 12th Five Year Plan. Investment opportunities to arise in agriculture, food infrastructure and contract farming. Agrochemicals industries in India present immense growth opportunities.

Competitive Advantage

India benefits from a large agriculture sector, abundant livestock and cost competitiveness. Lured by the size and returns of the Indian market, foreign firms have strengthened their presence in India. High proportion of agricultural land (157 million hectares). Diverse agro-climatic conditions encourage cultivation of different crops. Leading producer of spices, jute, pulses; second largest producer of wheat, paddy, fruits and vegetables.

Policy Support

Schemes like Paramparagat Krishi Vikas Yojana helps in developing organic clusters and make available chemical free inputs to farmers. Setting up of National Mission on Food Processing. 100 per cent FDI under automatic route for development of seeds. Promoting rationalisation of tariff and duties relating to food processing sector.

INTRODUCTION TO INDIAN SEED INDUSTRY

Seed is the basic and most critical input for sustainable agriculture. The response of all other inputs depends on quality of seeds to a large extent. It is estimated that the direct contribution of quality seed alone to the total production is about 15 – 20% depending upon the crop and it can be further raised up to 45% with efficient management of other inputs. The developments in the seed industry in India, particularly in the last 30 years, are very significant. A major re-structuring of the seed industry by Government of India through the National Seed Project Phase-I (1977-78), Phase-II (1978-79) and Phase-III (1990-1991), was carried out, which strengthened the seed infrastructure that was most needed and relevant around those times. This could be termed as a first turning point in shaping of an organized seed industry. Introduction of New Seed Development Policy (1988 – 1989) was yet another significant mile stone in the Indian Seed Industry, which transformed the very character of the seed industry. The policy gave access to Indian farmers of the best of seed and planting material available anywhere on the world. The policy stimulated appreciable investments by private individuals, Indian Corporate and MNCs in the Indian seed sector with strong R&D base for product development in each of the seed companies with more emphasis on high value hybrids of cereals and vegetables and hi-tech products such as Bt. Cotton. As a result, farmer has a wide product choice and seed industry today is set to work with a ‘farmer centric’ approach and is market driven. However, there is an urgent need for the State Seed Corporations also to transform themselves in

tune with the industry in terms of infrastructure, technologies, approach and the management culture to be able to survive in the competitive market and to enhance their contribution in the national endeavour of increasing food production to attain food & nutritional security.

INDIAN SEED INDUSTRY: CURRENT SCENARIO

The Indian Seed Improvement Programme is backed up by a strong crop improvement programme in both the public and private sectors. At the moment, the industry is highly vibrant and energetic and is well recognized in the international seed arena. Several developing and neighbouring countries have benefited from quality seed imports from India. India's Seed Programme has a strong seed production base in terms of diverse and ideal agro-climates spread throughout the country for producing high quality seeds of several tropical, temperate and sub-tropical plant varieties in enough quantities at competitive prices. Over the years, several seed crop zones have evolved with extreme levels of specialization.

Similarly, for post-harvest handling, the Indian seed processing/conditioning industry has perfected the techniques of quality up-gradation and maintenance to ensure high standards of physical condition and quality. By virtue of the diverse agro-climates several geographical zones in the country have emerged as ideal seed storage locations under ambient conditions. In terms of seed marketing and distribution, more than about 20000 seed dealers and distributors are in the business.

Over the years, seed quality specifications comparable to international standards have been evolved and are adopted by the Indian Seed Programme in both the public and private sectors. The country has a strong rigorous mechanism for seed quality control through voluntary seed certificate and compulsory labelling monitored by provincial level Seed Law Enforcement Agencies. For seed technology research, India has a national level Directorate under the Indian Council of Agricultural Research as well as State level research set up in the State Agricultural Universities. The seed industry has three well reputed national level associations apart from several provincial level groups to take care of the interests of the industry.

Thus, the Indian Seed Programme is now occupying a pivotal place in Indian agriculture and is well poised for continued growth in the years to come. National Seeds Corporation, which is the largest single seed organization in the country with such a wide product range, pioneered the growth and development of a sound industry in India. NSC, SFCE, State Seeds Corporations and other seed producing agencies are continuously and gradually expanding all its activities especially in terms of its product range, volume and value of seed handled, level of seed distribution to the un-reached areas, etc. Over the past four decades, these seed producing agencies have built up a hard core of competent and experienced seed producers and seed dealers in various parts of the country and have adequate level of specialization and competence in handling and managing various segments of seed improvement on scientifically sound and commercially viable terms.

SUMMARY OF OUR BUSINESS

Some of the information contained in the following discussion, including information with respect to our business plans and strategies, contain forward-looking statements that involve risks and uncertainties. You should read the chapter titled “Forward-Looking Statements” beginning on page 18 of this Prospectus, for a discussion of the risks and uncertainties related to those statements and also the section “Risk Factors” for a discussion of certain factors that may affect our business, financial condition or results of operations. Our actual results may differ materially from those expressed in or implied by these forward-looking statements. Our fiscal year ends on March 31 of each year, so all references to a particular fiscal are to the twelve-month period ended March 31 of that year.

The financial information used in this section, unless otherwise stated, is derived from our Financial Information, as restated prepared in accordance with Indian GAAP, Companies Act and SEBI Regulations. The following information is qualified in its entirety by, and should be read together with, the more detailed financial and other information included in this Prospectus, including the information contained in the sections titled “Risk Factors” and “Financial Statement” beginning on pages 19 and 183, respectively.

OVERVIEW

Our Company, ShreeOswal Seeds and Chemicals Limited an ISO 22000:2005 certified Company is engaged in the business of production, processing and sale of different kind of agricultural seeds, maize and soyabean.

Our journey of production, processing and sale of agricultural seed began in the year 2002 by our promoters Sanjay Kumar Baigani and Anil Kumar Nahata, as a partnership concern by the name of M/s Oswal Seeds and Chemicals. By gaining an insight of the industry coupled with an foreseeing growth opportunity, we converted our partnership concern into public limited Company in the year 2017. Our Promoters are the guiding force behind the strategic decisions of our Company. They manage and control the major affairs of our business operations. Their industry knowledge and understanding also gives us the key competitive advantage enabling us to expand our geographical and customer presence in existing as well as target markets, while exploring new growth avenues.

Our Company processes various kinds of seeds at its processing unit which is located at Neemuch, Madhya Pradesh. At present, our Company processes 5 varieties of wheat seed, 5 varieties of soya bean seed, 3 varieties of Mustard seed, 1 variety of black gram, 1 variety of corn seeds and 1 Variety of isabgol/psyllium. Majority of our revenue is from the sale of wheat and soyabean seeds. Revenue generated from wheat and soyabean seed is as follows:

(Amount in Rs Lakhs)

Particulars	2014-15	2015-16	2016-17	01/04/2017 to 30/11/2017	01/12/2017 to 31/03/2018

Soya Bean	4,262.32	2,380.22	2,591.84	1,879.13	1,190.16

Our products are marketed under the brand name of OSWAL. The majority of our sales are through our own Brand which contributed 66.00 %, 85.32 %, 95.25 % and 98.56 % respectively to our total sales for the financial year ended March 31, 2015, 2016, 2017 and 2018 respectively. Revenue generated packaging is as follows:

(Rs in lakhs; Quantity in quintal)

2014-15		2015-16		2016-17		2017-18	
QTY	AMOUNT	QTY	AMOUNT	QTY	AMOUNT	QTY	AMOUNT
46370.48	1993.94	14715	569.21	4494.5	203.4	2500	69.04

Our Company has a diversified customer base covering states like Bihar, Jharkhand, Maharashtra, Madhya Pradesh, Rajasthan, Uttar Pradesh, and Punjab. We mainly market our product through different revenue channels which includes network of distributors, marketing agents and direct to consumers.

The State wise revenue of our Company for previous three financial years is as follows:

State	2014-15	2015-16	2016-17	2017-18
Bihar	219.42	275.17	271.45	257.98
Jharkhand	35.52	59.62	0.35	11.16
Maharashtra	2,005.74	1,144.52	1,808.85	1,333.22

Total	5,853.62	3,878.02	4,284.24	4,814.31

Liaising/Contracting with individual farmers is one of the major step in our production mechanism and our Company enters into contract farming only with the farmers of Madhya Pradesh. Upto March 31, 2018 we have entered into contracts with 752 farmers, thereby giving us an access to around 3809 hectares of land.

Area of contract farming undertaken by our Company in previous three year is as follows:

(Area in Hectres)

2014-15	2015-16	2016-17	2017-18
2361.00	2226.20	2680.80	3809.00

In Crop production quality of seeds play a vital role and to maintain the quality of our seeds our Company adopts different processes at its own laboratory such as Physical Purity Test, Moisture Test and Germination Test among others. Apart from this our Company also conducts seed production programme among farmers for spreading awareness on the methods to improve the quality and yield of the seeds.

The Company has received capital subsidy Rs 22.00 lakhs and Rs 8.00 lakhs on October 12, 2015 and on December 30, 2015 respectively under the scheme of UDHYOG SANVARDHAN NIDHI, 2012 of Madhya Pradesh Government.

The Company has also applied for capital subsidy of Rs 25.00 lakhs under the scheme of “Krishi Ivana Aadharbhut Suvidha” (Capital Investment Subsidy Scheme – Agriculture Marketing and Infrastructure Grading Standardization). The subsidy under the said scheme is given in two tranches viz - advance and final. The Company has already received first tranche Rs 12.03 lakhs on September 17, 2017. The second tranche of the subsidy is yet to be received by the Company.

Our subsidiary Company ShreeOswal Psyllium Export India Limited, is engaged in the business of manufacturing, processing and sale of psyllium husk and psyllium husk powder. Our Subsidiary also produces by products of psyllium such as cattle feed.

From FY 2012-13 to FY 2017-18, as per our Restated Financial Statements, i) our total revenue has shown growth from Rs. 2254.33 lakhs to Rs. 4,861.01 lakhs, representing a CAGR of 13.66% ii) our EBITDA has shown growth from Rs. 67.19 lakhs to Rs. 452.57 lakhs, representing a CAGR of 37.40 % iii) our profit after tax has shown growth from Rs. 12.50 lakhs to a profit of Rs. 179.75 lakhs representing a CAGR of 70.43 %.

OUR COMPETITIVE STRENGTHS

1. *We have developed a diverse portfolio of seed products*

We have a diverse portfolio of hybrid and research seeds for wheat, corn, black gram, soya bean, isabgol/psyllium and mustard, which allows to cater to a wider market. Our product portfolio gives us an edge against dependence on any particular crop(s), and we have an advantage to meet changing farmer needs even in the event of crop-shifting by farmers.

At present our product portfolio includes 5 varieties of wheat seed, 5 varieties of soya bean seed, 3 varieties of Mustard seed, 1 of black gram, 1 variety of isabgol/psyllium and 1 variety of corn seeds.

2. *We have a distribution network across various geographies.*

We have distribution, sales and marketing networks for our seed products. Generally, we market our seed products to growers through distributors and independent dealers. Presently, we have numbers of distributors covering states like Madhya Pradesh, Rajasthan, Jharkhand, Uttar Pradesh, Bihar, Maharashtra, Punjab and Gujarat. Our widespread domestic presence not only mitigates the risk of dependence on few regions but also helps us to leverage our brand value.

3. *Our experienced management and dedicated employee base*

Our operations commenced under the guidance of our Promoters Sanjay Baigani and Anil Nahata, who have successfully managed various phases of expansion and growth of our business and operations. Our Promoters have around 15 years of experience in this industry and have been instrumental in formulating growth strategy for our Company. Their industry knowledge and understanding also gives us the competitive advantage enabling us to expand our geographical and customer presence in existing as well as target markets, while exploring new growth avenues.

4. *Quality certifications*

Quality plays one of the most vital roles in the success of any organization. Our focus on quality is evident from the fact that our facility is accredited with ISO 22000:2005 quality management system certified. Our Company also has an in-house testing laboratory to ensure quality check of our products. Our laboratory also conducts various tests in-house for further improvements in seed quality. Various quality checks conducted at our in-house laboratory include Physical Purity Test, Moisture Test and Germination among others.

5. *Established Brand*

We believe that having a recognizable brand is a key attribute in any business, which increases consumer confidence and influences purchase decisions. We believe that we have built a strong brand across over several years of our operations. Our products are sold under the brand name of OSWAL. We believe that the recall of our brand has allowed us to maintain a large customer base and facilitated our ability to develop and market new products, as we believe that customers are more likely to rely on a trusted brand.

OUR BUSINESS PROCESS

Seed Production

Nucleus Seeds

Nucleus seed is the initial handful of pure seeds of improved variety or parental lines of hybrid plant. Nucleus seeds being genetically pure do not contain physical impurities. The nucleus seed is produced under strict isolation in order to avoid both genetical and physical contamination. Nucleus seed are managed with great care so that all seed produced from it remains true to the new variety. This is a most important step and is the responsibility of the plant breeder who developed the variety. The nucleus seed is not available to farmers. The next step in the chain from plant breeder to farmer is that the plant breeder develops Breeder Seed.

Breeder Seeds

In seed production process, our Company usually procures breeder seeds from agricultural university. Breeder seeds are then delivered to farmers to produce foundation seeds.

Foundation Seeds

Foundation seed is the seed produced from growing breeder seed. Our Company provides breeder seeds to the contract farmers who in turn grow them under strict supervision of our breeder. Foundation seed is less expensive than breeder seed and is not as pure as the breeder's seeds. Foundation seed is the seed produced from growing breeder seed.

Certified Seeds/Research Seeds

Our Company also produces certified seeds. Certified seed is produced from growing foundation, seeds. Production of this seed is subject to field and seed inspections. It is grown by selected farmers in a way that maintains genetic purity. Production of certified seeds undergoes field and seed inspections by seed certification agency to ensure conformity with standards.

Truthful Seeds

Truthful seeds are produced from certified seeds. These Seeds are sold under truthful labels. Field standard and seed standard have to be maintained as per seed act and certified seed stage.

Hybrid Seeds

Hybrid seed is seed produced by cross-pollinated plants. The entire hybrid seeds planted by the farmers usually produces similar plants, while the seeds of the next generation from those hybrids will not consistently have the desired characteristics. Hybrids are chosen to improve the characteristics of the resulting plants, such as better yield, greater uniformity, improved colour, disease resistance.

High Quality Seeds

In high quality seed different type of chemicals are used such as thiram and corbendizim. These chemicals helps to improve the characteristics of the resulting plants, such as better yield, greater, disease and fungus resistance, etc.

Quality control in Seed Process

The seeds received from farmers are tested in laboratory under different parameters such as physical purity test, moisture test, germination test and seed health test among others, if tests are found satisfactory the seeds are purchased and stored in Company's warehouse and storage facility for further processing.

Seed Processing

Post production, the seeds are purchased by our Company from farmers and we then processed at our manufacturing facility. The seeds are subjected to various stages of processing which includes cleaning, gravity separation, colour sorting, etc.

Seed Cleaning and Grading

Seed cleaning and grading process involves separation of seed mixtures from dust, chaff and undersized seeds. It also involves separation, of seeds based on weight, length, shape and size.

Gravity Separation

Gravity separations are used for the removal of impurities, admixture, insect damage and immature kernels. The gravity separator separates seeds size but with difference in specific weight.

Destoner

Destoner is used for removal of badly damaged, deteriorated, insect damaged crop seed and stones from good seeds.

Spiral Separator

The Spiral separator classifies seed according to its shape and rolling ability. The seed is introduced at the top of the inner spiral. Seeds which are round roll faster down the incline as compared to irregularly shaped seeds. The seeds are then collected separately according to their shape.

Milling Separator

Milling Separator frees the grain of coarse impurities such as large kernels, strings, straw, wood, stones and clods of soil, and from fine impurities like sand or broken grains. It is also used to remove low-density particles such as dust, hull fragments or husks, thereby optimizing the cleaning effect.

Sortex-Colour Separator

The colour separator is used to separate discoloured seed, greatly of lower quality. Separation based on colour is necessary because the density and dimensions of discoloured seed are the same as those of sound seed, so other machines are not effective for separation.

Packaging

Once seeds are processed they are send to government laboratories for further testing. Once they are approved by government laboratory they are packed and sold under the brand name of OSWAL. Apart, from our own brand we also packed the seeds for third party supplier which is sold under the brand name of third party supplier.

BOOK BUILDING PROCESS

Book building, with reference to the Issue, refers to the process of collection of Bids on the basis of the Prospectus within the Price Band. The Price Band was determined by our Company in consultation with the BRLM in accordance with the Book Building Process, and advertised in all editions of a widely circulated English National Newspaper, all editions of a widely circulated Hindi National Newspaper and a widely circulated Hindi Newspaper, Hindi being the regional language of Madhya Pradesh, where our registered office is situated at least five working days prior to the Bid/ Issue Opening date. The Issue Price was determined by our Company, in consultation with the BRLM in accordance with the Book Building Process after the Bid/Issue Closing Date. Principal parties involved in the Book Building Process are:-

- Our Company;
- The Book Running Lead Manager in this case being Pantomath Capital Advisors Private Limited, the Syndicate Member(s) who are intermediaries registered with SEBI/ registered as brokers with National Stock Exchange of India Limited and eligible to act as Underwriter. The Syndicate Member(s) will be appointed by the BRLM;
- The Registrar to the Issue and;
- The Designated Intermediaries

This Issue is being made through the 100 per cent Book Building Process wherein 50 per cent of the Issue was available for allocation to Retail Individual Bidders and the balance was offered to QIBs and Non-Institutional Investors. Subject to valid Bids being received at or above the Issue Price, allocation to all categories in the Net Issue, shall be made on a proportionate basis, except for Retail Portion where allotment to each Retail Individual Bidders shall not be less than the minimum bid lot, subject to availability of Equity Shares in Retail Portion, and the remaining available Equity Shares, if any, shall be allotted on a proportionate basis. Under-subscription, if any, in any category, would be allowed to be met with spill-over from any other category or a combination of categories at the discretion of our Company in consultation with the BRLMs and the Stock Exchange.

All Bidders (excluding Anchor Investors) can participate in the Issue only through the ASBA process. Anchor Investors are not permitted to participate through the ASBA process. In accordance with the SEBI Regulations, QIBs and Non-Institutional Bidders are not allowed to withdraw or lower the size of their Bids (in terms of the quantity of the Equity Shares or the Bid Amount) at any stage. Retail Individual Bidders can revise or withdraw their Bids prior to the Bid/Issue Closing Date. Further, Anchor Investors cannot withdraw their Bids after the Anchor Investor Bid/Issue Period. The allocation in the net Issue to the public category shall be made as follows:

- a) Minimum fifty percent to retail individual investors; and
- b) Remaining to
 - i. Individual applicants other than retail individual investors; and

ii. Other investors including corporate bodies or institutions, irrespective of the number of specified securities applied for;

c) The unsubscribed portion in either of the categories specified in (a) or (b) above may be allocated to the applicants in the other category.

If the retail individual investor category is entitled to more than fifty per cent on proportionate basis, accordingly the retail individual investors shall be allocated that higher percentage.

The process of Book Building under the SEBI ICDR Regulations is subject to change from time to time and the investors are advised to make their own judgment about investment through this process prior to making a Bid or application in the Issue. For further details on the method and procedure for Bidding, please see section entitled “Issue Procedure” on page 236 of this Prospectus

Illustration of Book Building and Price Discovery Process (Investors should note that this example is solely for illustrative purposes and is not specific to the Issue) Bidders can bid at any price within the price band. For instance, assume a price band of Rs. 20 to Rs. 24 per equity share, Issue size of 3,000 equity shares and receipt of five bids from bidders, details of which are shown in the table below. A graphical representation of the consolidated demand and price would be made available at the bidding centers during the bidding period. The illustrative book below shows the demand for the equity shares of the issuer company at various prices and is collated from bids received from various investors.

Bid Quantity	Bid Price (Rs.)	Cumulative Bid Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the issuer is able to Issue the desired number of shares is the price at which the book cuts off, i.e., Rs. 22 in the above example. The issuer, in consultation with the Book Running Lead Manager will finalize the Issue price at or below such cut-off price, i.e., at or below Rs. 22/-. All bids at or above this Issue price and cut-off bids are valid bids and are considered for allocation in the respective categories.

Steps to be taken by the Bidders for Bidding:

1. Check eligibility for making a Bid (see section titled “Issue Procedure” on page 236. of this Prospectus);
2. Ensure that you have a demat account and the demat account details are correctly mentioned in the Bid cum Application Form;
3. Ensure correctness of your PAN, DP ID and Client ID mentioned in the Bid cum Application Form. Based on these parameters, the Registrar to the Issue will obtain the Demographic Details of the Bidders from the Depositories.
4. Except for Bids on behalf of the Central or State Government officials, residents of Sikkim and the officials appointed by the courts, who may be exempt from specifying their PAN for transacting in the securities market, for Bids of all values ensure that you have mentioned your PAN allotted under the Income Tax Act in the Bid cum Application Form. The exemption for Central or State Governments and officials appointed by the courts and for investors residing in Sikkim is subject to the Depository Participant’s verification of the veracity of such claims of the investors by collecting sufficient documentary evidence in support of their claims
5. Ensure that the Bid cum Application Form is duly completed as per instructions given in this Prospectus and in the Bid cum Application Form;

BID / OFFER PROGRAMME

An indicative timetable in respect of the Issue is set out below:

Event	Indicative Date
Bid/Issue Opened Date	June 07, 2018
Bid/Issue Closed Date	June 12, 2018

DETAILS OF THE MARKET MAKING ARRANGEMENT

Our Company and the Book Running Lead Manager has entered into an agreement dated March 09, 2018 with the following Market Maker, duly registered with EMERGE Platform of National Stock Exchange of India Limited to fulfil the obligations of Market Making:-

Pantomath Stock Brokers Private Limited

406-408, Keshava Premises, Behind Family Court,
Bandra Kurla Complex, Bandra (East), Mumbai 400 051,
Maharashtra, India

Tel: +91 22 42577001

Fax: +91 22 26598690

Email: broking@pantomathgroup.com

Contact Person: Mahavir Toshniwal

SEBI Registration Number: INZ000068338

Pantomath Stock Brokers Private Limited registered with EMERGE segment of National Stock Exchange of India Limited will act as the Market Maker and has agreed to receive or deliver of the specified securities in the market making process for a period of three years from the date of listing of our Equity Shares or for a period as may be notified by any amendment to SEBI (ICDR) Regulations.

The Market Maker shall fulfil the applicable obligations and conditions as specified in the SEBI (ICDR) Regulations, as amended from time to time and the circulars issued by National Stock Exchange of India Limited and SEBI in this matter from time to time.

Following is a summary of the key details pertaining to the Market Making arrangement:

1. The Market Maker(s) (individually or jointly) shall be required to provide a 2-way quote for 75% of the time in a day. The same shall be monitored by the Stock Exchange. The price band shall be 20% and the Market Maker Spread (difference between the sell and the buy quote) shall be within 10% or as intimated by Exchange from time to time. Further, the Market Maker(s) shall inform the Exchange in advance for each and every black out period when the quotes are not being offered by the Market Maker(s).
2. The minimum depth of the quote shall be Rs. 1,00,000/-. However, the investors with holdings of value less than Rs. 1,00,000/- shall be allowed to Issue their holding to the Market Maker(s) (individually or

jointly) in that scrip provided that he sells his entire holding in that scrip in one lot along with a declaration to the effect to the selling broker. Based on the IPO price of Rs 26/- the minimum lot size is 4000 Equity Shares thus minimum depth of the quote shall be Rs. 1,04,000 until the same, would be revised by NSE Emerge.

3. After a period of three (3) months from the market making period, the Market Maker would be exempted to provide quote if the Shares of Market Maker in our Company reaches to 25% of Issue Size (including the 2,32,000 Equity Shares out to be allotted under this Issue). Any Equity Shares allotted to Market Maker under this Offer over and above 25% Equity Shares would not be taken in to consideration of computing the threshold of 25% of Issue Size. As soon as the Shares of Market Maker in our Company reduce to 24% of Issue Size, the Market Maker will resume providing 2-way quotes.
4. There shall be no exemption / threshold on downside. However, in the event the Market Maker exhausts his inventory through market making process, NSE may intimate the same to SEBI after due verification.
5. Execution of the order at the quoted price and quantity must be guaranteed by the Market Maker(s), for the quotes given by him.
6. There would not be more than five Market Makers for the Company's Equity Shares at any point of time and the Market Makers may compete with other Market Makers for better quotes to the investors. At this stage, Pantomath Stock Brokers Private Limited is acting as the sole Market Maker.
7. The shares of the company will be traded in continuous trading session from the time and day the company gets listed on EMERGE Platform of National Stock Exchange of India Limited and market maker will remain present as per the guidelines mentioned under NSE and SEBI circulars.
8. There will be special circumstances under which the Market Maker may be allowed to withdraw temporarily / fully from the market – for instance due to system problems, any other problems. All controllable reasons require prior approval from the Exchange, while force-majeure will be applicable for non-controllable reasons. The decision of the Exchange for deciding controllable and non-controllable reasons would be final.
9. The Market Maker shall have the right to terminate said arrangement by giving one month notice or on mutually acceptable terms to the Book Running Lead Manager, who shall then be responsible to appoint a replacement Market Maker(s).

In case of termination of the above mentioned Market Making agreement prior to the completion of the compulsory Market Making period, it shall be the responsibility of the Book Running Lead Manager to arrange for another Market Maker(s) in replacement during the term of the notice period being served by the Market Maker but prior to the date of releasing the existing Market Maker from its duties in order to ensure compliance with the requirements of regulation 106V of the SEBI (ICDR) Regulations. Further the Company and the Book Running Lead Manager reserve the right to appoint other Market Maker(s) either as a replacement of the current Market Maker or as an additional Market Maker subject to the total number of Designated Market Makers does not exceed 5 (five) or as specified by the relevant laws and regulations applicable at that particulars point of time. The Market Making Agreement is available for inspection at our Registered Office from 11.00 a.m. to 5.00 p.m. on working days.

10. EMERGE Platform of National Stock Exchange of India Limited will have all margins which are applicable on the NSE Main Board viz., Mark-to-Market, Value-At-Risk (VAR) Margin, Extreme Loss Margin, Special Margins and Base Minimum Capital etc. National Stock Exchange of India Limited can impose any other margins as deemed necessary from time-to-time.
11. EMERGE Platform of National Stock Exchange of India Limited will monitor the obligations on a real time basis and punitive action will be initiated for any exceptions and / or non-compliances. Penalties / fines may be imposed by the Exchange on the Market Maker, in case he is not able to provide the

desired liquidity in a particular security as per the specified guidelines. These penalties / fines will be set by the Exchange from time to time. The Exchange will impose a penalty on the Market Maker in case he is not present in the market (offering two way quotes) for at least 75% of the time. The nature of the penalty will be monetary as well as suspension in market making activities / trading membership.

The Department of Surveillance and Supervision of the Exchange would decide and publish the penalties / fines / suspension for any type of misconduct / manipulation / other irregularities by the Market Maker from time to time.

12. Pursuant to SEBI Circular number CIR/MRD/DSA/31/2012 dated November 27, 2012, limits on the upper side for Market Makers during market making process has been made applicable, based on the issue size and as follows:

Issue size	Buy quote exemption threshold (including mandatory initial inventory of 5% of the Issue Size)	Re-Entry threshold for buy quote (including mandatory initial inventory of 5% of the Issue Size)
Up to Rs. 20 Crore	25%	24%
Rs. 20 crore to Rs. 50 crore	20%	19%

The minimum Promoters' contribution has been brought in to the extent of not less than the specified minimum lot and from the persons defined as 'promoter' under the SEBI (ICDR) Regulations. The Equity Shares that are being locked in are not ineligible for computation of Promoters' contribution in terms of Regulation 33 of the SEBI ICDR Regulations. In connection, we confirm the following:

- The Equity Shares offered for minimum 20% Promoters' contribution have not been acquired in the three years preceding the date of this Prospectus for consideration other than cash and revaluation of assets or capitalization of intangible assets nor resulted from a bonus issue out of the revaluation reserves or unrealized profits of the Company or against Equity Shares which are otherwise ineligible for computation of Promoters' contribution;
- The minimum Promoters' contribution does not include Equity Shares acquired during the one year preceding the date of this Prospectus at a price lower than the Issue Price;
- Equity Shares issued to our Promoter during the preceeding 1 year upon conversion of a partnership
- All the Equity Shares of our Company held by the Promoter are dematerialized; and
- The Equity Shares offered for Promoters' contribution do not consist of Equity Shares for which specific written consent has not been obtained from the Promoter for inclusion of its subscription in the Promoters' contribution subject to lock-in.

iii. Details of Equity Shares locked-in for one year

Other than the above Equity Shares that are locked in for three years, the entire pre-Issue Equity Share capital of our Company shall be locked-in for a period of one year from the date of allotment in the Public Issue.

iv. Other requirements in respect of lock-in

Pursuant to Regulation 39 of the SEBI ICDR Regulations, the locked-in Equity Shares held by the Promoters, as specified above, can be pledged only with scheduled commercial banks or public financial institutions as collateral security for loans granted by such scheduled commercial banks or public financial institution, provided that the pledge of the Equity Shares is one of the terms of the sanction of the loan.

Provided that securities locked in as Promoters' Contribution for 3 years under Regulation 36(a) of the SEBI (ICDR) Regulations may be pledged only if, in addition to fulfilling the above requirement, the

loan has been granted by such scheduled commercial bank or public financial institution for the purpose of financing one or more of the objects of the Issue.

Further, pursuant to Regulation 40 of the SEBI (ICDR) Regulations, the Equity Shares held by persons other than the Promoters prior to the Issue may be transferred to any other person holding the Equity Shares which are locked-in as per Regulation 37 of the SEBI (ICDR) Regulations, along with the Equity Shares proposed to be transferred, provided that lock-in on such Equity Shares will continue for the remaining period with the transferee and such transferee shall not be eligible to transfer such Equity Shares till the lock-in period stipulated under the SEBI (ICDR) Regulations has ended, subject to compliance with the Takeover Code, as applicable.

Justification for “Holding Period” levels

The justifications for the holding levels mentioned in the table above are provided below:

Assets- Current Assets	
Inventories	<p>Raw Material- We have assumed raw material Inventory period of 3.00 months for the fiscal 2018-19 which is slightly lower than FY 2017-18 as we intend to increase our production which would result into faster clearance of our raw material inventory.</p> <p>Finished Goods- We have assumed finished goods inventory of 1.50 months for fiscal 2018-19 as against 1.51 months for fiscal 2017-18 as we aim to increase our finished goods turnover and therefore, intend to quickly sell the finished goods.</p>
Trade receivables	Since, we are proposing our initial public offering in the financial year 2018-19, we would be able to fund part of our increased estimated working capital requirements from the issue proceeds and therefore, we intend to liberalise our credit policy from 1.23 months in the financial year 2017-18 to 1.75 months in the financial year 2018-19.
Liabilities–Current Liabilities	
Trade Payables	In FY 2018-19, the credit period is expected to be 0.15 month as going forward we to avail better credit terms from the creditors.

Our Company proposes to utilize Rs. 625.00 lakhs of the Net Proceeds in Fiscal 2019 towards our working capital requirements. The balance portion of our working capital requirement for the Fiscal 2019 will be arranged from existing Bank loans and internal accruals/ networth.

Pursuant to the certificate dated May 16, 2018, M/s Bharat Kumar Agarwal & Co, Chartered Accountants, have verified the working capital requirements for the Financial Years 2017 and 2018 from the Restated

Financial Information and working capital estimates for the financial year 2019 as approved by the Board pursuant to its resolution dated May 15, 2018.

3. General Corporate Purposes

The Net Proceeds will be first utilized towards the Objects as mentioned above. The balance is proposed to be utilized for general corporate purposes, subject to such utilization not exceeding 25% of the Net Proceeds, in compliance with the SEBI ICDR Regulations. Our Company intends to deploy the balance Net Proceeds, if any, for general corporate purposes, subject to above mentioned limit, as may be approved by our management, including but not restricted to, the following:

- (i) strategic initiatives
- (ii) brand building and strengthening of marketing activities; and
- (iii) on-going general corporate exigencies or any other purposes as approved by the Board subject to compliance with the necessary regulatory provisions.

The quantum of utilization of funds towards each of the above purposes will be determined by our Board of Directors based on the permissible amount actually available under the head “General Corporate Purposes” and the business requirements of our Company, from time to time. We, in accordance with the policies of our Board, will have flexibility in utilizing the Net Proceeds for general corporate purposes, as mentioned above.

In addition, the notice issued to the Shareholders in relation to the passing of such special resolution (the "Postal Ballot Notice") shall specify the prescribed details as required under the Companies Act and applicable rules. The Postal Ballot Notice shall simultaneously be published in the newspapers, one in English and one in the vernacular language of the jurisdiction where the Registered Office is situated. Our Promoters or controlling Shareholders will be required to provide an exit opportunity to such Shareholders who do not agree to the proposal to vary the objects, at such price, and in such manner, as may be prescribed by SEBI, in this regard.

OTHER CONFIRMATIONS

No part of the Net Proceeds will be paid by us to the Promoters and Promoter Group, the Directors, associates or Key Management Personnel or Group Companies, except in the normal course of business and in compliance with applicable law.

BASIS FOR ISSUE PRICE

Since our Company has been incorporated on December 01, 2017 through conversion of partnership firm M/s Oswal Seeds and Chemicals, this chapter has been prepared on the basis of financial information of partnership firm for the period April 01, 2015 to November 30, 2017 and financial information of the company for the period December 01, 2017 to March 31, 2018, restated in accordance with the Indian GAAP and SEBI (ICDR) Regulations. For further details, see chapter titled “Our History and Certain Other Corporate Matters” beginning on page 159 of this Prospectus.

The Issue Price was determined by our Company in consultation with the Book Running Lead Manager, on the basis of an assessment of market demand for the Equity Shares issued through the Book Building Process and on the basis of quantitative and qualitative factors as described below. The face value of the Equity Shares is Rs. 10 each and the Issue Price is 2.5 times the face value at the lower end of the Price Band and 2.6 times the face value at the higher end of the Price Band. Investors should also refer sections titled “Risk Factors” and “Financial Statements” and chapter titled “Our Business” beginning on pages 19, 183, and 133 respectively of this Prospectus, to have an informed view before making an investment decision. The trading price of the Equity Shares of our Company could decline due to these risk factors and you may lose all or part of your investments.

QUALITATIVE FACTORS

Some of the qualitative factors, which form the basis for computing the price, are:

- Diverse portfolio of seed products;
- Strong distribution network across various geographies in India;
- Experienced management and dedicated employee base;
- Accredited with ISO 22000:2005 Quality Certification; and
- Established Brand Image.

For further details, refer to heading “Our Competitive Strengths” under chapter titled “Our Business” beginning on page 133 of this Prospectus.

QUANTITATIVE FACTORS

The information presented below relating to the Company is based on the restated standalone and consolidated financial statements of the Company for Financial Years ending on March 31, 2018, 2017 & 2016 prepared in accordance with Indian GAAP. Some of the quantitative factors, which form the basis for computing the price, are as follows:

STATEMENT OF POSSIBLE TAX BENEFIT

To
The Board of Directors
Shreeoswal Seeds and Chemicals Limited
Oswal House, Opposite Balkavibairagi College
Nasirabad Highway, Village Kanwati,
Neemuch, Madhya Pradesh - 458441

Dear Sirs,

Sub: Statement of possible special tax benefits (“the Statement”) available to Shreeoswal Seeds and Chemicals Limited (“the Company”) and its shareholders prepared in accordance with the requirements in Schedule VIII-Clause (VII) (L) of the Securities Exchange Board of India (Issue of Capital Disclosure Requirements) Regulations 2009, as amended (“the Regulations”)

We hereby report that the enclosed annexure, prepared by the Management of the Company, states the possible special tax benefits available to the Company and the shareholders of the Company under the Income - Tax Act, 1961 (‘Act’) as amended by the Finance Act, 2018 (i.e applicable to Financial Year 2018-19 relevant to Assessment Year 2019-20), presently in force in India. Several of these benefits are dependent on the Company or its shareholders fulfilling the conditions prescribed under the Act. Hence, the ability of the Company or its shareholders to derive the special tax benefits is dependent upon fulfilling such conditions which, based on business imperatives which the Company may face in the future, the Company may or may not choose to fulfill.

The benefits discussed in the enclosed annexure cover only special tax benefits available to the Company and its shareholders and do not cover any general tax benefits available to the Company or its shareholders. This statement is only intended to provide general information to the investors and is neither designed nor intended to be a substitute for professional tax advice. A shareholder is advised to consult his/ her/ its own tax consultant with respect to the tax implications arising out of his/her/its participation in the proposed issue, particularly in view of ever changing tax laws in India.

We do not express any opinion or provide any assurance as to whether:

- the Company or its shareholders will continue to obtain these benefits in future; or
- the conditions prescribed for availing the benefits have been/would be met.

The contents of this annexure are based on information, explanations and representations obtained from the Company and on the basis of our understanding of the business activities and operations of the Company and the provisions of the tax laws.

*No assurance is given that the revenue authorities / courts will concur with the views expressed herein. The views are based on the existing provisions of law and its interpretation, which are subject to change from time to time. We would not assume responsibility to update the view, consequence to such change.

We shall not be liable to Company for any claims, liabilities or expenses relating to this assignment except to the extent of fees relating to this assignment, as finally judicially determined to have resulted primarily from bad faith of intentional misconduct.

The enclosed annexure is intended for your information and for inclusion in the Draft Red Herring Prospectus /Red Herring Prospectus / Prospectus in connection with the proposed issue of equity shares and is not to be used, referred to or distributed for any other purpose without our written consent.

INTRODUCTION TO AGRICULTURE SECTOR IN INDIA

At 157.35 million hectares, India holds the second largest agricultural land in the world. With 20 agro-climatic regions, all 15 major climates in the world exist in India. India is the largest producer of spices, pulses, milk, tea, cashew and jute; and the second largest producer of wheat, rice, fruits and vegetables, sugarcane, cotton and oilseeds. Further, India is second in global production of fruits and vegetables, and is the largest producer of mango and banana. It also has the highest productivity of grapes in the world.

Total food grains production in India reached an all-time high of 275.68 million tonnes (MT) in FY17 (as per 4th Advance Estimates). During 2017-18 crop year, food grain production is expected to reach a record 277.49 million tonnes. Rice and wheat production in the country stood at 110.15 MT and 98.38 MT, respectively as on FY17. Milk production was estimated at 165.4 million tonnes during FY17, while meat production was 7.4 million tonnes. India is among the 15 leading exporters of agricultural products in the world. Agricultural exports from India reached US\$ 28.28 billion during April-December 2017.

The Government plans to revamp the old model Agriculture Produce Marketing Committee Act (APMC Act) and carve out the provisions on contract farming into a separate law to form a new Contract Farming Act. The Electronic National Agriculture Market (eNAM) was launched in April 2016 to create a unified national market for agricultural commodities by networking existing Agriculture Produce Marketing Committees (APMCs). Under Union Budget 2018-19, an Agri-Market Infrastructure Fund was announced to develop and upgrade the infrastructure in 22,000 Gramen Agricultural Markets (GrAMs) and 585 APMCs. Minimum wage for unskilled agricultural labour in C-class towns in central sphere has been fixed at US\$ 5.28 (Rs 350) per day by the Government, effective from November 2016.

The Government of India has introduced several projects to assist the agriculture sector. They are Pradhanmantri Gram Sinchai Yojana: The scheme aims to irrigate the field of every farmer and improving water use efficiency to achieve the motto ‘Per Drop More Crop’. Overall the scheme ensures improved access to irrigation. Around 285 new irrigation projects will be undertaken in 2018 to provide irrigation for 18.8 million hectares of land. As per Union Budget 2018-19 the scheme has been allocated US\$ 401.6 million. Paramparagat Krishi Vikas Yojana (PKVY): The scheme aims to motivate groups of farmers to take up organic farming.

INTRODUCTION TO INDIAN SEED INDUSTRY

Seed is the basic and most critical input for sustainable agriculture. The response of all other inputs depends on quality of seeds to a large extent. It is estimated that the direct contribution of quality seed alone to the total production is about 15 – 20% depending upon the crop and it can be further raised up to 45% with efficient management of other inputs. The developments in the seed industry in India, particularly in the last 30 years, are very significant. A major re-structuring of the seed industry by Government of India through the National Seed Project Phase-I (1977-78), Phase-II (1978-79) and Phase-III (1990-1991), was carried out, which strengthened the seed infrastructure that was most needed and relevant around those times. This could be termed as a first turning point in shaping of an organized seed industry. Introduction of New Seed Development Policy (1988 – 1989) was yet another significant mile

stone in the Indian Seed Industry, which transformed the very character of the seed industry. The policy gave access to Indian farmers of the best of seed and planting material available anywhere on the world. The policy stimulated appreciable investments by private individuals, Indian Corporate and MNCs in the Indian seed sector with strong R&D base for product development in each of the seed companies with more emphasis on high value hybrids of cereals and vegetables and hi-tech products such as Bt. Cotton. As a result, farmer has a wide product choice and seed industry today is set to work with a ‘farmer centric’ approach and is market driven. However, there is an urgent need for the State Seed Corporations also to transform themselves in tune with the industry in terms of infrastructure, technologies, approach and the management culture to be able to survive in the competitive market and to enhance their contribution in the national endeavour of increasing food production to attain food & nutritional security.

APPROACH TO AGRICULTURE AND ALLIED INDUSTRY ANALYSIS

Analysis of Agriculture and allied Industry needs to be approached at both macro and micro levels, whether for domestic or global markets. Agriculture and Allied Industry forms part of Manufacturing Sector at a macro level. Hence, broad picture of Manufacturing Sector should be at preface while analysing the Agriculture and Allied Industry.

Manufacturing Sector comprises various industries, which in turn, have numerous sub-classes or products. One such major industry in the overall Manufacturing Sector is “Agriculture and Allied Industry” which in turn encompasses Manufacturing of food grains and seeds segment.

Thus, Manufacturing of food grains and seeds segment should be analysed in the light of ‘Agriculture and Allied Industry’ at large. An appropriate view of Agriculture and Allied Industry, then calls for the analysis of overall economic outlook and scenario, performance and expectations of manufacturing sector, Micro analysis thereof.

This Approach Note is developed by Pantomath Capital Advisors (P) Ltd ('Pantomath') and any unauthorized reference or use of this Note, whether in the context of Agriculture and Allied Industry and / or any other industry, may entail legal consequences.

GLOBAL ECONOMIC OVERVIEW

According to the International Monetary Fund (IMF), the global economy is experiencing a near-synchronous recovery, the most broad-based since 2010. In 2017, roughly three-quarters of countries

experienced improvements in their growth rates, the highest share since 2010. The latest World Economic Outlook (WEO) of the IMF shows global GDP growth accelerated to around 3.6 percent in 2017 from 3.2 percent in 2016, and the forecast for 2018 has been upgraded by 0.2 percentage points to 3.9 percent. Although rebounding, global growth is still well below levels reached in the 2000s.

One reason why the recovery has spread around the globe is that world trade in goods and services has finally emerged from its torpor, registering 4.7 percent real volume growth in 2017 compared with 2.5 percent in 2016. Another reason is that commodity producers such as Russia, Brazil, and Saudi Arabia, which for the past few years been suffering from depressed prices, have benefitted from the upswing in demand. Commodity prices increased smartly in 2017, led by petroleum, whose price rose by 16 percent to reach \$61 per barrel by the end of the year.

Even as global growth and commodity prices have surged, inflation has remained remarkably quiescent, remaining below 2 percent in the main advanced regions. Consequently, monetary policies in the US, Eurozone and Japan have remained highly accommodative despite a strong recovery. These unusual settings—rapid growth, ultra-low interest rates—at a late stage in the economic cycle have produced the rarest of combinations: record-high high bond prices and stock market valuations, both at the same time. The consensus forecast calls for these conditions to be sustained in 2018, as companies respond to buoyant demand conditions by stepping up investment, some governments (such as the US) embark on expansionary fiscal policies, while advanced country monetary policies remain stimulative and world trade continues to grow briskly.

What are the risks? Of course, there are the usual geo-political and geo-economic risks: war in the Korean peninsula; political upheaval in the Middle East; aggressive output cuts by Saudi Arabia (and Russia) in advance of the planned listing of the Saudi Arabian oil company, Aramco, which could force oil prices even higher; a final reckoning from China's unprecedented credit surge in the form of capital controls, slowdown in growth, and a sharply depreciating currency with consequences for the global economy (Economic Survey, 2016-17, Chapter 1); and trade tensions that could lead to skirmishes, and then spiral out of control. But perhaps the main risks lie on the macro-finance front in advanced economies. These stem from three, inter-related, sources:

- Asset valuations (price-equity ratios) tend to revert to their mean. And the faster and higher they climb, especially so late in the economic cycle, the greater the risk of sharp corrections.
- Simultaneously high valuations of both bonds and equities tend to be briefly lived because they suffer from an acute tension: if future earnings and economic growth are so bright, justifying high equity prices, interest rates cannot be forever so low.
- And if interest rates rise—or if markets even sense that central banks will need to shift their stance—both bond and equity prices could correct sharply. A plausible scenario would be the following. The IMF is now forecasting that advanced country output gaps will close in 2018 for the first time since the Global Financial Crisis. As this occurs, wages would start rising, eating into profits (which would prick equity valuations); and as inflation rises in tandem, policy makers would be forced into raising rates, deflating bond valuations and further undermining share prices.

What would happen to growth if asset prices correct? Surely, the impact would be far smaller than it was in 2007-09, because advanced countries are far less vulnerable than they were a decade ago. In particular, the leverage tied to these assets is much lower, which would minimize contagious propagation; while banks are much better buffered, with higher levels of capital and core deposits, and lower levels of risky assets.

Even so, there would be some consequences. For one, a large decline in wealth would force advanced country consumers to cut back on their spending, which in turn would lead firms to curtail their investments. And if this happens, monetary and fiscal policies would have much less room for expansionary manoeuvre since interest rates are already low while government debts are high. And the political implications of yet another decline in asset prices, the second in a decade, could also be significant, with effects that are difficult to imagine.

In sum, assessing future risks hinges on two calls: interest rate policy and asset valuations. On policy, extraordinarily low rates have, to paraphrase Paul Krugman, become “an obsession in search of a justification.” Initially justified by the dislocations caused by the Global Financial Crisis, then by large output gaps, they are now defended on the grounds that inflation remains weak, even as the slack in product and labor markets is disappearing rapidly. Will the gathering new evidence on closing output gaps and rising employment dispel that obsession?

On valuations, the prognosticator must navigate a narrow strait: steering clear of the “Cry of Wolf” trap (bond prices will finally, finally correct, having defied the prediction of correction in each of the last several years), without succumbing to the siren call of “This Time is Different” (stock valuations are sustainable this time because interest rates will remain at historic lows).

OVERVIEW OF INDIA’S ECONOMIC PERFORMANCE IN 2017-18

Economic activity

The key question going forward is whether the economy has troughed, and if so at what pace it will recover toward its medium term trend. High frequency indicators do suggest that a robust recovery is taking hold as reflected in a variety of indicators, including overall GVA, manufacturing GVA, the IIP, gross capital formation (Figure 17) and exports.

Similarly, real non-food credit growth has rebounded to 4 percent in November 2017 on a year-on-year basis, while the squeeze on real credit to industry is abating (Figure 18). Moreover, the flow of nonbank resources to the corporate sector, such as bond market borrowing and lending by NBFCs, has increased by 43 percent (April-December 2017 compared to the same period a year ago), substituting in part for weak bank credit. Rural demand, proxied by motor cycle sales, and auto sales, while not yet back to its pre-demonetization trend, are recovering (Figures 19 and 20).

Perhaps most significantly, the behaviour of manufacturing exports and imports in the second and third quarters of this fiscal year has started to reverse. The re-acceleration of export growth to 13.6 percent in the third quarter of FY2018 and deceleration of import growth to 13.1 percent, in line with global trends, suggest that the demonetization and GST effects are receding. Services export and private remittances are also rebounding (Figure 21).

On demonetization specifically, the cash-to-GDP ratio has stabilized, suggesting a return to equilibrium. The evidence is that since about June 2017 the trend in currency is identical to that pre-demonetization (Figure 22). The stabilization also permits estimation of the impact of demonetization: about Rs. 2.8 lakh Crores less cash (1.8 percent of GDP) and about Rs. 3.8 lakh Crores less high denomination notes (2.5 percent of GDP).

A final, important factor explaining the growth recovery is fiscal, which is providing a boost to aggregate demand. For reasons related to smoothening the transition, GST revenues will only be collected for 11 months, which is akin to a tax cut for consumers. Meanwhile, overall revenue expenditure growth by the central and state governments remains strong at 11.7 percent (April to November). Cyclical conditions may also lead to lower tax and non-tax revenues, which act as an automatic stabilizer.

All this said, while the direction of the indicators is positive, their level remains below potential. IIP growth (April-November 2017 over same period in the previous year) is 3.2 percent, real credit growth to industry is still in negative territory, and the growth in world trade remains less than half its level of a decade ago. Moreover, even though the cost of equity has fallen to low levels, corporates have not raised commensurate amounts of capital, suggesting that their investment plans remain modest (Box 6). In other words, the twin engines that propelled the economy's take-off in the mid-2000s – exports and investment – are continuing to run below take-off speed.

Meanwhile, developments in the agriculture sector bear monitoring. The trend acceleration in rural wages (agriculture and non-agriculture), which had occurred through much of 2016 because of increased activity on the back of a strong monsoon, seems to have decelerated beginning just before the kharif season of 2017-18 (Figure 23) but it is still greater than much of the last three years. Three crop-specific developments are evident. Sowing has been lower in both kharif and rabi, reducing the demand for labor. The acreage for kharif and rabi for 2017-18 is estimated to have declined by 6.1 percent and 0.5 percent, respectively. Pulses and oilseeds have seen an increase in sowing, but this has translated into unusually low farmgate prices (below their minimum support price, MSP), again affecting farm revenues. The so-called TOP perishables (tomatoes, onions, and potatoes) have meanwhile fluctuated between high and low prices, engendering income uncertainty for farmers.

The CSO has forecast real GDP growth for 2017-18 at 6.5 percent. However, this estimate has not fully factored in the latest developments in the third quarter, especially the greater-than-CSO-forecast exports and government contributions to demand. Accordingly, real GDP growth for 2017-18 as a whole is expected to be close to 6 3/4 percent. Given real GDP growth of 6 percent in the first half, this implies that growth in the second half would rebound to 7.5 percent, aided by favourable base effects, especially in the fourth quarter.

Average CPI inflation for the first nine months has averaged 3.2 percent and is projected to reach 3.7 percent for the year as a whole. This implies average CPI inflation in the last quarter of 5 percent, in line with the RBI's forecast. Therefore, the GDP deflator is expected to grow by 3.6 percent for 2017-18, somewhat higher than the CSO's forecast of 2.8 percent. Consequentially, nominal GDP growth is estimated at 10.5 percent, compared with the CSO's 9.5 percent estimate.

Macroeconomic indicators

After 13 months of continuously under-shooting the inflation target by an average of 130 basis points, headline inflation for the first time crossed the RBI's 4 percent target in November, posting a rate of 5.2 percent in December 2017 (Figure 24). The recent upswing in inflation stems from rising global oil prices (not all of which has been passed on to consumers), unseasonal increases in the prices of fruits and vegetables, and the 7th Pay Commission housing rent allowances, which mechanically increase inflation. Stripped of all these factors, underlying inflation has been increasing at a more modest pace, reaching 4.3 percent at end-December—in part because firms are passing the incidence of GST on to final consumers only gradually.

The current account deficit has also widened in 2017-18 and is expected to average about 1.5-2 percent of GDP for the year as a whole. The current account deficit can be split into a manufacturing trade deficit, an oil and gold deficit, a services deficit, and a remittances deficit (Figure 25). In the first half of 2017-18, the oil and gold balance has improved (smaller deficit of \$47 billion) but this has been offset by a higher trade deficit (\$18 billion) and a reduced services surplus (\$37 billion), the latter two reflecting a deterioration in the economy's competitiveness.

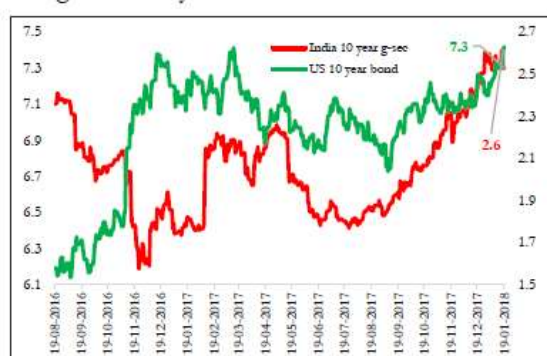

Despite these developments, the overall external position remains solid. The current account deficit is well below the 3 percent of GDP threshold beyond which vulnerability emerges. Meanwhile, foreign exchange reserves have reached a record level of about \$432 billion (spot and forward) at end-December 2017, well above prudent norms.

Fiscal developments

Bond yields have increased sharply (Figure 26) since August 2017, reflecting a variety of factors, including concerns that the fiscal deficit might be greater-than-budgeted, expectations of higher inflation, a rebound in activity that would narrow the output gap, and expectations of rate increases in the US. As a result, the yield curve has become unusually steep (Figure 27).

The fiscal deficit for the first eight months of 2017-18 reached 112 percent of the total for the year, far above the 89 percent norm (average of last 5 years), largely because of a shortfall in non-tax revenue, reflecting reduced dividends from government agencies and enterprises. Expenditure also progressed at a fast pace, reflecting the advancing of the budget cycle by a month which gave considerable leeway to the spending agencies to plan in advance and start implementation early in the financial year. Partially offsetting these trends will be disinvestment receipts which are likely to exceed budget targets.

GST revenue collections are surprisingly robust given that these are early days of such a disruptive change (See Box 7). Government measures to curb black money and encourage tax formalization, including demonetization and the GST, have increased personal income tax collections substantially (excluding the securities transactions tax). From about 2 percent of GDP between 2013-14 and 2015-16, they are likely to rise to 2.3 percent of GDP in 2017-18, a historic high. Precise estimates of the government's contribution to this improvement vary depending on the methodology used. An econometric exercise yields an estimate of Rs. 40,000 Crores over the two fiscal years of 2016-17 and 2017-18.³ Another based on comparing the difference in actual tax buoyancy in 2016-17 and 2017-18 over the previous seven-years' average buoyancy, yields an estimate of about Rs. 65,000 Crores (both exclude the 25,000 Crores collected under the Income Disclosure Scheme and Pradhan Mantri Garib Kalyan Yojana). Thus, the sum of all government efforts increased income tax collections, thus far, between Rs. 65,000 and Rs. 90,000 Crores. These numbers imply a substantial increase in reported incomes (and hence in formalization) of about 1.5 percent to 2.3 percent of GDP.

As a result of the budget overruns, the central government's fiscal deficit until November 2017 was Rs. 6.1 lakh crore compared to the budgeted Rs. 5.5 lakh crore. In contrast, state governments seem to be hewing closely to their targeted fiscal consolidation – in part because the centre has guaranteed them a large increase in their indirect tax take, as part of the GST agreement.

Reflecting largely fiscal developments at the centre, a pause in general government fiscal consolidation relative to 2016-17 cannot be ruled out. In addition, the measured deficit for 2017-18 will include Rs. 80,000 crore (0.5 percent of GDP) in capital provided to public sector banks. But this will not affect aggregate demand, as reflected in international accounting practice which deems such operations as financing ("below-the-line") rather than expenditure.

In the case of borrowing by the states, markets have perhaps inadequately taken into account the fact that higher market borrowings by them does not reflect higher deficits; rather about Rs. 50,000 crore or 0.3 percent of GDP of market borrowings is due to changes in the composition of financing, away from higher cost NSSF borrowings toward lower cost market borrowings. This lack of strict correspondence between the deficit and borrowings at the central and state levels (Figure 28) is discussed in greater detail in Box 8. For general government, about Rs. 40,000 Crores represents greater market borrowings that is not due to deficits—a fact which markets apparently have not internalized.

Another factor contributing to the rise in bond yields has been stepped-up Open Market Operations (OMO) by the RBI. This amounted to a net sale of about Rs. 90,000 Crores during April-December 2017-18 (compared to a net redemption of Rs. 1.1 lakh Crores during the same period in 2016-17) to sterilize the impact of foreign flows, themselves induced by high interest rates.

OUTLOOK FOR 2018-19

The outlook for 2018-19 will be determined by economic policy in the run-up to the next national election. If macro-economic stability is kept under control, the ongoing reforms are stabilized, and the world

economy remains buoyant as today, growth could start recovering towards its medium term economic potential of at least 8 percent.

Consider the components of demand that will influence the growth outlook. The acceleration of global growth should in principle provide a solid boost to export demand. Certainly, it has done so in the past, particularly in the mid-2000s when the booming global economy allowed India to increase its exports by more than 26 percent per annum. This time, the export response to world growth has been in line with the long-term average, but below the response in the mid-2000s. Perhaps it is only a matter of time until exports start to grow at a healthy rate. Remittances are already perking up, and may revive further due to higher oil prices.

Private investment seems poised to rebound, as many of the factors exerting a drag on growth over the past year finally ease off. Translating this potential into an actual investment rebound will depend on the resolution and recapitalization process. If this process moves ahead expeditiously, stressed firms will be put in the hands of stronger ownership, allowing them to resume spending. But if resolution is delayed, so too will the return of the private capex cycle. And if this occurs public investment will not be able to step into the breach, since it will be constrained by the need to maintain a modicum of fiscal consolidation to head off market anxieties.

Consumption demand, meanwhile, will encounter different tugs. On the positive side, it will be helped by the likely reduction in real interest rates in 2018-19 compared to the 2017-18 average. At the same time, average oil prices are forecast by the IMF to be about 12 percent higher in 2018-19, which will crimp real incomes and spending—assuming the increase is passed on into higher prices, rather than absorbed by the budget through excise tax reductions or by the oil marketing companies. And if higher oil prices requires tighter monetary policy to meet the inflation target, real interest rates could exert a drag on consumption.

Putting all these factors together, a pick-up in growth to between 7 and 7.5 percent in 2018-19 can be forecasted, re-instating India as the world's fastest growing major economy. This forecast is subject to upside potential and downside risks. The biggest source of upside potential will be exports. If the relationship between India's exports and world growth returns to that in the boom phase, and if world growth in 2018 is as projected by the IMF, then that could add another ½ percentage point to growth.

Another key determinant of growth will be the implementation of the IBC process. Here timeliness in resolution and acceptance of the IBC solutions must be a priority to kick-start private investment. The greater the delays in the early cases, the greater the risk that uncertainty will soon shroud the entire IBC process. It is also possible that expeditious resolution may require the government to provide more resources to PSBs, especially if the haircuts required are greater than previously expected, the ongoing process of asset quality recognition uncovers more stressed assets, and if new accounting standards are implemented.

Persistently high oil prices (at current levels) remain a key risk. They would affect inflation, the current account, the fiscal position and growth, and force macroeconomic policies to be tighter than otherwise. One eventuality to guard against is a classic emerging market “sudden stall” induced by sharp corrections to elevated stock prices. (Box 9 suggests that India's stock price surge is different from that in other countries but does not warrant sanguine-ness about its sustainability.) Savers, already smarting from reduced opportunities in the wake of demonetization, from depressed gold prices, and from lower nominal interest rates, would feel aggrieved, leading to calls for action. Stock price corrections could also trigger capital outflows, especially if monetary policy unwinds less hesitantly in advanced countries and if oil prices remain high. Policy might then have to respond with higher interest rates, which could choke off the nascent recovery. The classic emerging market dilemma of reconciling the trade-off between macro-stability and growth could then play itself out.

A key policy question will be the fiscal path for the coming year. Given the imperative of establishing credibility after this year, given the improved outlook for growth (and hence narrowing of the output gap), and given the resurgence of price pressures, fiscal policy should ideally have targeted a reasonable fiscal consolidation. However, setting overly ambitious targets for consolidation—especially in a pre-election year—based on optimistic forecasts that carry a high risk of not being realized will not garner credibility

either. Pragmatically steering between these extremes would suggest the following: a modest consolidation that credibly signals a return to the path of gradual but steady fiscal deficit reductions.

Against this overall economic and political background, economic management will be challenging in the coming year. If the obvious pitfalls (such as fiscal expansion) are avoided and the looming risks are averted that would be no mean achievement.

GLOBAL MANUFACTURING SECTOR

World manufacturing growth

World manufacturing growth accelerated in the third quarter of 2017, as economic recovery strengthened worldwide. Positive results reported in the First half of this year carried over into the third quarter. Steady progress over several consecutive quarters characterizes both industrialized and developing and emerging industrial economies, and prospects for sustained global industrial growth in forthcoming periods are good (Figure 1). For the first time in several years, industrial growth moved back to the positive zone in all of the major economies.

The driving forces behind the positive developments in global manufacturing were improving business conditions, rising consumer spending, promising investment plans directed towards developing economies and healthy external demand support activities. On the other hand, risks for global growth such as concerns where Brexit negotiations will lead to, changes in global trade arrangements or high geopolitical uncertainty have not yet dissipated.

Global manufacturing output rose by 4.5 per cent in the third quarter of 2017 compared to the same period of the previous year. This impressive gain was based on an already strong growth throughout the first half of 2017. The disaggregated data points to the thriving performance of major industrialized economies with a significant share in global manufacturing output, namely the United States, Japan, Germany, the Republic of Korea, Italy as well as Brazil. The manufacturing output of China, the world's largest manufacturer, continued to register a high growth rate in the third quarter.

Industrialized economies as a whole exhibited record-breaking growth at 3.1 per cent in the third quarter of 2017 - the highest manufacturing output growth in a year-by-year comparison in the post-crisis period. Such growth was attributable to Europe's dynamic recovery, where a 4.0 per cent growth was achieved. East Asian industrialized economies experienced a healthy 4.5 per cent year-by-year upward trend and the nearly two-year consecutive slump has all but been forgotten. Relative lower growth was observed in the North America region, where manufacturing output expanded by a mere 1.4 per cent.

A reversal of negative trends in Argentina and Brazil has had a considerable impact on recovery in the Latin America region. Manufacturing output of the region rose by 2.5 per cent in the third quarter of 2017, which also resulted in an accelerated growth rate of developing and emerging industrial economies as a whole at 6.2 per cent. A relatively higher increase was achieved by Asia's developing economies with a 6.5 per cent expansion recorded in the third quarter on a year-to-year basis. The manufacturing production of African regions remained in the positive zone of high growth despite the weak foundation of these countries' manufacturing industries. According to UNIDO's latest estimates, African manufacturing experienced a 6.4 per cent year-to-year gain in the third quarter of 2017.

Entering the second half of the year 2017, recovery in global manufacturing has evolved from being relatively modest to becoming more dynamic. Improvements were recorded in both industrialized economies and developing and emerging industrial economies.

Industrialized economies

The manufacturing output of industrialized economies has followed a progressively improving upward trend over the last quarters. All industrialized regions, namely Europe, North America and East Asia, were characterized by robust dynamics in the third quarter and took a step towards a steady future.

The latest data revealed an acceleration of growth in the manufacturing sector of European economies during the third quarter of 2017 in a year-by-year comparison, beating expectations. Improved business and consumer confidence complemented by strong domestic and external demand resulted in new business and export orders. All of these factors provide tremendous opportunities to investors and signal that Europe's manufacturing sector is gradually stabilizing.

Taking a closer look at specific numbers, Europe's manufacturing sector as a whole stepped up production by 4.0 per cent in the third quarter of 2017, while the growth rate in the eurozone countries increased by 3.9 per cent compared to the same period of the previous year. In both cases, the result meant a 1.0 per cent jump from the previous quarter's results.

The major economies of the Eurozone recorded strong growth in the third quarter of 2017. Manufacturing output rose by 4.6 per cent in Germany, 3.8 per cent in Italy and 2.8 per cent in France comparing year-to-year developments. Spain, another leading Eurozone economy, achieved a 3.3 per cent growth rate. The manufacturing output of other economies of the single currency block seemingly remained healthy in the third quarter and continued on the trajectory of continuous improvement. The highest growth of over 8.0 per cent was observed in Slovenia and Lithuania. Among other economies, manufacturing output grew by 5.8 per cent in Austria, 4.7 per cent in Belgium, 5.2 per cent in Portugal and 3.8 per cent in Slovakia.

Among individual economies beyond the euro zone, the Swiss manufacturing sector experienced the strongest increase in the last 10 years and expanded sharply by 8.7 per cent compared to the same period of the previous year. The rapid surge from an upwardly revised 3.3 per cent gain in the previous quarter was primarily boosted by the manufacturing of pharmaceuticals and of computer, electronic and optical products. The manufacturing output in the United Kingdom rose by 2.7 per cent compared to the same period of the previous year. Another exceptionally positive result was observed in Sweden with a 5.8 per cent growth rate. Higher growth rates above 5.0 per cent were also observed in Czechia and Hungary.

North America's overall manufacturing growth was lower than in other industrialized regions at 1.4 per cent. The United States' manufacturers have recently picked up as the dollar dropped in value, making U.S. goods cheaper in foreign markets and boosting exports. However, a 1.2 per cent growth in the U.S.' total manufacturing production in the third quarter of 2017 represents a slight slowdown, given the performance of the U.S.' manufacturing sector in the second quarter. A solid performance was witnessed in Canadian manufacturing, where production expanded by 3.2 per cent.

Strong global growth continued to drive manufacturing activity in industrialized East Asian economies during the third quarter, leading the manufacturing production to expand by 4.5 per cent. Japan's manufacturing output rose by 4.7 per cent compared to the same period of the previous year. Despite the slightly lower figure in the third quarter, Japan has maintained an uninterrupted period of high growth for several consecutive quarters. Growth momentum strengthened in Malaysia, where manufacturing output recorded a 7.0 per cent increase in the third quarter of 2017. A particularly strong two-digit growth rate was observed in Singapore, while the Republic of Korea and Taiwan, Province of China's manufacturing production expanded only moderately by 1.4 per and 3.3 per cent, respectively. The manufacturing recovery in Russia remained largely on track in the third quarter of 2017, with a nearly 1.0 per cent expansion recorded on a year-to-year basis. A similar growth rate was also observed in Norway which further reduced its contraction rate.

(Source: World Manufacturing Production- Statistics for Quarter III, 2017; United Nations Industrial Development Organisation - www.unido.org)

Developing and Emerging Industrial Economies

The combination of good results in all developing and emerging industrial regions helped the developing and emerging industrial economies as a whole achieve a 6.2 per cent growth in the third quarter of 2017 (Figure 3). The recovery of Latin America continues unabated, the growth momentum is also largely holding up across the Asian economies and production in Africa is further promoting from boosted investor confidence.

Manufacturing activity in China has stabilized at the same pace of growth since the beginning of 2017 - a 7.3 per cent increase on a year-by-year basis. The development of advanced manufacturing industries and the new investment plan in the environment has led to an overall upgrade of China's manufacturing industry.

Latin America has made positive developments in the manufacturing sector, following the resumption of growth in the second quarter. Brazilian manufacturers are finally emerging from the deep recession with an upward trend of 2.8 per cent recorded in the third quarter of 2017. The largest expansion was observed in the manufacturing of motor vehicles, trailers and semi-trailers. Meanwhile, Argentina has overcome a severe decline in economic growth with the country's manufacturing activity recording a growth of 4.4 per cent – its best performance over the last six years. Looking at other countries in the region, Mexico's manufacturing production retained a positive increase of nearly 3.5 per cent, Chile recorded a moderate upturn of 1.5 per cent, while manufacturing output in Peru and Ecuador decreased in comparison to the same period of 2016.

An impressive growth rate was observed in Asia and the Pacific region. Viet Nam, one of Asia's fast growing economies, continued to attract sizeable foreign direct investment in-ows. Its manufacturing sector was supported by strong demand for electronics and retained a solid pace in the third quarter, expanding by 12.8 per cent. However, the long-term trajectory of double-digit year-to-year growth in manufacturing was interrupted at the beginning of 2017 due to weakened exports. A positive development in growth was also observed in Indonesia, where manufacturing production accelerated and registered a 5.5 per cent gain in the third quarter of 2017. Similarly, the slowed performance of India's manufacturing sector in the last quarter improved slightly, with a moderate 2.2 per cent increase. In Thailand, manufacturing output rose by 4.2 per cent, which was mainly supported by a higher output of the automotive industry. As regards the manufacturing output of other economies from the region, Pakistan and Mongolia performed well, but the Philippines and Jordan's manufacturing sector contracted in a year-by-year comparison.

Among Africa's economies, South Africa, the region's most industrialized country, has been performing below its potential since the final quarter of 2016 and has entered a recession. Following three quarters of depressed manufacturing production in a row, South Africa's manufacturing sector showed marginal positive growth in the third quarter of 2017. However, its current growth is still too weak to project whether the recession will be overcome by the end of the year. Similarly, Tunisia's manufacturing output rose by 2.4 per cent following a period of contraction. A positive growth rate was also registered in Egypt and Morocco, while Senegal and Nigeria's manufacturing output fell compared to the same period of the

previous year. However, it should be noted that estimates for Africa are based on limited data, revealing high instability and volatility.

Among other developing economies, the manufacturing output of Eastern European countries registered relatively higher growth rates in the third quarter of 2017. Manufacturing output rose by 8.2 per cent in Poland, 4.7 per cent in Belarus, 5.8 per cent in Bulgaria, 8.5 per cent in Serbia and over 9.0 per cent in Romania, Latvia and Bosnia and Herzegovina. Turkey's manufacturing sector also performed well and exceeded 10.0 per cent growth rate.

Key Findings - Global manufacturing Sector

Global manufacturing production maintained a positive growth rate in all industries in the third quarter of 2017. Advanced manufacturing such as automation, robotics and digital products have been experiencing a steady expansion at the global level. Shifting from low technology to high technology manufacturing industries plays a key role in promoting innovation in the long term and, moreover, determines the positioning of economies within the global market. Therefore, the competition between advanced and emerging economies in high-tech leadership will be compelling and crucial for both groups. In the wake of the fourth industrial revolution, embracing emerging technologies brings global manufacturing production to a new level. The high growth rate in medium high and high technology industries observed in the third quarter of 2017 led to an increase in high value goods, indicating a high level of consumer confidence (Figure 4). UNIDO data largely support this pro-technology approach.

(Source: World Manufacturing Production- Statistics for Quarter III, 2017; United Nations Industrial Development Organisation - www.unido.org)

Medium high and high technology manufacturing industries have repeatedly held top positions when looking at year-by-year comparisons - these industries witnessed a 6.0 per cent growth rate, a record-breaking result in the last five years. When reviewing the individual top industries, the manufacturing of computers, electronics and optical products grew by 8.3 per cent, the production of machinery and equipment rose by 8.0 per cent, the manufacturing of pharmaceutical products by 6.7 per cent (which recorded a visibly accelerated growth rate compared to the results of the previous quarter), the production of electrical equipment by 6.1 per cent and the manufacturing of motor vehicles by 5.9 per cent. The production in all of the above- mentioned industries was dominated by developing and emerging industrial economies compared with industrialized economies (Figure 5).

As regards medium technology manufacturing industries, 2.3 per cent growth was registered worldwide in the third quarter of 2017. The global manufacturing of rubber and plastic products increased by 3.4 per cent in a year-by-year comparison, while the manufacturing of non-metallic mineral products recorded a growth rate of 3.0 per cent. The global manufacturing of basic metals rose at a moderate pace of 1.6 per cent.

In low technology manufacturing industries, overall global production rose by 3.3 per cent in the third quarter of 2017 compared to the same period of the previous year. The global manufacturing of fabricated metal products grew by 4.6 per cent, followed by the manufacturing of furniture with a 4.3 per cent increase. Relatively high growth rates were maintained worldwide in the production of basic consumer goods - the global manufacturing of food products rose by 3.8 per cent, beverages by 3.4 per cent and the global manufacturing of both textile and wearing apparel increased by slightly over 2.5 per cent. The growth rate of the manufacturing of paper products expanded by 2.4 per cent, while coke and refined petroleum products and printing remained below 2.0 per cent.

The growth rates for selected industries are presented below. Additional statistics on the growth rates in the third quarter of 2017 are available in the Statistical Tables.

INDIAN MANUFACTURING SECTOR

Introduction

Manufacturing has emerged as one of the high growth sectors in India. Prime Minister of India, Mr Narendra Modi, had launched the 'Make in India' program to place India on the world map as a manufacturing hub and give global recognition to the Indian economy. India is expected to become the fifth largest manufacturing country in the world by the end of year 2020*.

Market Size

The Gross Value Added (GVA) at basic constant (2011-12) prices from the manufacturing sector in India grew 7.9 per cent year-on-year in 2016-17, as per the first revised estimates of annual national income published by the Government of India. Under the Make in India initiative, the Government of India aims to increase the share of the manufacturing sector to the gross domestic product (GDP) to 25 per cent by 2022, from 16 per cent, and to create 100 million new jobs by 2022. Business conditions in the Indian manufacturing sector continue to remain positive.

Investments

With the help of Make in India drive, India is on the path of becoming the hub for hi-tech manufacturing as global giants such as GE, Siemens, HTC, Toshiba, and Boeing have either set up or are in process of setting up manufacturing plants in India, attracted by India's market of more than a billion consumers and increasing purchasing power. Cumulative Foreign Direct Investment (FDI) in India's manufacturing sector reached US\$ 72.31 billion during April 2000-September 2017. India has become one of the most attractive destinations for investments in the manufacturing sector. Some of the major investments and developments in this sector in the recent past are:

- Mahindra and Mahindra is planning to start operating a fleet of electric cabs and supplying parts to Electric Vehicle (EV) manufacturers.
- Grasim Industries has received clearance for expansion of its plant at Vilayat. The expansion will entail an investment of Rs 2,560 crore (US\$ 396.8 million)
- Over 350 mobile charger factories are expected to be set up in India by 2025, on the back of the government's push to encourage production of battery chargers. Setting up of these factories is expected to lead to production of 1.46 billion chargers and generation of 0.8 million jobs.
- Government of India is planning to invite bids for setting up of 20 Gigawatts (GW) of solar power capacity with the objective of boosting domestic manufacturing of solar power equipment.
- JSW Energy has signed a memorandum of understanding (MoU) with the Government of Gujarat, for setting up an electric vehicle (EV) manufacturing unit in Gujarat at an estimated cost of Rs 4,000 crore (US\$ 608.88 million).
- With an aim to increase its presence in India, Denmark-based heating ventilation and air-conditioning (HVAC) giant, Danfoss, is planning to take its manufacturing localisation to 50 per cent as well as double its supplier base in India by 2020.

Government Initiatives

The Government of India has taken several initiatives to promote a healthy environment for the growth of manufacturing sector in the country. Some of the notable initiatives and developments are:

- In Union Budget 2018-19, the Government of India reduced the income tax rate to 25 per cent for all companies having a turnover of up to Rs 250 crore (US\$ 38.75 million).
- Under the Mid-Term Review of Foreign Trade Policy (2015-20), the Government of India increased export incentives available to labour intensive MSME sectors by 2 per cent.
- The Ministry of Electronics and Information Technology is in the process of formulation of a new electronics manufacturing policy. The aim of the new policy will be to create an ecosystem of manufacturing in the country, enable India to become a significant global player in some of these categories.
- Ministry of Home Affairs liberalised Arms Rules to boost 'Make in India' manufacturing policy of the government. The liberalisation of the policy is expected to encourage investment in the manufacturing of arms and ammunition and weapon systems and promote employment generation.
- The Government of India has launched a phased manufacturing programme (PMP) aimed at adding more smartphone components under the Make in India initiative thereby giving a push to the domestic manufacturing of mobile handsets.
- The Government of India is in talks with stakeholders to further ease foreign direct investment (FDI) in defence under the automatic route to 51 per cent from the current 49 per cent, in order to give a boost to the Make in India initiative and to generate employment.
- The Ministry of Defence, Government of India, approved the "Strategic Partnership" model which will enable private companies to tie up with foreign players for manufacturing submarines, fighter jets, helicopters and armoured vehicles.

- The Union Cabinet has approved the Modified Special Incentive Package Scheme (M-SIPS) in which, proposals will be accepted till December 2018 or up to an incentive commitment limit of Rs 10,000 crore (US\$ 1.5 billion).

Road Ahead

India is an attractive hub for foreign investments in the manufacturing sector. Several mobile phone, luxury and automobile brands, among others, have set up or are looking to establish their manufacturing bases in the country.

The manufacturing sector of India has the potential to reach US\$ 1 trillion by 2025 and India is expected to rank amongst the top three growth economies and manufacturing destination of the world by the year 2020. The implementation of the Goods and Services Tax (GST) will make India a common market with a GDP of US\$ 2.5 trillion along with a population of 1.32 billion people, which will be a big draw for investors.

With impetus on developing industrial corridors and smart cities, the government aims to ensure holistic development of the nation. The corridors would further assist in integrating, monitoring and developing a conducive environment for the industrial development and will promote advance practices in manufacturing.

AGRICULTURE SECTOR IN INDIA

Introduction

Agriculture plays a vital role in India's economy. Over 58 per cent of the rural households depend on agriculture as their principal means of livelihood. The share of primary sectors* (including agriculture, livestock, forestry and fishery) is estimated to be 20.4 per cent of the Gross Value Added (GVA) during 2016-17 at current prices.

The Indian food industry is poised for huge growth, increasing its contribution to world food trade every year due to its immense potential for value addition, particularly within the food processing industry. The Indian food and grocery market is the world's sixth largest, with retail contributing 70 per cent of the sales. The Indian food processing industry accounts for 32 per cent of the country's total food market, one of the largest industries in India and is ranked fifth in terms of production, consumption, export and expected growth. It contributes around 8.80 and 8.39 per cent of Gross Value Added (GVA) in Manufacturing and Agriculture respectively, 13 per cent of India's exports and six per cent of total industrial investment.

Market Size

India's GDP is expected to grow at 7.4 per cent¹ in 2018-19. India's food grain production reached 275.68 million tonnes in 2016-17 and is targeted at 274.55 million tonnes in 2017-18. India has been the world's largest producer of milk for the last two decades and contributes 19 per cent of the world's total milk production. India is emerging as the export hub of instant coffee which has led to exports of coffee increase 17 per cent in calendar year 2017 to reach US\$ 958.80 million.

India topped the list of shrimp exporters globally in 2016 with exports of US\$ 3.8 billion which are expected to double to US\$ 7 billion by 2022. Total area in India, sown with rabi crops reached 61.79 million hectares in January² 2018. India is the second largest fruit producer in the world. India's horticulture output reached 300.64 million tonnes in 2016-17 and is expected to reach 305.43 million tonnes in 2017-18.

Agricultural export constitutes 10 per cent of the country's exports and is the fourth-largest exported principal commodity. Agricultural exports from India reached US\$ 24.66 billion during April-November 2017 with exports of basmati, buffalo meat reaching US\$ 2.61 billion and US\$ 2.76 billion, respectively.

India is the largest producer, consumer and exporter of spices and spice products. Spice exports from India grew by 6 per cent year-on-year between April-September 2017 to US\$ 1.37 billion.

Dairy sector in India is expected to grow at 15 per cent CAGR to reach Rs 9.4 trillion (US\$ 145.7) billion by 2020. The online food delivery industry grew at 150 per cent year-on-year with an estimated Gross Merchandise Value (GMV) of US\$ 300 million in 2016. The sector grew 15 per cent every quarter during January-September 2017.

Investments

According to the Department of Industrial Policy and Promotion (DIPP), the Indian agricultural services and agricultural machinery sectors have cumulatively attracted Foreign Direct Investment (FDI) equity inflow of about US\$ 1.99 billion and US\$ 466.31 million, respectively, during April 2000 to September 2017. The food processing sector attracted FDI of US\$ 8 billion in the same period.

Some major investments and developments in agriculture are as follows:

- In January 2018, India Agri Business Fund II (IABF-II), co-sponsored by Rabo bank, the UK's CDC Group and Asian Development Bank (ADB), made an investment worth US\$ 10 million for a minority stake in Global Gourmet Pvt Ltd, a frozen food products exporting company.
- In December 2017, a mobile application which can forewarn farmers about diseases affecting the livestock has been launched by the Ministry of Agriculture and Farmers Welfare, Government of India.
- A loan agreement of US\$ 318 million was signed between the Government of India, Government of Tamil Nadu and the World Bank in December 2017 for the 'Tamil Nadu Irrigated Agriculture Modernization Project' through which is expected to benefit around 500,000 farmers in the state.
- Sugar production in India is expected to grow 23 per cent to reach 25 million MT in sugar year 20183.
- Cotton output in India is expected to increase by 9 per cent in 2017-184 to 37.7 million bales.
- In December 2017, India and Colombia signed a Memorandum of Understanding (MoU) for cooperation in the fields of agriculture and fisheries.

Government Initiatives

Some of the recent major government initiatives in the sector are as follows:

- The Government of India is going to provide Rs 2,000 crore (US\$ 306.29 million) for computerisation of Primary Agricultural Credit Society (PACS) to ensure cooperatives are benefitted through digital technology.
- Around 100 million Soil Health Cards (SHCs) have been distributed in the country during 2015-17 and a soil health mobile app has been launched to help Indian farmers.
- With an aim to boost innovation and entrepreneurship in agriculture, the Government of India is introducing a new AGRI-UDAAN programme to mentor start-ups and to enable them to connect with potential investors.
- The Government of India has launched the Pradhan Mantri Krishi Sinchai Yojana (PMKSY) with an investment of Rs 50,000 crore (US\$ 7.7 billion) aimed at development of irrigation sources for providing a permanent solution from drought.
- The Government of India plans to triple the capacity of food processing sector in India from the current 10 per cent of agriculture produce and has also committed Rs 6,000 crore (US\$ 936.38 billion) as investments for mega food parks in the country, as a part of the Scheme for Agro-Marine Processing and Development of Agro-Processing Clusters (SAMPADA).
- The Government of India has allowed 100 per cent FDI in marketing of food products and in food product e-commerce under the automatic route.

- A new platform for selling agricultural produce named e-RaKam has been launched by the Government of India and will operate as a joint initiative of Metal Scrap Trade Corporation Limited and Central Railside Warehouse Company Limited (CRWC).
- According to the Agriculture Ministry, 50,000 hectares of area is available for coconut cultivation in Bihar, the Coconut Development Board plans to equip the farmers thus making India the world leader in production, productivity, processing for value addition and export of coconut.

Road Ahead

India is expected to achieve the ambitious goal of doubling farm income by 2022. The agriculture sector in India is expected to generate better momentum in the next few years due to increased investments in agricultural infrastructure such as irrigation facilities, warehousing and cold storage. Furthermore, the growing use of genetically modified crops will likely improve the yield for Indian farmers. India is expected to be self-sufficient in pulses in the coming few years due to concerted efforts of scientists to get early-maturing varieties of pulses and the increase in minimum support price.

India's Gross Value Added (GVA) at basic prices increased by 6.1 per cent during the July-September 2017 quarter, driven by agriculture and government spending. GVA from agriculture, forestry and fishing sector grew 1.7 per cent in this July-September 2017 quarter.

The government of India targets to increase the average income of a farmer household at current prices to Rs 219,724 (US\$ 3,420.21) by 2022-23 from Rs 96,703 (US\$ 1,505.27) in 2015-16.

Going forward, the adoption of food safety and quality assurance mechanisms such as Total Quality Management (TQM) including ISO 9000, ISO 22000, Hazard Analysis and Critical Control Points (HACCP), Good Manufacturing Practices (GMP) and Good Hygienic Practices (GHP) by the food processing industry will offer several benefits.

ADVANTAGES IN INDIA

Robust Demand

A large population and rising urban and rural incomes have aided demand growth. External demand has also been growing especially from key markets like the Middle East. Demand for processed food rising with growing disposable income, urbanisation, young population and nuclear families. Changing lifestyle and increasing expenditure on health and nutritional foods.

Attractive Opportunities

Increasing demand for agricultural inputs such as hybrid seeds and fertilizers. Promising opportunities in storage facilities; potential storage capacity expansion of 35 million tonnes under the 12th Five Year Plan. Investment opportunities to arise in agriculture, food infrastructure and contract farming. Agrochemicals industries in India present immense growth opportunities.

Competitive Advantage

India benefits from a large agriculture sector, abundant livestock and cost competitiveness. Lured by the size and returns of the Indian market, foreign firms have strengthened their presence in India. High proportion of agricultural land (157 million hectares). Diverse agro-climatic conditions encourage cultivation of different crops. Leading producer of spices, jute, pulses; second largest producer of wheat, paddy, fruits and vegetables.

Policy Support

Schemes like Paramparagat Krishi Vikas Yojana helps in developing organic clusters and make available chemical free inputs to farmers. Setting up of National Mission on Food Processing. 100 per cent FDI under automatic route for development of seeds. Promoting rationalisation of tariff and duties relating to food processing sector.

NOTABLE TRENDS IN AGRICULTURE

Changing consumer tastes

Wide array of products, coupled with increasing global connectivity, has led to a change in the tastes and preference of domestic consumers

This trend has been bolstered by rising incomes, increasing urbanisation, a young population and the emergence of nuclear families. Consumer preference is moving towards healthier snacks.

Entry of international companies

Liberalisation and growth of organised retail have made the Indian market more attractive for global players. With a large agriculture sector, abundant livestock, cost competitiveness, India is fast emerging as a sourcing hub of processed food. Danone, Nestle, Kraft Foods, Mondelez International, Heinz are the international players in food processing market in India. Hindustan Coca-Cola Beverages is establishing two greenfield plants at Ahmedabad and Nellore, with an investment worth US\$ 148.74 million. Nepal's CG Foods, manufacturer of Wai Noodles, will invest US\$ 37.18 million to open quick service restaurants (QSRs) in India. With 11 coffee outlets in Mumbai, as of March 2017, Australia's coffee chain - Di Bella is planning on expanding to Bengaluru, Delhi and Gujarat.

Rising demand on Indian products in international market

Strategic geographic location and continuous increase in raw material production help India to supply cheaper products to other countries

India's exports of processed food and related items was US\$ 2.87 billion in FY18 (April – May). Companies like Haldiram's and Bikanerwala have a presence in over 70 countries, whereby they provide Indian snacks.

Emphasis on Healthier Ingredients

Food processing companies are serving health and wellness as a new ingredient in processed food, given that health conscious consumers prefer food products with lower carbohydrate content and with low cholesterol edible oils. e.g. zero-per cent trans-fat snacks and biscuits, slim milk, whole wheat products, etc. ITC is planning to launch multigrain Bingo to increase its share in healthy snacks market.

Higher Consumption of Horticulture Crops

There is a surge in demand for fruits and vegetables as a result of a shift in consumption. Accordingly, Indian farmers are also shifting production towards horticulture crops to cash in on the growing demand

As of February 2017, horticulture exports from India have increased by 17.4 per cent and 20.95 per cent in terms of value and volume, respectively. Coca Cola is aiming to improve its sourcing of fruits for aerated drinks and juice beverages categories. As of May 2017, the company sources 2 lakh tonnes fruits, and is planning to further increase it by sourcing through its 'fruit circular economy' initiative.

Product Innovation as the Key to Expansion

In FY16, Ministry of Food Processing Industries granted fund of US\$ 18.81 million for the ongoing Mega Food Park projects. Mother Dairy has bought an old plant in Nagpur, for US\$ 14.87 million for expansion beyond Delhi-NCR region. Heritage Foods, a Hyderabad-based company, has plans to add five more milk processing units in the next five years for an investment of US\$ 22.31 million, being a part of the former expansion plan to achieve US\$ 1 billion turnover by 2022.

Strengthening Procurement via Direct Farmer-Firm Linkage

Contract farming has been operational in India for a long time now; however, the experience of the private sector players involved therein has been a mixed bag of successes and failures. Largely, it has helped both the processing companies, via increasing sales and therefore augmenting their incomes, as well as providing access to better technology and fetching better prices by securing an assured market for Indian farmers.

Sensible Snacking

Domestic consumers are now tuned in to the greater variety of foods available, thanks to both wider variety in offerings as well as their own international exposure. ITC and PepsiCo are shifting their focus on healthier snacks as the market for healthy snacks is growing with double speed.

INTRODUCTION TO INDIAN SEED INDUSTRY

Seed is the basic and most critical input for sustainable agriculture. The response of all other inputs depends on quality of seeds to a large extent. It is estimated that the direct contribution of quality seed alone to the total production is about 15 – 20% depending upon the crop and it can be further raised up to 45% with efficient management of other inputs. The developments in the seed industry in India, particularly in the last 30 years, are very significant. A major re-structuring of the seed industry by Government of India through the National Seed Project Phase-I (1977-78), Phase-II (1978-79) and Phase-III (1990-1991), was carried out, which strengthened the seed infrastructure that was most needed and relevant around those times. This could be termed as a first turning point in shaping of an organized seed industry. Introduction of New Seed Development Policy (1988 – 1989) was yet another significant milestone in the Indian Seed Industry, which transformed the very character of the seed industry. The policy gave access to Indian farmers of the best of seed and planting material available anywhere on the world. The policy stimulated appreciable investments by private individuals, Indian Corporate and MNCs in the Indian seed sector with strong R&D base for product development in each of the seed companies with more emphasis on high value hybrids of cereals and vegetables and hi-tech products such as Bt. Cotton. As a result, farmer has a wide product choice and seed industry today is set to work with a ‘farmer centric’ approach and is market driven. However, there is an urgent need for the State Seed Corporations also to transform themselves in tune with the industry in terms of infrastructure, technologies, approach and the management culture to be able to survive in the competitive market and to enhance their contribution in the national endeavour of increasing food production to attain food & nutritional security.

SEED PRODUCTION SYSTEM IN INDIA

The Indian seed programme largely adheres to the limited generations’ system for seed multiplication in a phased manner. The system recognizes three generations namely breeder, foundation and certified seeds and provides adequate safeguards for quality assurance in the seed multiplication chain to maintain the purity of the variety as it flows from the breeder to the farmer.

Breeder Seed

Breeder seed is the progeny of nucleus seed of a variety and is produced by the originating breeder or by a sponsored breeder. Breeder seed production is the mandate of the Indian Council of Agricultural Research (ICAR) and is being undertaken with the help of;

- ICAR Research Institutions, National Research Centres and All India Coordinated Research Project of different crops;
- State Agricultural Universities (SAUs) with 14 centres established in different States;
- Sponsored breeders recognized by selected State Seed Corporations, and
- Non-Governmental Organizations.

ICAR also promotes sponsored breeder seed production programme through the National Seeds Corporation (NSC) / State Farms Corporation of India (SFCI), State Seeds Corporation (SSCs), Krishi Vigyan Kendras (KVKs) etc. There has been a steady increase in the production of breeder seed over the years.

The indents from various seeds producing agencies are collected by the State Departments of Agriculture and submitted to the Department of Agriculture and Cooperation (DAC), Ministry of Agriculture, Government of India, which in turn compiles the whole information crop wise and sends it to the Project

Coordinator/Project Director of the respective crops in ICAR for final allocation of production responsibility to different SAUs/ICAR institutions. The allocation of responsibility for production of breeder seed is discussed in the workshop in respect of the particular crop and is made to various centres as per the facilities and capabilities available at the centres and the availability of nucleus seed of a particular variety. It may be noted that indents are compiled and forwarded to ICAR at least 18 months in advance. To make the programme systematic, and for proper evaluation of the breeder seed production programme, monitoring terms have been constituted and reporting proforma have been devised. The monitoring terms consist of breeder of the variety, the concerned Project Director or his nominee, representative of NSC. The production of breeder seed is reviewed every year by ICAR-DAC in the annual seed review meeting.

The actual production of breeder seed by different centres is intimated to DAC by ICAR. On receipt of information from ICAR, the available breeder seed is allocated to all the indenters in an equitable manner. In the case of varieties which are relevant only to a particular State, the indents for breeder seed are placed by the concerned Director of Agriculture with the SAUs/ICAR institutions located in the State. The breeder seed produced is lifted directly by the Director of Agriculture or foundation seed producing agencies authorized by him.

Foundation Seed

Foundation seed is the progeny of breeder seed and is required to be produced from breeder seed or from foundation seed which can be clearly traced to breeder seed. The responsibility for production of foundation seed has been entrusted to the NSC, SFCI, State Seeds Corporation, State Departments of Agriculture and private seed producers, who have the necessary infrastructure facilities. Foundation seed is required to meet the standards of seed certification prescribed in the Indian Minimum Seeds Certification Standards, both at the field and laboratory testing.

Certified Seed

Certified seed is the progeny of foundation seed and must meet the standards of seed certification prescribed in the Indian Minimum Seeds Certification Standards, 1988. In case of self-pollinated crops, certified seeds can also be produced from certified seeds provided it does not go beyond three generations from foundation seed stage-I.

The production and distribution of quality/certified seeds is primarily the responsibility of the State Governments. Certified seed production is organized through State Seed Corporation, Departmental Agricultural Farms, and Cooperatives etc. The distribution of seeds is undertaken through a number of channels i.e. departmental outlets at block and village level, cooperatives, outlets of seed corporations, private dealers etc. The efforts of the State Governments are being supplemented by NSC and SFCI which produce varieties of national importance. NSC markets its seeds through its own marketing network and also through its dealer network. SFCI markets its seeds mainly through the State Departments of Agriculture and the State Seed Corporations. The production of certified seed by NSC and State Seed Corporations is mainly organized through contract growing arrangements with progressive farmers. SFCI undertakes seed production on its own farms. The private sector has also started to play an important role in the supply of quality seeds of vegetables and crops like hybrid maize, sorghum, Bajra, cotton, castor, sunflower, paddy etc.

The requirement of certified/quality seeds is assessed by State Governments on the basis of the area sown under different crop varieties, area covered by hybrid and self-pollinated varieties as well as the seed replacement rate achieved. The availability of seed is ascertained by the State Departments of Agriculture on the basis of the production of seed in government farms and production of seeds by State Seeds Corporations and other agencies. The Government of India periodically assesses the requirement and availability of seeds through detailed interaction with State Governments and seed producing agencies in the bi-annual Zonal Seed Review Meetings and the National Kharif and Rabi Conferences. The Department of Agriculture and Cooperation facilitates tie-up arrangements with seed producing agencies to ensure that the requirement of seeds is met to the maximum extent possible.

INDIAN SEED INDUSTRY: CURRENT SCENARIO

The Indian Seed Improvement Programme is backed up by a strong crop improvement programme in both the public and private sectors. At the moment, the industry is highly vibrant and energetic and is well recognized in the international seed arena. Several developing and neighbouring countries have benefited from quality seed imports from India. India's Seed Programme has a strong seed production base in terms of diverse and ideal agro-climates spread throughout the country for producing high quality seeds of several tropical, temperate and sub-tropical plant varieties in enough quantities at competitive prices. Over the years, several seed crop zones have evolved with extreme levels of specialization.

Similarly, for post-harvest handling, the Indian seed processing/conditioning industry has perfected the techniques of quality up-gradation and maintenance to ensure high standards of physical condition and quality. By virtue of the diverse agro-climates several geographical zones in the country have emerged as ideal seed storage locations under ambient conditions. In terms of seed marketing and distribution, more than about 20000 seed dealers and distributors are in the business.

Over the years, seed quality specifications comparable to international standards have been evolved and are adopted by the Indian Seed Programme in both the public and private sectors. The country has a strong rigorous mechanism for seed quality control through voluntary seed certificate and compulsory labelling monitored by provincial level Seed Law Enforcement Agencies. For seed technology research, India has a national level Directorate under the Indian Council of Agricultural Research as well as State level research set up in the State Agricultural Universities. The seed industry has three well reputed national level associations apart from several provincial level groups to take care of the interests of the industry.

Thus, the Indian Seed Programme is now occupying a pivotal place in Indian agriculture and is well poised for continued growth in the years to come. National Seeds Corporation, which is the largest single seed organization in the country with such a wide product range, pioneered the growth and development of a sound industry in India. NSC, SFCI, States Seeds Corporations and other seed producing agencies are continuously and gradually expanding all its activities especially in terms of its product range, volume and value of seed handled, level of seed distribution to the un-reached areas, etc. Over the past four decades, these seed producing agencies have built up a hard core of competent and experienced seed producers and seed dealers in various parts of the country and have adequate level of specialization and competence in handling and managing various segments of seed improvement on scientifically sound and commercially viable terms.

OUR BUSINESS

Some of the information contained in the following discussion, including information with respect to our business plans and strategies, contain forward-looking statements that involve risks and uncertainties. You should read the chapter titled “Forward-Looking Statements” beginning on page 18 of this Prospectus, for a discussion of the risks and uncertainties related to those statements and also the section “Risk Factors” for a discussion of certain factors that may affect our business, financial condition or results of operations. Our actual results may differ materially from those expressed in or implied by these forward-looking statements. Our fiscal year ends on March 31 of each year, so all references to a particular fiscal are to the twelve-month period ended March 31 of that year.

The financial information used in this section, unless otherwise stated, is derived from our Financial Information, as restated prepared in accordance with Indian GAAP, Companies Act and SEBI Regulations. The following information is qualified in its entirety by, and should be read together with, the more detailed financial and other information included in this Prospectus, including the information contained in the sections titled “Risk Factors” and “Financial Information” beginning on pages 19 and 183 respectively.

OVERVIEW

Our Company, ShreeOswal Seeds and Chemicals Limited an ISO 22000:2005 certified Company is engaged in the business of production, processing and sale of different kind of agricultural seeds, maize and soyabean.

Our journey of production, processing and sale of agricultural seed began in the year 2002 by our promoters Sanjay Kumar Baigani and Anil Kumar Nahata, as a partnership concern by the name of M/s Oswal Seeds and Chemicals. By gaining an insight of the industry coupled with an foreseeing growth opportunity, we converted our partnership concern into public limited Company in the year 2017. Our Promoters are the guiding force behind the strategic decisions of our Company. They manage and control the major affairs of our business operations. Their industry knowledge and understanding also gives us the key competitive advantage enabling us to expand our geographical and customer presence in existing as well as target markets, while exploring new growth avenues.

Our Company processes various kinds of seeds at its processing unit which is located at Neemuch, Madhya Pradesh. At present, our Company processes 5 varieties of wheat seed, 5 varieties of soya bean seed, 3 varieties of Mustard seed, 1 variety of black gram, 1 variety of corn seeds and 1 Variety of isabgol/psyllium. Majority of our revenue is from the sale of wheat and soyabean seeds. Revenue generated from wheat and soyabean seed is as follows:

(Amount in Rs Lakhs)

Particulars	2014-15	2015-16	2016-17	01/04/2017 to 30/11/2017	01/12/2017 to 31/03/2018

Soya Bean	4,262.32	2,380.22	2,591.84	1,879.13	1,190.16

Our products are marketed under the brand name of OSWAL. The majority of our sales are through our own Brand which contributed 66.00 %, 85.32 %, 95.25 % and 98.56 % respectively to our total sales for the financial year ended March 31, 2015, 2016, 2017 and 2018 respectively. Revenue generated packaging is as follows:

(Rs in lakhs; Quantity in quintal)

2014-15		2015-16		2016-17		2017-18

Total	5,853.62	3,878.02	4,284.24	4,814.31

Liaising/Contracting with individual farmers is one of the major step in our production mechanism and our Company enters into contract farming only with the farmers of Madhya Pradesh. Upto March 31, 2018 we have entered into contracts with 752 farmers, thereby giving us an access to around 3809 hectares of land.

Area of contract farming undertaken by our Company in previous three year is as follows:

(Area in Hectres)

2014-15	2015-16	2016-17	2017-18
2361.00	2226.20	2680.80	3809.00

In Crop production quality of seeds play a vital role and to maintain the quality of our seeds our Company adopts different processes at its own laboratory such as Physical Purity Test, Moisture Test and Germination Test among others. Apart from this our Company also conducts seed production programme among farmers for spreading awareness on the methods to improve the quality and yield of the seeds.

The Company has received capital subsidy Rs 22.00 lakhs and Rs 8.00 lakhs on October 12, 2015 and on December 30, 2015 respectively under the scheme of UDHYOG SANVARDHAN NIDHI, 2012 of Madhya Pradesh Government.

The Company has also applied for capital subsidy of Rs 25.00 lakhs under the scheme of “Krishi Ivana Aadharbhat Suvidha” (Capital Investment Subsidy Scheme – Agriculture Marketing and Infrastructure Grading Standardization). The subsidy under the said scheme is given in two tranches viz - advance and final. The Company has already received first tranche Rs 12.03 lakhs on September 17, 2017. The second tranche of the subsidy is yet to be received by the Company.

Our subsidiary Company ShreeOswal Psyllium Export India Limited, is engaged in the business of manufacturing, processing and sale of psyllium husk and psyllium husk powder. Our Subsidiary also produces by products of psyllium such as cattle feed.

From FY 2012-13 to FY 2017-18, as per our Restated Financial Statements, i) our total revenue has shown growth from Rs. 2254.33 lakhs to Rs. 4,861.01 lakhs, representing a CAGR of 13.66% ii) our EBITDA has shown growth from Rs. 67.19 lakhs to Rs. 452.57 lakhs, representing a CAGR of 37.40 % iii) our profit after tax has shown growth from Rs. 12.50 lakhs to a profit of Rs. 179.75 lakhs representing a CAGR of 70.43 %.

OUR COMPETITIVE STRENGTHS

1. *We have developed a diverse portfolio of seed products*

We have a diverse portfolio of hybrid and research seeds for wheat, corn, black gram, soya bean, isabgol/psyllium and mustard, which allows to cater to a wider market. Our product portfolio gives us an edge against dependence on any particular crop(s), and we have an advantage to meet changing farmer needs even in the event of crop-shifting by farmers.

At present our product portfolio includes 5 varieties of wheat seed, 5 varieties of soya bean seed, 3 varieties of Mustard seed, 1 of black gram, 1 variety of isabgol/psyllium and 1 variety of corn seeds.

2. *We have a distribution network across various geographies.*

We have distribution, sales and marketing networks for our seed products. Generally, we market our seed products to growers through distributors and independent dealers. Presently, we have numbers of distributors covering states like Madhya Pradesh, Rajasthan, Jharkhand, Uttar Pradesh, Bihar, Maharashtra, Punjab and Gujarat. Our widespread domestic presence not only mitigates the risk of dependence on few regions but also helps us to leverage our brand value.

3. *Our experienced management and dedicated employee base*

Our operations commenced under the guidance of our Promoters Sanjay Baigani and Anil Nahata, who have successfully managed various phases of expansion and growth of our business and operations. Our Promoters have around 15 years of experience in this industry and have been instrumental in formulating growth strategy for our Company. Their industry knowledge and understanding also gives us the competitive advantage enabling us to expand our geographical and customer presence in existing as well as target markets, while exploring new growth avenues.

4. *Quality certifications*

Quality plays one of the most vital roles in the success of any organization. Our focus on quality is evident from the fact that our facility is accredited with ISO 22000:2005 quality management system certified. Our Company also has an in-house testing laboratory to ensure quality check of our products. Our laboratory also conducts various tests in-house for further improvements in seed quality. Various quality checks conducted at our in-house laboratory include Physical Purity Test, Moisture Test and Germination among others.

5. *Established Brand*

We believe that having a recognizable brand is a key attribute in any business, which increases consumer confidence and influences purchase decisions. We believe that we have built a strong brand across over several years of our operations. Our products are sold under the brand name of OSWAL. We believe that the recall of our brand has allowed us to maintain a large customer base and facilitated our ability to develop and market new products, as we believe that customers are more likely to rely on a trusted brand.

BUSINESS STRATEGY

1. *Continue to expand and diversify our product portfolio & widen our customer base*

Our product portfolio includes variety of seeds such as LOK-1 (Wheat), Raj-4037 (Wheat), OSYM-55 (Mustard), OSM77 (Mustard), Krishna-11 (Wheat), Super Sharbati-14001, Rochak (Wheat) Gold Plus (Mustard) and Super Star -211, JS-9305, JS-325, JS-9560 (Soya Bean) among others. As a part of our business strategy, our Company plans to diversify its product portfolio by entering into new products such as pulses, corn, black gram TAU-1, and herbal seeds like Isabgol-5001. We also plan to focus on increasing the variety of seeds currently processed by our Company.

Presently our Company markets its products through different revenue channels which includes network of distributors, dealers direct to consumers. We intend to reach out to more dealers and distributors so as to widen our sales network. Our strategy is to widen our customer base in domestic market by introducing new quality products and enhanced product range.

2. Expansion of our production capacity

At present our processing facilities is located at Neemuch, Madhya Pradesh, India. The majority of our processing activity is carried at our current processing facility. Going forward our Company is planning to expand its processing capacity to meet the increasing demand of its products. We are planning to add additional machinery which will help to increase our production capacity to 24000 metric ton from present 14000 metric ton. For further details, please refer the chapter titled “Objects of the Offer” beginning on page 95 of this Prospectus.

3. Promotion of our brand recognition

For food related items, hygiene is given much importance and hence branded products are always preferred over the local brand. The company acknowledges this fact and continuously strives to create a strong brand providing quality products. We plan to strengthen our brand recognition by carrying out various brand building efforts, like, communication and promotional activities. Such promotions would enhance the visibility of our brand consequently our business positioning and credibility.

4. Leveraging our Marketing skills and Relationships

We believe Customer Relationship Management is an important activity for any business. This is a continuous process in our organization and the skills that we impart in our people give importance to customers. We aim to enhance the growth by leveraging our relationships and further enhancing customer satisfaction. We plan to increase our customers by improving quality of our products.

5. Continue to improve operating efficiencies

We will continue to focus on further increasing our operations and improving operational effectiveness at our production facilities. Higher operational effectiveness results in greater production volumes and higher sales, and therefore allows us to spread fixed costs over a higher number of units sold, thereby increasing profit margins. We believe that this can be done through increasing domestic presence which will lead to economies of scale. Increasing our penetration in existing regions by launching new range of products and expansion of our production capacity, will enable us to penetrate into new market. As a result of these measures, our company will be able to increase its market share and profitability.

OUR BUSINESS PROCESS

Seed Production

Nucleus Seeds

Nucleus seed is the initial handful of pure seeds of improved variety or parental lines of hybrid plant. Nucleus seeds being genetically pure do not contain physical impurities. The nucleus seed is produced under strict isolation in order to avoid both genetical and physical contamination. Nucleus seed are managed with great care so that all seed produced from it remains true to the new variety. This is a most important step and is the responsibility of the plant breeder who developed the variety. The nucleus seed is not available to farmers. The next step in the chain from plant breeder to farmer is that the plant breeder develops Breeder Seed.

Breeder Seeds

In seed production process, our Company usually procures breeder seeds from agricultural university. Breeder seeds are then delivered to farmers to produce foundation seeds.

Foundation Seeds

Foundation seed is the seed produced from growing breeder seed. Our Company provides breeder seeds to the contract farmers who in turn grow them under strict supervision of our breeder. Foundation seed is less expensive than breeder seed and is not as pure as the breeder's seeds. Foundation seed is the seed produced from growing breeder seed.

Certified Seeds/Research Seeds

Our Company also produces certified seeds. Certified seed is produced from growing foundation, seeds. Production of this seed is subject to field and seed inspections. It is grown by selected farmers in a way that maintains genetic purity. Production of certified seeds undergoes field and seed inspections by seed certification agency to ensure conformity with standards.

Truthful Seeds

Truthful seeds are produced from certified seeds. These Seeds are sold under truthful labels. Field standard and seed standard have to be maintained as per seed act and certified seed stage.

Hybrid Seeds

Hybrid seed is seed produced by cross-pollinated plants. The entire hybrid seeds planted by the farmers usually produces similar plants, while the seeds of the next generation from those hybrids will not consistently have the desired characteristics. Hybrids are chosen to improve the characteristics of the resulting plants, such as better yield, greater uniformity, improved colour, disease resistance.

High Quality Seeds

In high quality seed different type of chemicals are used such as thiram and corbendizim. These chemicals helps to improve the characteristics of the resulting plants, such as better yield, greater, disease and fungus resistance, etc.

Quality control in Seed Process

The seeds received from farmers are tested in laboratory under different parameters such as physical purity test, moisture test, germination test and seed health test among others, if tests are found satisfactory the seeds are purchased and stored in Company's warehouse and storage facility for further processing.

Seed Processing

Post production, the seeds are purchased by our Company from farmers and we then processed at our manufacturing facility. The seeds are subjected to various stages of processing which includes cleaning, gravity separation, colour sorting, etc.

Seed Cleaning and Grading

Seed cleaning and grading process involves separation of seed mixtures from dust, chaff and undersized seeds. It also involves separation, of seeds based on weight, length, shape and size.

Gravity Separation

Gravity separations are used for the removal of impurities, admixture, insect damage and immature kernels. The gravity separator separates seeds size but with difference in specific weight.

Destoner

Destoner is used for removal of badly damaged, deteriorated, insect damaged crop seed and stones from good seeds.

Spiral Separator

The Spiral separator classifies seed according to its shape and rolling ability. The seed is introduced at the top of the inner spiral. Seeds which are round roll faster down the incline as compared to irregularly shaped seeds. The seeds are then collected separately according to their shape.

Milling Separator

Milling Separator frees the grain of coarse impurities such as large kernels, strings, straw, wood, stones and clods of soil, and from fine impurities like sand or broken grains. It is also used to remove low-density particles such as dust, hull fragments or husks, thereby optimizing the cleaning effect.

Sortex-Colour Separator

The colour separator is used to separate discoloured seed, greatly of lower quality. Separation based on colour is necessary because the density and dimensions of discoloured seed are the same as those of sound seed, so other machines are not effective for separation.

Packaging

Once seeds are processed they are send to government laboratories for further testing. Once they are approved by government laboratory they are packed and sold under the brand name of OSWAL. Apart, from our own brand we also packed the seeds for third party supplier which is sold under the brand name of third party supplier.

OUR INFRASTRUCTURE FACILITIES

Infrastructure Facilities

Our processing facility is well equipped with computer systems, internet connectivity, other communication equipment, and other facilities, which are required for our business operations to function smoothly.

Power

We have arrangements for regular power supply at our factory premises. The total existing power requirement of our Company is around 195 KVA. The requirement of power is met by supply from M P Paschim Kshetra Vidyut Vitaran Co. Ltd.

Water

Our manufacturing unit's current water requirement for carrying out manufacturing operations, human consumption and general needs of the employees is met by Bore well. Further our warehouse/ has adequate water supply arrangements for human consumption purpose.

Storage

Our Company has adequate storage capacity with very easy loading and unloading system. This facility enables us to store seeds without any deterioration of quality.

COLLABORATIONS

As on date of this Prospectus, our Company has not entered into any technical or financial collaboration agreements.

EXPORT AND EXPORT OBLIGATIONS

Our Company does not have any export obligation as on the date of this Prospectus.

HUMAN RESOURCE

We believe that our employees are key contributors to our business success. We focus on attracting and retaining the best possible talent. None of our employees are unionized. We believe that our relations with our employees are satisfactory. As on December 31, 2017, we have 20 employees working for us as details below:

Department	No. Of Employees
Finance Department	3
HR Department	1
Sales & Marketing Department	5
Purchase And Producing Department	8
Legal & Compliance	3

APPLICABLE LAWS AND REGULATIONS

BUSINESS/TRADE RELATED LAWS/REGULATIONS

The Micro, Small and Medium Enterprises Development Act, 2006

In order to promote and enhance the competitiveness of Micro, Small and Medium Enterprise (MSME) the act is enacted. A National Board shall be appointed and established by the Central Government for MSME enterprise with its head office at Delhi in the case of the enterprises engaged in the manufacture or production of goods pertaining to any industry mentioned in first schedule to Industries (Development and regulation) Act, 1951 as “micro enterprise”, where the investment in plant and machinery does not exceed twenty-five lakh rupees; “Small enterprise”, where the investment in plant and machinery is more than twenty-five lakh rupees but does not exceed five crore rupees; or a medium enterprise , where the investment in plant and machinery is more than five crore but does not exceed ten crore rupees and in the case of the enterprise engaged in the services, “Micro – enterprise” , where the investment in equipment does not exceed ten lakh rupees, “Small Enterprise” where the investment in equipment is more than ten lakh rupees but does not exceed two crore rupees, or “ Medium Enterprise” where the investment in equipment is more than two crore rupees but does not exceed five crore rupees.

Madhya Pradesh SME Policy:

The existing marketing arrangements provided by the Madhya Pradesh Laghu Udyog Nigam for the small scale sector will be strengthened. Powers will be delegated to district level officers of the Laghu Udyog Nigam to facilitate purchases at local level. The state government will encourage developing and strengthening of linkages between tiny, small, medium and large sectors. The scheme of State Capital Investment Subsidy, 1989 will be available to for small scale units, industrial units in the cooperative sector with a minimum investment of Rs. One crore in plant and machinery and a membership of a minimum of one hundred persons, will also be eligible. The following Sales Tax/Commercial Tax concessions will be available to industries:-

At present units having capital investment in fixed assets Rs. Ten lakhs get tax concession limited to the extent of 90% of the fixed capital investment. In the new scheme the ceiling has been raised to 100% for exemption and 150% for the deferment facility. These concessions will be available on finished products, by- products, waste products, raw materials, incidental goods and packing material.

Payment of tax will be deferred for a period of five years. In the sixth year the deferred amount will be due without any interest as per rules. If the deferred amount is not paid within the stipulated time limit,

the unit's eligibility for the balance period is liable to be cancelled and interest will be charged on such amount, as per rules. Units set up by Women Entrepreneurs, persons belonging to Scheduled Castes, Scheduled Tribes and Backward Classes, will be entitled to one year's additional concession.

After accounting for all special eligibilities, a unit will get a maximum benefit of upto an additional five years, over and above the concessions normally available. Given the capping on the quantum of commercial/sales tax concession it has become necessary to define capital investment in fixed assets. Capital Investment fixed capital assets are defined as follows:

Investment made in land, building, plant and machinery, electric installations and pollution control equipment. Expenditure on land development limited to 10% of the investment made in land and building. Investment made for laboratory, research and on administrative building. Investment made in machinery and equipment for laboratory and research. Capital investment made on the establishment of railway siding. Expenditure on godown, storage tank, etc. The value of leased machinery and equipment required for production. Incidental goods and capital goods will also be brought within the scope of entry tax concessions. 100% Export Oriented Units will be especially encouraged. These units will get commercial tax concessions for an additional period of two years and exemption from payment of entry tax for a period of eight years. Industrial units being set up by Non-Resident Indians (NRI) with a capital investment of at least Rs. Two crore shall get similar concessions which are available to EOUs, provided that the NRI investment is at least 50% of the equity invested by the promoters.

GST provides for imposition of tax on the supply of goods or services and will be levied by centre on intra-state supply of goods or services and by the States including Union territories with legislature/ Union Territories without legislature respectively. A destination based consumption tax GST would be a dual GST with the centre and states simultaneously levying tax with a common base. The GST law is enforced by various acts viz. Central Goods and Services Act, 2017 (CGST), State Goods and Services Tax Act, 2017 (SGST), Union Territory Goods and Services Tax Act, 2017 (UTGST), Integrated Goods and Services Tax Act, 2017 (IGST) and Goods and Services Tax (Compensation to States) Act, 2017 and various rules made thereunder. It replaces following indirect taxes and duties at the central and state levels:

Central Excise Duty, Duties of Excise (Medicinal and Toilet Preparations), additional duties on excise – goods of special importance, textiles and textile products, commonly known as CVD – special additional duty of customs, service tax, central and state surcharges and cesses relating to supply of goods and services, state VAT, Central Sales Tax, Luxury Tax, Entry Tax (all forms), Entertainment and Amusement Tax (except when levied by local bodies), taxes on advertisements, purchase tax, taxes on lotteries, betting and gambling.

It is applicable on all goods except for alcohol for human consumption and five petroleum products.

Taxpayers with an aggregate turnover of Rs. 20 lakhs would be exempt from tax. The exemption threshold for special category of states like North-East shall be Rs. 10 lakhs. Small taxpayers with an aggregate turnover in preceding financial year upto Rs. 75 lakhs (50 lakhs in case of special category states) may opt for composition levy. Under GST, goods and services are taxed at the following rates, 0%, 5%, 12% and 18%. There is a special rate of 0.25% on rough precious and semi-precious stones and 3% on gold. In addition a cess of 15% or other rates on top of 28% GST applies on few items like aerated drinks, luxury cars and tobacco products. The rate of tax for CGST and SGST/UTGST shall not exceed –

- a. 2.5% in case of restaurants etc.
- b. 1% of the turnover in state/UT in case of manufacturer
- c. 0.5% of the turnover in state/ UT in case of other supplier

Export and supplies to SEZ shall be treated as zero-rated supplies. Import of goods and services would be treated as inter-state supplies. Every person liable to take registration under these Acts shall do so within a period of 30 days from the date on which he becomes liable to registration. The Central/State authority shall issue the registration certificate upon receipt of application. The Certificate shall contain fifteen digit registration number known as Goods and Service Tax Identification Number (GSTIN). In case a person has multiple business verticals in multiple location in a state, a separate application will be made for registration of each and every location. The registered assessee are then required to pay GST as per the rules applicable thereon and file the appropriate returns as applicable thereon.

OTHER LAWS

The Factories Act, 1948

The Factories Act, 1948 (“Factories Act”) aims at regulating labour employed in factories. A “factory” is defined as “any premises...whereon ten or more workers are working or were working on any day of the preceding twelve months, and in any part of which a manufacturing process is being carried on with the aid of power, or is ordinarily so carried on, or whereon twenty or more workers are working, or were 81 working on any day of the preceding twelve months, and in any part of which a manufacturing process is carried on without the aid of power, or is ordinarily so carried on...”. The main aim of the said Act is to ensure adequate safety measures and to promote the health and welfare of the workers employed in factories initiating various measures from time to time to ensure that adequate standards of safety, health and welfare are achieved at all the places.

Under the Factories Act, the State Government may make rules mandating approval for proposed factories and requiring licensing and registration of factories. The Factories Act makes detailed provision for ensuring sanitary conditions in the factory and safety of the workers and also lays down permissible working hours, leave etc. In addition, it makes provision for the adoption of worker welfare measures. The prime responsibility for compliance with the Factories Act and the rules thereunder rests on the “occupier”, being the person who has ultimate control over the affairs of the factory. The Factories Act states that save as otherwise provided in the Factories Act and subject to provisions of the Factories Act which impose certain liability on the owner of the factory, in the event there is any contravention of any of the provisions of the Factories Act or the rules made thereunder or of any order in writing given thereunder, the occupier and the manager of the factory shall each be guilty of the offence and punishable with imprisonment or with fine. The occupier is required to submit a written notice to the chief inspector of factories containing all the details of the factory, the owner, manager and himself, nature of activities and such other prescribed information prior to occupying or using any premises as a factory. The occupier

is required to ensure, as far as it is reasonably practicable, the health, safety and welfare of all workers while they are at work in the factory.

Shops and establishments laws in various states

Under the provisions of local Shops and Establishments laws applicable in various states, establishments are required to be registered. Such laws regulate the working and employment conditions of the workers employed in shops and establishments including commercial establishments and provide for fixation of working hours, rest intervals, overtime, holidays, leave, termination of service, maintenance of shops and establishments and other rights and obligations of the employers and employees.

The Seeds Act, 1966

It was enacted in 1966 (hereinafter referred as “Act”) and has been in force since Oct. 2, 1969, extends to the whole of India. This act aims at regulating the quality of seed sold for agricultural purpose through compulsory labeling and voluntary certification. Under compulsory labeling, any one selling the seed of a notified kind or variety, in the region for which it has been notified, should ensure that:

1. The seed conforms to the prescribed limits of germination purity.
2. The seed container is labeled in the prescribed manner, and
3. The label truly represents the quality of seed in the container.

Under voluntary certification, anyone interested in producing certified seed may do so by applying to the seed certification agency for the grant of certificate. The agency grants the certificate and certification tags after satisfying itself that the seed has been after satisfying itself that the seed has been produced according to the prescribed standards and procedures.

There are two bodies, viz., the central seed committee and the central seed certification board, which advise the central and the state governments in the matters related to the general administration of the seeds act and of seed certification, respectively.

As per Sec 2(11) of the said Act, “seed” means any of the following classes of seeds used for sowing or planting-

- (i) seeds of food crops including edible oil seeds and seeds of fruits and vegetables;
- (ii) cotton seeds;
- (iii) seeds of cattle fodder;

As per Sec 9 of the said Act, certification agency will grant a certificate only if the following conditions are satisfied:

- (1) Any person selling, keeping for sale, offering to sell, bartering or otherwise supplying any seed of any notified kind or variety may, if he desires to have such seed certified by the certification agency, apply to the certification agency for the grant of a certificate for the purpose.
- (2) Every application under sub-section (1) shall be made in such form, shall contain such particulars and shall be accompanied by such fees as may be prescribed.

On receipt of any such application for the grant of a certificate, the certification agency may, after such enquiry as it thinks fit and after satisfying itself that the seed to which the application relates conforms to the minimum limits of germination and purity specified for that seed under clause (a) of section 6, grant a certificate in such form and on such conditions as may be prescribed.

The Essential Commodities Act, 1955

The Essential Commodities Act, 1955 was enacted to ensure easy availability of essential commodities to the consumers and to protect them from exploitation by unscrupulous traders. The Act provides for regulation and control of production, distribution and pricing of commodities, which are declared as essential for maintaining or increasing supplies or for securing their equitable distribution and availability at fair prices’.

The Essential Commodities Act is being implemented by the State Governments/UT Administrations by availing of the delegated powers under the Act. The State Governments/ UT Administrations have issued various Control Orders for regulation, production and distribution of Essential Commodities such as food grains, edible oils, pulses kerosene, sugar etc. The Central Government regularly monitors the action taken by State Governments/UT Administrations to implement the provisions of the Essential Commodities Act, 1955.

The items declared as essential commodities under the Essential Commodities Act, 1955 are reviewed from time to time in the light of liberalized economic policies in consultation with the Ministries/Departments administering the essential commodities and particularly with regard to their production, demand, and supply.

The Seeds (Control) Order, 1983

In exercise of the powers conferred by section 3 of the Essential commodities Act. 1955 (10 of 1955). The Central Government made the The Seeds (Control) Order, 1983. The Order contains the procedure for obtaining the licenses by dealers to deal in various seeds. It sets down the conditions on which the license shall be granted, the period of the license, etc. The Order also sets down the enforcing authority for the regulation on the licenses and the punishments in the case of contravention of any provision.

Biological Diversity Act, 2002

The Biological Diversity Act, 2002 is an Act of the Parliament of India for preservation of biological diversity in India, and provides mechanism for equitable sharing of benefits arising out of the use of traditional biological resources and knowledge. The Act was enacted to meet the obligations under Convention on Biological Diversity (CBD), to which India is a party.

The Act aims at the conservation of biological resources and associated knowledge as well as facilitating access to them in a sustainable manner and through a just process for purposes of implementing the objects of the Act it establishes the National Biodiversity Authority in Chennai.

The Agricultural Produce (Grading and Marking) Act, 1937

The provisions of the Act deal mainly with the prescription and protection of merchandise marks and as such fall within entry 49 of List I of the Seventh Schedule to the Constitution. The State Government of Jammu and Kashmir have agreed to the extension of the Act to that State. The Agricultural Produce (Grading and Marking) Act, 1937 provides for the grading and marking of agricultural and other allied commodities with the objectives of making available quality agricultural produce including horticulture and livestock produce to the consumers. Under this Act, the Central Government has been authorised to make rules fixing grade designation to indicate the quality of any scheduled article, denning the quality indicated by every grade designation; specifying grade designation mark to represent particular grade designation; authorising interested parties to grade; specifying conditions regarding manner of marking, packaging etc. and providing for the confiscation and disposal of produce marked otherwise than in accordance with the prescribed conditions with a grade designation mark.

ENVIRONMENTAL LEGISLATIONS

The Environment Protection Act, 1986 (“Environment Protection Act”)

The purpose of the Environment Protection Act is to act as an "umbrella" legislation designed to provide a frame work for Central government co-ordination of the activities of various central and state authorities established under previous laws. The Environment Protection Act authorizes the central government to protect and improve environmental quality, control and reduce pollution from all sources, and prohibit or restrict the setting and /or operation of any industrial facility on environmental grounds. The Act prohibits persons carrying on business, operation or process from discharging or emitting any environmental pollutant in excess of such standards as may be prescribed. Where the discharge of any environmental pollutant in excess of the prescribed standards occurs or is apprehended to occur due to any accident or other unforeseen act, the person responsible for such discharge and the person in charge of the place at which such discharge occurs or is apprehended to occur is bound to prevent or mitigate the environmental pollution caused as a result of such discharge and should intimate the fact of such occurrence or

apprehension of such occurrence; and (b) be bound, if called upon, to render all assistance, to such authorities or agencies as may be prescribed.

Air (Prevention and Control of Pollution) Act, 1981

Air (Prevention and Control of Pollution) Act 1981 (“the Act”) was enacted with an objective to protect the environment from smoke and other toxic effluents released in the atmosphere by industries. With a view to curb air pollution, the Act has declared several areas as air pollution control area and also prohibits the use of certain types of fuels and appliances. Prior written consent is required of the board constituted under the Act, if a person intends to commence an industrial plant in a pollution control area.

Water (Prevention and Control of Pollution) Act, 1974

The Water (Prevention and Control of Pollution) Act 1974 (“the Act”) was enacted with an objective to protect the rivers and streams from being polluted by domestic and industrial effluents. The Act prohibits the discharge of toxic and poisonous matter in the river and streams without treating the pollutants as per the standard laid down by the Pollution control boards constituted under the Act. A person intending to commence any new industry, operation or process likely to discharge pollutants must obtain prior consent of the board constituted under the Act.

Hazardous Waste (Management and Handling) Rules, 1989

The Hazardous Waste (Management and Handling) Rules, 1989, as amended, impose an obligation on each occupier and operator of any facility generating hazardous waste to dispose of such hazardous wastes properly and also imposes obligations in respect of the collection, treatment and storage of hazardous wastes. Each occupier and operator of any facility generating hazardous waste is required to obtain an approval from the relevant state pollution control board for collecting, storing and treating the hazardous waste.

The Public Liability Insurance Act, 1991

This Act imposes liability on the owner or controller of hazardous substances for any damage arising out of an accident involving such hazardous substances. A list of hazardous substances covered by the legislation has been enumerated by the Government by way of a notification. The owner or handler is also required to take out an insurance policy insuring against liability under the legislation. The rules made under the Public Liability Act mandate that the employer has to contribute towards the environment relief fund, a sum equal to the premium paid on the insurance policies. The amount is payable to the insurer.

National Environmental Policy, 2006

The Policy seeks to extend the coverage, and fill in gaps that still exist, in light of present knowledge and accumulated experience. This policy was prepared through an intensive process of consultation within the Government and inputs from experts. It does not displace, but builds on the earlier policies. It is a statement of India's commitment to making a positive contribution to international efforts. This is a response to our national commitment to a clean environment, mandated in the Constitution in Articles 48 A and 51 A (g), strengthened by judicial interpretation of Article 21. The dominant theme of this policy is that while conservation of environmental resources is necessary to secure livelihoods and well-being of all, the most secure basis for conservation is to ensure that people dependent on particular resources obtain better livelihoods from the fact of conservation, than from degradation of the resource. Following are the objectives of National Environmental Policy:

- Conservation of Critical Environmental Resources
- Intra-generational Equity: Livelihood Security for the Poor
- Inter-generational Equity
- Integration of Environmental Concerns in Economic and Social Development
- Efficiency in Environmental Resource Use
- Environmental Governance

- Enhancement of resources for Environmental Conservation

INTELLECTUAL PROPERTY LEGISLATIONS

In general the Intellectual Property Rights includes but is not limited to the following enactments:

- The Patents Act, 1970
- Indian Copyright Act, 1957
- The Trade Marks Act, 1999

Indian Patents Act, 1970

A patent is an intellectual property right relating to inventions and is the grant of exclusive right, for limited period, provided by the Government to the patentee, in exchange of full disclosure of his invention, for excluding others from making, using, selling, importing the patented product or process producing that product. The term invention means a new product or process involving an inventive step capable of industrial application.

The Copyright Act, 1957

Copyright is a right given by the law to creators of literary, dramatic, musical and artistic works and producers of cinematograph films and sound recordings. In fact, it is a bundle of rights including, inter alia, rights of reproduction, communication to the public, adaptation and translation of the work. There could be slight variations in the composition of the rights depending on the work.

Trade Marks Act, 1999

The Trade Marks Act, 1999 (the “**Trade Marks Act**”) provides for the application and registration of trademarks in India for granting exclusive rights to marks such as a brand, label and heading and obtaining relief in case of infringement for commercial purposes as a trade description. The Trade Marks Act prohibits any registration of deceptively similar trademarks or chemical compounds among others. It also provides for penalties for infringement, falsifying and falsely applying for trademarks.

GENERAL LAWS

- Apart from the above list of laws – which is inclusive in nature and not exhaustive - general laws like the Indian Contract Act 1872, Specific Relief Act 1963, Negotiable Instrument Act 1881, The Information Technology Act, 2000, Sale of Goods Act 1930 and Consumer Protection Act 1986 are also applicable to the company.

OTHER LAWS:

Foreign Trade (Development and Regulation) Act, 1992

The Development and Regulation of foreign trade by facilitating imports and exports from and to India. The Import-Export Code number and licence to import or export includes a customs clearance permit and any other permission issued or granted under this act. The Export and Import policy, provision for development and regulation of foreign trade shall be made by the Central Government by publishing an order. The Central Government may also appoint Director General of Foreign Trade (DGFT) for the purpose of Export-Import Policy formulation.

If any person makes any contravention to any law or commits economic offence or imports/exports in a manner prejudicial to the trade relations of India or to the interest of other person engaged in imports or exports then there shall be no Import Export Code number granted by Director-General to such person and if in case granted shall stand cancelled or suspended. Provision of search and seizure of Code of Criminal Procedure, 1973 shall apply to every search and seizure made under this Act. In case of appeals in a case the order made by the appellate authority shall be considered to be final. The powers of all the civil court under Code of Civil Procedure, 1908 shall vest in him.

The EXIM Policy is a set of guidelines and instructions established by the DGFT in matters related to the export and import of goods in India. This policy is regulated under the said act. Director General of Foreign Trade (herein after referred to as DGFT) is the main governing body in matters related to the

EXIM Policy. The Act shall provide development and regulation of foreign trade by facilitating imports into, and augmenting exports from India. Trade Policy is prepared and announced by the Central Government (Ministry of Commerce).

Foreign Exchange Management Act, 1999

Foreign investment in India is primarily governed by the provisions of the Foreign Exchange Management Act, 1999 (“FEMA”) and the rules and regulations promulgated there under. The act aims at amending the law relating to foreign exchange with facilitation of external trade and payments for promoting orderly developments and maintenance of foreign exchange market in India. It applies to all branches, offices and agencies outside India owned or controlled by a person resident in India and also to any contravention there under committed outside India by any person to whom this Act applies. Every exporter of goods is required to a) furnish to the Reserve Bank or to such other authority a declaration in such form and in such manner as may be specified, containing true and correct material particulars, including the amount representing the full export value or, if the full export value of the goods is not ascertainable at the time of export, the value which the exporter, having regard to the prevailing market conditions, expects to receive on the sale of the goods in a market outside India; b) furnish to the Reserve Bank such other information as may be required by the Reserve Bank for the purpose of ensuring the realization of the export proceeds by such exporter. The Reserve Bank may, for the purpose of ensuring that the full export value of the goods or such reduced value of the goods as the Reserve Bank determines, having regard to the prevailing market conditions, is received without any delay, direct any exporter to comply with such requirements as it deems fit. Every exporter of services shall furnish to the Reserve Bank or to such other authorities a declaration in such form and in such manner as may be specified, containing the true and correct material particulars in relation to payment for such services.

FEMA Regulations

As laid down by the FEMA Regulations, no prior consents and approvals are required from the Reserve Bank of India, for Foreign Direct Investment under the automatic route within the specified sectoral caps. In respect of all industries not specified as FDI under the automatic route, and in respect of investment in excess of the specified sectoral limits under the automatic route, approval may be required from the FIPB and/or the RBI. The RBI, in exercise of its power under the FEMA, has notified the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident Outside India) Regulations, 2000 (“FEMA Regulations”) to prohibit, restrict or regulate, transfer by or issue security to a person resident outside India. Foreign investment in India is governed primarily by the provisions of the FEMA which relates to regulation primarily by the RBI and the rules, regulations and notifications there under, and the policy prescribed by the Department of Industrial Policy and Promotion, Ministry of Commerce & Industry, Government of India

THE FOREIGN DIRECT INVESTMENT

DIVIDEND POLICY

Under the Companies Act, 2013, an Indian company pays dividends upon a recommendation by its Board of Directors and approval by a majority of the shareholders. Under the Companies Act, 2013 dividends may be paid out of profits of a company in the year in which the dividend is declared or out of the undistributed profits or reserves of the previous years or out of both.

Our Company does not have a formal dividend policy. Any dividends to be declared shall be recommended by the Board of Directors depending upon the financial condition, results of operations, capital requirements and surplus, contractual obligations and restrictions, the terms of the credit facilities and other financing arrangements of our Company at the time a dividend is considered, and other relevant factors and approved by the Equity Shareholders at their discretion. Our Company has not paid any dividend for the last five years till March 31, 2017.

Dividends are payable within 30 days of approval by the Equity Shareholders at the annual general meeting of our Company. When dividends are declared, all the Equity Shareholders whose names appear in the register of members of our Company as on the “record date” are entitled to be paid the dividend declared by our Company. Any Equity Shareholder who ceases to be an Equity Shareholder prior to the record date, or who becomes an Equity Shareholder after the record date, will not be entitled to the dividend declared by our Company.

ANNEXURE IV (A)

CONSOLIDATED RESTATED SIGNIFICANT ACCOUNTING POLICIES AND NOTES TO ACCOUNTS:

CORPORATE INFORMATION

Shreeoswal Seeds and Chemicals Limited was originally formed as partnership firm constituted under The Partnership Act, 1932 (the "Partnership Act") in the name of M/s Oswal Seeds and Chemicals, pursuant to a deed of partnership dated May 21, 2004. M/s Oswal Seeds and Chemicals was thereafter converted from a partnership firm to a public limited company on December 1, 2017. The subsidiary Shreeoswal Psyllium Export India Limited was originally formed as partnership firm constituted under the Partnership Act, 1932 in the name of M/s Oswal Psyllium Exports which was subsequently converted from partnership firm to a public limited company on February 28, 2018. Shreeoswal Seeds and Chemicals Limited entered as a partner in Partnership firm M/s Oswal Psyllium Exports w.e.f December 6, 2017. Subsequently upon conversion of M/s Oswal Psyllium Exports into a public limited company w.e.f February 28, 2018 Shreeoswal Seeds and Chemicals Limited hold 99.99% share capital in Shreeoswal Psyllium Export India Limited.

A. Principles of Consolidation

The consolidated financial statements relate to Shreeoswal Seeds and Chemicals Limited (the Company') and its subsidiary company Shreeoswal Psyllium Export India Limited. The consolidated financial statements have been prepared on the following basis:

- a) The financial statements of the Company (erstwhile partnership firm M/s Shreeoswal Seeds and Chemicals) and its subsidiary company (erstwhile partnership firm M/s Oswal Psyllium Exports) are combined on a line-by-line basis by adding together the book values of like items of assets, liabilities, income and expenses, after fully eliminating intra-group balances and intragroup transactions in accordance with Accounting Standard (AS) 21 - Consolidated Financial Statement. The consolidation upto February 28, 2018 was done of Shreeoswal Seeds and Chemicals Limited (holding company) and the partnership firm M/s Oswal Psyllium Exports (subsidiary partnership firm). The consolidation for the period March 1, 2018 to March 31, 2018 was done of Shreeoswal Seeds and Chemicals Limited (holding company) and Shreeoswal Psyllium Export India Limited (subsidiary company).
- b) The difference between cost of investment in the subsidiary firm on December 6, 2017 and net assets at the time of acquisition of share in profit of the subsidiary partnership firm is recognized in the financial statements as Goodwill or Capital Reserve, as the case may be.
- c) Minority Interest's share of net profit of consolidated subsidiary for the year is identified and adjusted against the income of the group in order to arrive at the net income attributable to shareholders of the Company.
- d) Minority Interest's share of net assets of consolidated subsidiaries is identified and presented in the consolidated balance sheet separate from liabilities and the equity of the Company's shareholders.
- e) As far as possible, the consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances and are presented in the same manner as the Company's separate financial statements.

B. Basis of preparation of Consolidated Financial Statements:

The consolidated restated summary statement of assets and liabilities of the Company as at March 31, 2018, and the related consolidated restated summary statement of profits and loss and cash flows for the year ended March 31, 2018 (herein collectively referred to as ('Consolidated restated Summary Statements')) have been compiled by the management from the audited financial statements of the Company for the year ended on March 31, 2018, approved by the Board of Directors of the Company. Consolidated restated Summary Statements have been prepared to comply in all material respects with the provisions of Part I of Chapter III of the Companies Act, 2013 read with Companies (Prospectus and Allotment of Securities) Rules, 2014, Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009 ("the SEBI Guidelines") issued by SEBI and Guidance note on Reports in Companies Prospectus (Revised). Consolidated restated Summary Statements have been prepared specifically for inclusion in the offer document to be filed by the Company with the Emerge Platform of NSE in connection with its proposed Initial public offering of equity shares. The Company's management has recast the financial statements in the form required by Schedule III of the Companies Act, 2013 for the purpose of Consolidated restated Summary Statements.

C. Use of Estimates:

The preparation of consolidated restated financial statements requires management to make estimates and assumptions that affect amounts in the financial statements and reported notes thereto. Actual results could differ from these estimates. Differences between the actual result and estimates are recognized in periods in which the results are known/ materialized.

D. Fixed Assets:

Fixed assets are stated at cost of acquisition or construction less accumulated depreciation and impairment loss, if any. The cost of an asset comprises of its purchase price and any directly attributable cost of bringing the assets to working condition for its intended use. Expenditure on additions, improvements and renewals is capitalized and expenditure for maintenance and repairs is charged to profit and loss account. Subsidy received towards the asset has been deducted from carrying value of the asset and depreciation on the reduced carrying value has been provided prospectively.

E. Depreciation:

Depreciation on fixed assets for the year ended March 31, 2018 is calculated on WDV basis for all the assets using the rates derived as per the useful life for the assets specified in the Schedule II of the Companies Act, 2013. Depreciation on assets of the subsidiary partnership firm upto the date of conversion is charged as per rates prescribed in the Income Tax Act, 1961.

F. Valuation of Inventories:

Cost of inventory includes all cost of purchases and other cost incurred in bringing the inventories to their present location and condition. Raw Material and Finished Goods are valued at cost or net realizable value whichever is less.

G. Valuation of Investments:

- i. Investments that are readily realizable and intended to be held for not more than a year are classified as current investments. All other investments are classified as long term investments.
- ii. Current Investments are carried at lower of cost and fair value determined on an individual investment basis.
- iii. Long-term investments are carried at cost. However, provision for diminution in value is made to recognize a decline other than temporary in the value of investments.

H. Revenue Recognition:

Revenue is recognized to the extent it is probable that the economic benefits will flow to the company and the revenue can be reliably measured. Revenue from sale of manufactured goods is recognized as and when significant risk and rewards of ownership relating to the goods are transferred to the buyer. Revenue from Other sources are recognized on accrual basis.

I. Government Grants :

Subsidy received for investment in capital asset has been deducted from the value of the asset and depreciation has been provided on the reduced value prospectively.

J. Employee Benefits:

All employee benefits payable within twelve months of rendering of services are classified as short term benefits. Benefits include salaries, wages, awards, ex-gratia, performance pay, etc. and are recognized in the period in which the employee renders the related service. Liability on account of encashment of leave, Bonus to employee is considered as short term compensated expense provided on actual.

K. Earning Per Share

Basic earning per share is computed by dividing the net profit after tax for the year after prior period adjustments attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

L. Taxation & Deferred Tax

Provision for Current Tax is made in accordance with the provision of Income Tax Act, 1961. Deferred tax is recognized on timing differences between taxable & accounting income / expenditure that originates in one period and are capable of reversal in one or more subsequent period(s).

M. Contingent Liabilities / Provisions

Contingent liabilities are not provided in the accounts and are disclosed separately in notes on accounts.

ANNEXURE IV (B)**RECONCILIATION OF RESTATED CONSOLIDATED PROFIT :**

(₹ In Lakhs)

Tax expense :	
(i) Current tax	(5.17)
(ii) Deferred tax	2.31
Net Profit/ (Loss) After Tax as Restated	229.41

Explanatory notes to the above restatements made in the audited financial statements of the Company for the respective years.

Adjustments having impact on Profit

- 1. Gratuity** - The company had not provided for gratuity liability based on the requirements of AS-15, therefore in restatement provision for gratuity has been made based on actuarial valuation.
- 2. Interest on Loan-** The Company has not recognized interest expense for the period prior to conversion into company. Thus the same has been now recognized and charged to profit and loss account.
- 3. Depreciation** - The company has been formed by conversion of partnership firm vide a certificate of incorporation dated December 1, 2017. Therefore before this date the depreciation provided by the company was as per Income Tax Act, 1961. For the purpose of disclosure requirement the same has been restated to comply with Schedule II of Companies Act, 2013.
- 4. Current Tax** – The provision for current tax has been restated as a result of change in profit due to above restatements.
- 5. Deferred Tax** – Deferred tax has been restated due to provision for gratuity and change in depreciation.

ANNEXURE IV (A)

STANDALONE RESTATED SIGNIFICANT ACCOUNTING POLICIES AND NOTES TO ACCOUNTS:

CORPORATE INFORMATION

Shreeoswal Seeds and Chemicals Limited was originally formed as partnership firm constituted under the Partnership Act, 1932 (the "Partnership Act") in the name of M/s Oswal Seeds and Chemicals, pursuant to a deed of partnership dated May 21, 2004. M/s Oswal Seeds and Chemicals was thereafter converted from a partnership firm to a public company in the year 2017.

A. Basis of preparation of Financial Statements:

The standalone restated summary statement of assets and liabilities of the Company as at March 31, 2018, November 30, 2017, March 2017, 2016, 2015, 2014 and 2013 and the related standalone restated summary statement of profits and loss and cash flows for the period / years ended March 31, 2018 (01.12.17 to 31.03.18), November 30, 2017, March 2017, 2016, 2015, 2014 and 2013 (herein collectively referred to as ('Standalone restated Summary Statements')) have been compiled by the management from the audited financial statements of the Company for the period / years ended on March 31, 2018 (01.12.17 to 31.03.18), November 30, 2017, March 2017, 2016, 2015, 2014 and 2013, approved by the Board of Directors of the Company. Standalone restated Summary Statements have been prepared to comply in all material respects with the provisions of Part I of Chapter III of the Companies Act, 2013 read with Companies (Prospectus and Allotment of Securities) Rules, 2014, Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009 ("the SEBI Guidelines") issued by SEBI and Guidance note on Reports in Companies Prospectus (Revised). Standalone restated Summary Statements have been prepared specifically for inclusion in the offer document to be filed by the Company with the Emerge Platform of NSE in connection with its proposed Initial public offering of equity shares. The Company's management has recast the financial statements in the form required by Schedule III of the Companies Act, 2013 for the purpose of Standalone restated Summary Statements.

B. Use of Estimates:

The preparation of standalone restated financial statements requires management to make estimates and assumptions that affect amounts in the financial statements and reported notes thereto. Actual results could differ from these estimates. Differences between the actual result and estimates are recognized in periods in which the results are known/ materialized.

C. Fixed Assets:

Fixed assets are stated at cost of acquisition or construction less accumulated depreciation and impairment loss, if any. The cost of an asset comprises of its purchase price and any directly attributable cost of bringing the assets to working condition for its intended use. Expenditure on additions, improvements and renewals is capitalized and expenditure for maintenance and repairs is charged to profit and loss account. Subsidy received towards the asset has been deducted from carrying value of the asset and depreciation on the reduced carrying value has been provided prospectively.

D. Depreciation:

Depreciation on fixed assets for the year ended on March 31, 2014 and 2013 is calculated on WDV basis for all assets using the rates prescribed under Schedule XIV of the Companies Act, 1956. Depreciation on fixed assets for the year ended March 31, 2015, 2016 and 2017 and for the period ended March 31, 2018 (1.12.17 to 31.3.18), November 30, 2017 is calculated on WDV basis for all the assets using the rates derived as per the useful life for the assets specified in the Schedule II of the Companies Act, 2013.

E. Valuation of Inventories:

Cost of inventory includes all cost of purchases and other cost incurred in bringing the inventories to their present location and condition. Raw Material and Finished Goods are valued at cost or net realizable value whichever is less.

F. Valuation of Investments:

- i. Investments that are readily realizable and intended to be held for not more than a year are classified as current investments. All other investments are classified as long term investments.
- ii. Current Investments are carried at lower of cost and fair value determined on an individual investment basis.
- iii. Long-term investments are carried at cost. However, provision for diminution in value is made to recognize a decline other than temporary in the value of investments.

G. Revenue Recognition:

Revenue is recognized to the extent it is probable that the economic benefits will flow to the company and the revenue can be reliably measured. Revenue from sale of manufactured goods is recognized as and when significant risk and rewards of ownership relating to the goods are transferred to the buyer. Revenue from Other sources are recognized on accrual basis.

H. Government Grants :

Subsidy received for investment in capital asset has been deducted from the value of the asset and depreciation has been provided on the reduced value prospectively.

I. Employee Benefits:

All employee benefits payable within twelve months of rendering of services are classified as short term benefits. Benefits include salaries, wages, awards, ex-gratia, performance pay, etc. and are recognized in the period in which the employee renders the related service. Liability on account of encashment of leave, Bonus to employee is considered as short term compensated expense provided on actual.

J. Earning Per Share

Basic earning per share is computed by dividing the net profit after tax for the year after prior period adjustments attributable to equity shareholders by the weighted average number of equity shares outstanding during the year /period.

K. Taxation & Deferred Tax

Provision for Current Tax is made in accordance with the provision of Income Tax Act, 1961. Deferred tax is recognized on timing differences between taxable & accounting income / expenditure that originates in one period and are capable of reversal in one or more subsequent period(s).

L. Contingent Liabilities / Provisions

Contingent liabilities are not provided in the accounts and are disclosed separately in notes on accounts.

Explanatory notes to the above restatements made in the audited financial statements of the Company for the respective years.

Adjustments having impact on Profit

- 1. Gratuity** - The company had not provided for gratuity liability based on the requirements of AS-15, therefore in restatement provision for gratuity has been made based on actuarial valuation.
- 2. Interest on FD** - Interest accrued on FD during the year 2013-14 was not recognized as revenue as per accrual concept. The restatement has been done to give effect of the same.
- 3. Interest on unsecured loan** – In the period ended November 30, 2017, liability for interest payable on loan was recognized only upto 30.09.17. The restatement has been done to recognize liability for interest payable upto November 30, 2017.
- 4. Depreciation** - The company has been formed by conversion of partnership firm vide a certificate of incorporation dated December 1, 2017. Therefore before this date the depreciation provided by the company was as per Income Tax Act, 1961. For the purpose of disclosure requirement the same has been restated to comply with Schedule II of Companies Act, 2013.
- 5. Current Tax** – The company (erstwhile firm) had not provided for provision for tax upto the year ended 2015-16. The same has been restated in order to provide for the same in those years as well as to provide for tax effect of the above mentioned restatement adjustments.
- 6. Deferred Tax** – Company (Erstwhile “Firm”) had not provided for deferred tax in earlier years. The restatement has been done to give effect of the requirements of AS-22.

Adjustments having no impact on Profit

Material Regrouping

W.e.f, April 1 2014, Schedule III notified under the Companies Act, 2013 has become applicable to the Company for preparation and presentation of its financial statements. The adoption of Schedule III does not impact recognition and measurement principles followed for preparation of financial statements.

Appropriate adjustments have been made in the Standalone restated Summary Statements, wherever required, by a reclassification of the corresponding items of income, expenses, assets, liabilities and cash flows in order to bring them in line with the groupings as per the audited financial statements of the Company, prepared in accordance with Schedule III and the requirements of the Securities and Exchange Board of India (Issue of Capital & Disclosure Requirements) Regulations, 2009 (as amended).

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULT OF OPERATIONS

You should read the following discussion of our financial condition and results of operations together with our Restated Standalone Financial Statements which have been included in this Prospectus. The following discussion and analysis of our financial condition and results of operations is based on our Restated Standalone Financial Statements for the years ended March 31, 2017, 2016, 2015, for the period April 01, 2017 to November 30, 2017 and for the period December 01, 2017 to March 31, 2018 including the related notes and reports, included in this Prospectus have been prepared in accordance with requirements of the Companies Act and restated in accordance with the SEBI Regulations, which differ in certain material respects from IFRS, U.S. GAAP and GAAP in other countries. Our Financial Statements, as restated have been derived from our audited financial statements for the respective years and for the respective period ended. Accordingly, the degree to which our Restated Standalone Financial Statements will provide meaningful information to a prospective investor in countries other than India is entirely dependent on the reader's level of familiarity with Indian GAAP, Companies Act, SEBI Regulations and other relevant accounting practices in India.

This discussion contains forward-looking statements and reflects our current views with respect to future events and financial performance. Actual results may differ materially from those anticipated in these forward-looking statements as a result of certain factors such as those described under "Risk Factors" and "Forward Looking Statements" beginning on pages 19 and 18 respectively, and elsewhere in this Prospectus.

Our FY ends on March 31 of each year. Accordingly, all references to a particular FY are to the 12 months ended March 31 of that year.

OVERVIEW

Our Company, ShreeOswal Seeds and Chemicals Limited an ISO 22000:2005 certified Company is engaged in the business of production, processing and sale of different kind of agricultural seeds, maize and soyabean.

Our journey of production, processing and sale of agricultural seed began in the year 2002 by our promoters Sanjay Kumar Baigani and Anil Kumar Nahata, as a partnership concern by the name of M/s Oswal Seeds and Chemicals. By gaining an insight of the industry coupled with an foreseeing growth opportunity, we converted our partnership concern into public limited Company in the year 2017. Our Promoters are the guiding force behind the strategic decisions of our Company. They manage and control the major affairs of our business operations. Their industry knowledge and understanding also gives us the key competitive advantage enabling us to expand our geographical and customer presence in existing as well as target markets, while exploring new growth avenues.

Our Company processes various kinds of seeds at its processing unit which is located at Neemuch, Madhya Pradesh. At present, our Company processes 5 varieties of wheat seed, 5 varieties of soya bean seed, 3 varieties of Mustard seed, 1 variety of black gram, 1 variety of corn seeds and 1 Variety of isabgol/psyllium. Our products are marketed under the brand name of OSWAL. The majority of our sales are through our own Brand which contributed 66.00 %, 85.32 %, 95.25 % and 98.56 % respectively to our total sales for the financial year ended March 31, 2015, 2016, 2017 and 2018 respectively.

Our Company has a diversified customer base covering states like Bihar, Jharkhand, Maharashtra, Madhya Pradesh, Rajasthan, Uttar Pradesh, and Punjab. We mainly market our product through different revenue channels which includes network of distributors, marketing agents and direct to consumers.

Liaising/Contracting with individual farmers is one of the major step in our production mechanism and our Company enters into contract farming only with the farmers of Madhya Pradesh. Upto March 31, 2018 we have entered into contracts with 752 farmers, thereby giving us an access to around 3809 hectares of land.

In Crop production quality of seeds play a vital role and to maintain the quality of our seeds our Company adopts different processes at its own laboratory such as Physical Purity Test, Moisture Test and Germination Test among others. Apart from this our Company also conducts seed production programme among farmers for spreading awareness on the methods to improve the quality and yield of the seeds.

From FY 2012-13 to FY 2017-18, as per our Restated Financial Statements, i) our total revenue has shown growth from Rs. 2254.33 lakhs to Rs. 4,861.01 lakhs, representing a CAGR of 13.66% ii) our EBITDA has shown growth from Rs. 67.19 lakhs to Rs. 452.57 lakhs, representing a CAGR of 37.40 % iii) our profit after tax has shown growth from Rs. 12.50 lakhs to a profit of Rs. 179.75 lakhs representing a CAGR of 70.43 %.

FINANCIAL YEAR 2016-17 COMPARED WITH FINANCIAL YEAR 2015-16

Total Revenue

Our total revenue increased by 10.63 % to Rs. 4300.12 lakhs for the financial year 2016-17 from Rs. 3887.04 lakhs for the financial year 2015-16 due to the factors described below:

Revenue from operations: Our revenue from operations increased by 10.47 % to Rs. 4284.24 lakhs for the financial year 2016-17 from Rs. 3878.02 lakhs for the financial year 2015-16. The increase in revenue was mainly due to increase in quantity of wheat seeds sold by our Company in the financial year 2016-17.

Other income: Our other income increased by 76.05 % to Rs. 15.88 lakhs for the financial year 2016-17 from Rs.9.02 lakhs for the financial year 2015-16. This was mainly due to increase in interest income received on loan by Rs. 7.32 lakhs. The increase in interest income on loans was primarily due to increase in amount of unsecured loans given to different parties during the fiscal 2016-17.

Total Expenses

Our total expenses increased by 7.98 % to Rs. 4146.85 lakhs for the financial year 2016-17 from Rs.3840.52 lakhs for the financial year 2015-16, due to the factors described below:

Cost of material consumed: Our cost of material consumed increased by 5.41 % to Rs. 3548.30 lakhs for the financial year 2016-17 from Rs. 3366.27 lakhs for the financial year 2015-16 .The increase is primarily due to increase in our revenue from operations resulting in increase in consumption of raw material by Rs. 210.08 lakhs. Apart, from this our hammali charges increased by Rs 7.15 lakhs, grading charges increased by Rs 1.85 lakhs and seed certification fees increased by Rs 1.34 lakhs.

Changes in inventory of finished goods and work in progress: Our inventory of finished goods and work in progress changed by 552.79 % to Rs. 262.42 lakhs for the financial year 2016-17 as against Rs. 40.20 lakhs for the financial year 2015-16. This was primarily due to lower level of closing stock maintained at the end of FY 2016-17 as against FY 2015-16.

Employee benefits expenses: Our employee benefit expenses decreased by 10.28 % to Rs. 22.95 lakhs for the financial year 2016-17 from Rs. 25.58 lakhs for the financial year 2015-16. The decrease was mainly

due to decrease in salary to partners by 6.00 lakhs in the financial year 2016-17. However the decrease was offset by increase in salary and incentives by Rs. 3.41 lakhs.

Finance costs: Our finance costs decreased by 32.93 % to Rs. 159.59 lakhs for the financial year 2016-17 from Rs. 237.96 lakhs for the financial year 2015-16. The decrease was mainly on account of decrease in interest expense on bank loan by Rs 60.95 lakhs, interest expense on unsecured loan by Rs 4.91 lakhs, interest on capital to partners by Rs 12.17 lakhs and loan processing charges by Rs 0.34 lakhs in the financial year 2016-17. Decrease in interest expense on bank term loan was mainly due to decrease in term loan to Rs 6.27 lakhs in the financial year 2016-17 from Rs 23.76 lakhs in the financial year 2015-16 and decrease in our loan against warehouse to Rs 559.55 lakhs in the financial year 2016-17 from Rs 708.06 lakhs in the financial year 2015-16.

- Such other rights, as may be available to a shareholder of a listed public limited company under the Companies Act, 2013 Act, the terms of the SEBI Listing Regulations and the Memorandum and Articles of Association of our Company.

For a detailed description of the main provisions of the Articles of Association relating to voting rights, dividend, forfeiture and lien and / or consolidation / splitting, please refer to the section titled “*Main Provisions of Articles of Association*” beginning on page number 287 of this Prospectus.

MINIMUM APPLICATION VALUE, MARKET LOT AND TRADING LOT

Pursuant to Section 29 of the Companies Act, 2013 the Equity Shares shall be allotted only in dematerialised form. As per the SEBI ICDR Regulations, the trading of the Equity Shares shall only be in dematerialised form. In this context, two agreements have been signed amongst our Company, the respective Depositories and the Registrar to the Issue:

- Agreement dated May 15, 2018 amongst NSDL, our Company and the Registrar to the Issue; and
- Agreement dated May 07, 2018 amongst CDSL, our Company and the Registrar to the Issue.

Since trading of the Equity Shares is in dematerialised form, the tradable lot is 4000 Equity Share. Allotment in this Issue will be only in electronic form in multiples of one Equity Share subject to a minimum Allotment of 4000 Equity Shares to the successful applicants in terms of the SEBI circular No. CIR/MRD/DSA/06/2012 dated February 21, 2012.

Allocation and allotment of Equity Shares through this Issue will be done in multiples of 4000 Equity Share subject to a minimum allotment of 4000 Equity Shares to the successful applicants.

MINIMUM NUMBER OF ALLOTTEES

Further in accordance with the Regulation 106R of SEBI (ICDR) Regulations, the minimum number of allottees in this Issue shall be 50 shareholders. In case the minimum number of prospective allottees is less than 50, no allotment will be made pursuant to this Issue and the monies blocked by the SCSBs shall be unblocked within 4 working days of closure of issue.

JURISDICTION

Exclusive jurisdiction for the purpose of this Issue is with the competent courts / authorities in Mumbai, Maharashtra, India.

The Equity Shares have not been and will not be registered under the U.S. Securities Act or any state securities laws in the United States and may not be issued or sold within the United States or to, or for the account or benefit of, “U.S. persons” (as defined in Regulation S), except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable U.S. state securities laws. Accordingly, the Equity Shares are being issued and sold only outside the United States in offshore transactions in reliance on Regulation S under the U.S. Securities Act and the applicable laws of the jurisdiction where those issues and sales occur.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be issued or sold, and applications may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

JOINT HOLDER

Where two or more persons are registered as the holders of any Equity Shares, they shall be deemed to hold the same as joint tenants with benefits of survivorship.

NOMINATION FACILITY TO BIDDERS

In accordance with Section 72 of the Companies Act, 2013 the sole Bidder, or the first Bidder along with other joint Bidders, may nominate any one person in whom, in the event of the death of sole Bidder or in case of joint Bidders, death of all the Bidders, as the case may be, the Equity Shares Allotted, if any, shall vest. A person, being a nominee, entitled to the Equity Shares by reason of the death of the original holder(s), shall be entitled to the same advantages to which he or she would be entitled if he or she were the registered holder of the Equity Share(s). Where the nominee is a minor, the holder(s) may make a nomination to appoint, in the prescribed manner, any person to become entitled to equity share(s) in the event of his or her death during the minority. A nomination shall stand rescinded upon a sale/transfer/alienation of equity share(s) by the person nominating. A buyer will be entitled to make a fresh nomination in the manner prescribed. Fresh nomination can be made only on the prescribed form available on request at our Registered Office or to the registrar and transfer agents of our Company

Any person who becomes a nominee by virtue of the provisions of Section 72 of the Companies Act, 2013 shall upon the production of such evidence as may be required by the Board, elect either:

- a. to register himself or herself as the holder of the Equity Shares; or
- b. to make such transfer of the Equity Shares, as the deceased holder could have made.

Further, the Board may at any time give notice requiring any nominee to choose either to be registered himself or herself or to transfer the Equity Shares, and if the notice is not complied with within a period of ninety days, the Board may thereafter withhold payment of all dividends, bonuses or other moneys payable in respect of the Equity Shares, until the requirements of the notice have been complied with.

Since the Allotment of Equity Shares in the Issue will be made only in dematerialized mode there is no need to make a separate nomination with our Company. Nominations registered with respective depository participant of the applicant would prevail. If the investor wants to change the nomination, they are requested to inform their respective depository participant.

WITHDRAWAL OF THE ISSUE

Our Company in consultation with the BRLM, reserve the right to not to proceed with the Issue after the Bid/Issue Opening Date but before the Allotment. In such an event, our Company would issue a public notice in the newspapers in which the pre-Issue advertisements were published, within two days of the Bid/Issue Closing Date or such other time as may be prescribed by SEBI, providing reasons for not proceeding with the Issue. The Book Running Lead Manager through, the Registrar to the Issue, shall notify the SCSBs to unblock the bank accounts of the ASBA Bidders within one Working Day from the date of receipt of such notification. Our Company shall also inform the same to the Stock Exchanges on which Equity Shares are proposed to be listed.

Notwithstanding the foregoing, this Issue is also subject to obtaining (i) the final listing and trading approvals of the Stock Exchange, which our Company shall apply for after Allotment, and (ii) the final RoC approval of the Prospectus after it is filed with the RoC. If our Company withdraws the Issue after the Bid/ Issue Closing Date and thereafter determines that it will proceed with an issue/issue for sale of the Equity Shares, our Company shall file a fresh Draft Red Herring Prospectus with Stock Exchange.

BID/ ISSUE OPENING DATE

Bid / Issue Opening Date	June 07, 2018
Bid / Issue Closing Date	June 12, 2018
Finalisation of Basis of Allotment with the Designated Stock Exchange	June 15, 2018
Initiation of Refunds	June 18, 2018
Credit of Equity Shares to demat accounts of Allottees	June 19, 2018
Commencement of trading of the Equity Shares on the Stock Exchange	June 20, 2018

The above timetable is indicative and does not constitute any obligation on our Company, and the BRLM. Whilst our Company shall ensure that all steps for the completion of the necessary formalities for the listing and the commencement of trading of the Equity Shares on the Stock Exchange are taken within 6 Working Days of the Bid/Issue Closing Date, the timetable may change due to various factors, such as extension of the Bid/Issue Period by our Company, revision of the Price Band or any delays in receiving the final listing and trading approval from the Stock Exchange. The Commencement of trading of the Equity Shares will be entirely at the discretion of the Stock Exchange and in accordance with the applicable laws.

Bids and any revision to the same shall be accepted **only between 10.00 a.m. and 5.00 p.m. (IST)** during the Bid/Issue Period. On the Bid/Issue Closing Date, the Bids and any revision to the same shall be accepted between **10.00 a.m. and 5.00 p.m. (IST)** or such extended time as permitted by the Stock Exchanges, in case of Bids by Retail Individual Bidders after taking into account the total number of Bids received up to the closure of timings and reported by the Book Running Lead Manager to the Stock Exchanges. It is clarified that Bids not uploaded on the electronic system would be rejected. Bids were accepted only on Working Days, i.e., Monday to Friday (excluding any public holiday).

All times mentioned in this Prospectus are Indian Standard Times. Bidders are cautioned that in the event a large number of Bids are received on the Bid/Issue Closing Date, as is typically experienced in public issue, some Bids may not get uploaded due to lack of sufficient time. Such Bids that cannot be uploaded will not be considered for allocation under the Issue. Bids were accepted only on Business Days. Neither our Company nor the Book Running Lead Manager is liable for any failure in uploading the Bids due to faults in any software/hardware system or otherwise. Any time mentioned in this Prospectus is Indian Standard Time.

Our Company in consultation with the BRLM, reserves the right to revise the Price Band during the Bid/ Issue Period, provided that the Cap Price shall be less than or equal to 120% of the Floor Price and the Floor Price shall not be less than the face value of the Equity Shares. The revision in Price Band shall not exceed 20% on the either side i.e. the floor price can move up or down to the extent of 20% of the Floor Price and the Cap Price will be revised accordingly.

In case of revision of the Price Band, the Bid/Issue Period will be extended for at least three additional working days after revision of Price Band subject to the Bid/ Issue Period not exceeding 10 working days. Any revision in the Price Band and the revised Bid/ Issue Period, if applicable, will be widely disseminated by notification to the Stock Exchange, by issuing a press release and also by indicating the changes on the websites of the Book Running Lead Manager and at the terminals of the Syndicate Member.

In case of any discrepancy in the data entered in the electronic book vis-à-vis the data contained in the Bid cum Application Form, for a particular Bidder, the Registrar to the Issue shall ask for rectified data

MINIMUM SUBSCRIPTION

This Issue is not restricted to any minimum subscription level and is 100% underwritten.

As per Section 39 of the Companies Act, 2013, if the “stated minimum amount” has not been subscribed and the sum payable on application is not received within a period of 30 days from the date of the Prospectus, the application money has to be returned within such period as may be prescribed. If our Company does not receive the 100% subscription of the issue through the Issue Document including devolvement of Underwriters, if any, within sixty (60) days from the date of closure of the issue, our Company shall forthwith refund the entire subscription amount received. If there is a delay beyond eight days after our Company becomes liable to pay the amount, our Company and every officer in default will, on and from the expiry of this period, be jointly and severally liable to repay the money, with interest or other penalty as prescribed under the SEBI Regulations, the Companies Act 2013 and applicable law.

In accordance with Regulation 106 P (1) of the SEBI (ICDR) Regulations, our Issue shall be hundred percent underwritten. Thus, the underwriting obligations shall be for the entire hundred percent of the issue through the Prospectus and shall not be restricted to the minimum subscription level.

Further, in accordance with Regulation 106(R) of the SEBI (ICDR) Regulations, our Company shall ensure that the number of prospective allottees to whom the Equity Shares will be allotted will not be less than 50 (Fifty)

Further, in accordance with Regulation 106(Q) of the SEBI (ICDR) Regulations, our Company shall ensure that the minimum application size in terms of number of specified securities shall not be less than Rs.1,00,000/- (Rupees One Lakh) per application.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be issued or sold, and applications may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

MIGRATION TO MAIN BOARD

Our company may migrate to the Main board of National Stock Exchange of India Limited from SME Exchange on a later date subject to the following:

BIDS BY FPI INCLUDING FIIs

In terms of the SEBI FPI Regulations, any qualified foreign investor or FII who holds a valid certificate of registration from SEBI shall be deemed to be an FPI until the expiry of the block of three years for which fees have been paid as per the SEBI FII Regulations. An FII or a sub-account may participate in this Issue, in accordance with Schedule 2 of the FEMA Regulations, until the expiry of its registration with SEBI as an FII or a sub-account. An FII shall not be eligible to invest as an FII after registering as an FPI under the SEBI FPI Regulations.

In case of Bids made by FPIs, a certified copy of the certificate of registration issued by the designated depository participant under the FPI Regulations is required to be attached to the Bid cum Application Form, failing which our Company reserves the right to reject any Bid without assigning any reason. An FII or subaccount may, subject to payment of conversion fees under the SEBI FPI Regulations, participate in the Issue, until the expiry of its registration as a FII or sub-account, or until it obtains a certificate of registration as FPI, whichever is earlier. Further, in case of Bids made by SEBI-registered FIIs or sub-accounts, which are not registered as FPIs, a certified copy of the certificate of registration as an FII issued by SEBI is required to be attached to the Bid cum Application Form, failing which our Company reserves the right to reject any Bid without assigning any reason.

In terms of the SEBI FPI Regulations, the issue of Equity Shares to a single FPI or an investor group (which means the same set of ultimate beneficial owner(s) investing through multiple entities) must be below 10.00% of our post-Issue Equity Share capital. Further, in terms of the FEMA Regulations, the total holding by each FPI shall be below 10.00% of the total paid-up Equity Share capital of our Company and the total holdings of all FPIs put together shall not exceed 24% of the paid-up Equity Share capital of our Company. The aggregate limit of 24% may be increased up to the sectorial cap by way of a resolution passed by the Board of Directors followed by a special resolution passed by the Shareholders of our Company and subject to prior intimation to RBI. In terms of the FEMA Regulations, for calculating the aggregate holding of FPIs in a company, holding of all registered FPIs as well as holding of FIIs (being deemed FPIs) shall be included. The existing individual and aggregate investment limits an FII or sub account in our Company is 10.00% and 24% of the total paid-up Equity Share capital of our Company, respectively.

FPIs are permitted to participate in the Issue subject to compliance with conditions and restrictions which may be specified by the Government from time to time.

Subject to compliance with all applicable Indian laws, rules, regulations, guidelines and approvals in terms of Regulation 22 of the SEBI FPI Regulations, an FPI, other than Category III foreign portfolio and unregulated broad based funds, which are classified as Category II foreign portfolio investor by virtue of their investment manager being appropriately regulated, may issue or otherwise deal in offshore derivative instruments (as defined under the SEBI FPI Regulations as any instrument, by whatever name called, which is issued overseas by an FPI against securities held by it that are listed or proposed to be listed on any recognized stock exchange in India, as its underlying) directly or indirectly, only in the event (i) such offshore derivative instruments are issued only to persons who are regulated by an appropriate regulatory authority; and (ii) such offshore derivative instruments are issued after compliance with know your client norms. An FPI is also required to ensure that no further issue or transfer of any offshore derivative instrument is made by or on behalf of it to any persons that are not regulated by an appropriate foreign regulatory authority.

FPIs who wish to participate in the Issue are advised to use the Bid cum Application Form for Non-Residents (blue in colour).

BIDS BY SEBI REGISTERED VCFs, AIFs and FVCIs

The SEBI FVCI Regulations and the SEBI AIF Regulations inter-alia prescribe the investment restrictions on the VCFs, FVCIs and AIFs registered with SEBI. Further, the SEBI AIF Regulations prescribe, among others, the investment restrictions on AIFs.

The holding by any individual VCF registered with SEBI in one venture capital undertaking should not exceed 25% of the corpus of the VCF. Further, VCFs and FVCIs can invest only up to 33.33% of the investible funds by way of subscription to an initial public offering.

The category I and II AIFs cannot invest more than 25% of the corpus in one Investee Company. A category III AIF cannot invest more than 10% of the corpus in one Investee Company. A venture capital fund registered as a category I AIF, as defined in the SEBI AIF Regulations, cannot invest more than 1/3rd of its corpus by way of subscription to an initial public offering of a venture capital undertaking. Additionally, the VCFs which have not re-registered as an AIF under the SEBI AIF Regulations shall continue to be regulated by the VCF Regulation until the existing fund or scheme managed by the fund is wound up and such funds shall not launch any new scheme after the notification of the SEBI AIF Regulations.

All FIIs and FVCIs should note that refunds, dividends and other distributions, if any, will be payable in Indian Rupees only and net of Bank charges and commission.

Our Company or the BRLM will not be responsible for loss, if any, incurred by the Bidder on account of conversion of foreign currency.

There is no reservation for Eligible NRIs, FPIs and FVCIs and all Bidders will be treated on the same basis with other categories for the purpose of allocation.

BIDS BY MUTUAL FUNDS

No Mutual Fund scheme shall invest more than 10% of its net asset value in equity shares or equity related instruments of any single company provided that the limit of 10% shall not be applicable for investments in index funds or sector or industry specific funds. 4.1.1 NAME AND CONTACT DETAILS OF THE SOLE/ FIRST BIDDER

Bidders should ensure that the name provided in this field is exactly the same as the name in which the Depository Account is held.

- (a) **Mandatory Fields:** Bidders should note that the name and address fields are compulsory and e-mail and/or telephone number/ mobile number fields are optional. Bidders should note that the contact details mentioned in the Bid cum Application Form/ Application Form may be used to dispatch communications) in case the communication sent to the address available with the Depositories are returned undelivered or are not available. The contact details provided in the Bid cum Application Form may be used by the Issuer, the members of the Syndicate, the Registered Broker and the Registrar to the Issue only for correspondence(s) related to an Issue and for no other purposes.
- (b) **Joint Bids:** In the case of Joint Bids, the Bids should be made in the name of the Bidder whose name appears first in the Depository account. The name so entered should be the same as it appears in the Depository records. The signature of only such first Bidder would be required in the Bid cum Application Form/ Application Form and such first Bidder would be deemed to have signed on behalf of the joint holders. All payments may be made out in favour of the Bidder whose name appears in the Bid cum Application Form/ Application Form or the Revision Form and all communications may be addressed to such Bidder and may be dispatched to his or her address as per the Demographic Details received from the Depositories.
- (c) **Impersonation:** Attention of the Bidders is specifically drawn to the provisions of sub section (1) of Section 38 of the Companies Act, 2013 which is reproduced below:

Any person who:

- *makes or abets making of an application in a fictitious name to a Company for acquiring, or subscribing for, its securities; or*
- *makes or abets making of multiple applications to a Company in different names or in different combinations of his name or surname for acquiring or subscribing for its securities; or*
- *otherwise induces directly or indirectly a Company to allot, or register any transfer of securities to him, or to any other person in a fictitious name,*

Shall be liable for action under section 447 of the said Act.

- (d) **Nomination Facility to Bidder:** Nomination facility is available in accordance with the provisions of Section 72 of the Companies Act, 2013. In case of allotment of the Equity Shares in dematerialized form, there is no need to make a separate nomination as the nomination registered with the Depository may prevail. For changing nominations, the Bidders should inform their respective DP.

4.1.2 PAN NUMBER OF SOLE /FIRST BIDDER

- a) PAN (of the sole/first Bidder) provided in the Bid cum Application Form/Application Form should be exactly the same as the PAN of the person in whose sole or first name the relevant beneficiary account is held as per the Depositories' records.
- b) PAN is the sole identification number for participants transacting in the securities market irrespective of the amount of transaction except for Bids on behalf of the Central or State Government, Bids by officials appointed by the courts and Bids by Bidders residing in Sikkim ("PAN Exempted Bidders"). Consequently, all Bidders, other than the PAN Exempted Bidders, are required to disclose their PAN in the Bid cum Application Form, irrespective of the Bid Amount. Bids by the Bidders whose PAN is not available as per the Demographic Details available in their Depository records, are liable to be rejected.
- c) The exemption for the PAN Exempted Bidders is subject to (a) the Demographic Details

received from the respective Depositories confirming the exemption granted to the beneficiary owner by a suitable description in the PAN field and the beneficiary account remaining in “active status”; and (b) in the case of residents of Sikkim, the address as per the Demographic Details evidencing the same.

- d) Bid cum Application Forms which provide the GIR Number instead of PAN may be rejected.
- e) Bids by Bidders whose demat accounts have been ‘suspended for credit’ are liable to be rejected pursuant to the circular issued by SEBI on July 29, 2010, bearing number CIR/MRD/DP/22/2010. Such accounts are classified as “Inactive demat accounts” and Demographic Details are not provided by depositories.

4.1.3 BIDDERS DEPOSITORY ACCOUNT DETAILS

- a) Bidder should ensure that DP ID and the Client ID are correctly filled in the Bid cum Application Form. The DP ID and Client ID provided in the Bid cum Application Form should match with the DP ID and Client ID available in the Depository database, otherwise, the **Bid cum Application Form is liable to be rejected.**
- b) Bidder should ensure that the beneficiary account provided in the Bid cum Application Form is active.
- c) Bidder should note that on the basis of DP ID and Client ID as provided in the Bid cum Application Form, the Bidder may be deemed to have authorized the Depositories to provide to the Registrar to the Issue, any requested Demographic Details of the as available on the records of the depositories. These Demographic Details may be used, among other things, for sending allocation advice and for other correspondence(s) related to the Issue.
- d) Bidders are, advised to update any changes to their Demographic Details as available in the records of the Depository Participant to ensure accuracy of records. Any delay resulting from failure to update the Demographic Details would be at the Bidders’ sole risk.

4.1.4 : BID OPTIONS

- a) Price or Floor Price or Price Band, minimum Bid Lot and Discount (if applicable) may be disclosed in the RHP by the Issuer. The Issuer is required to announce the Floor Price or Price Band, minimum Bid Lot and Discount (if applicable) by way of an advertisement in at least one English, one Hindi and one regional newspaper, with wide circulation, at least five Working Days before Bid/Issue Opening Date in case of an IPO, and at least one Working Day before Bid/Issue Opening Date in case of an FPO.
- b) The Bidders may Bid at or above Floor Price or within the Price Band for IPOs undertaken through the Book Building Process. Cut-Off Price: Retail Individual Investors or Employees or Retail Individual Shareholders can Bid at the Cut off Price indicating their agreement to Bid for and purchase the Equity Shares at the Offer Price as determined at the end of the Book Building Process. Bidding at the Cut-off Price is prohibited for QIBs and NIIs and such Bids from QIBs and NIIs may be rejected.
- c) **Cut-Off Price:** Retail Individual Investors or Employees or Retail Individual Shareholders can Bid at the Cut-off Price indicating their agreement to Bid for and purchase the Equity Shares at the Offer Price as determined at the end of the Book Building Process. Bidding at the Cut-off Price is prohibited for QIBs and NIIs and such Bids from QIBs and NIIs may be rejected.
- d) **Minimum Bid Value and Bid Lot:** The Issuer in consultation with the BRLM may decide the minimum number of Equity Shares for each Bid to ensure that the minimum Bid value is within the range of above Rs.1,00,000. The minimum Bid Lot is accordingly determined by an Issuer on basis of such minimum Bid value.
- e) **Allotment:** The Allotment of specified securities to each RII shall not be less than the minimum Bid Lot, subject to availability of shares in the RII category, and the remaining available shares, if any, shall be Allotted on a proportionate basis. For details of the Bid Lot, Bidders may to the RHP or the advertisement regarding the Price Band published by the Issuer.

4.1.4.1 Maximum and Minimum Bid Size

- a) The Bidder may Bid for the desired number of Equity Shares at a specific price. Bids by Retail Individual Investors, Employees and Retail Individual Shareholders must be for such number of shares so as to ensure that the Bid Amount less Discount (as applicable), payable by the Bidder does not exceed Rs. 200,000.
- b) In case the Bid Amount exceeds Rs. 200,000 due to revision of the Bid or any other reason, the Bid may be considered for allocation under the Non-Institutional Category (with it not being eligible for Discount), then such Bid may be rejected if it is at the Cut-off Price.
- c) For NRIs, a Bid Amount of up to Rs. 200,000 may be considered under the Retail Category for the purposes of allocation and a Bid Amount exceeding Rs. 200,000 may be considered under the Non-Institutional Category for the purposes of allocation.
- d) Bids by QIBs and NIIs must be for such minimum number of shares such that the Bid Amount exceeds Rs. 200,000 and in multiples of such number of Equity Shares thereafter, as may be disclosed in the Bid cum Application Form and the RHP/Prospectus, or as advertised by the Issuer, as the case may be. Non-Institutional Investors and QIBs are not allowed to Bid at Cut off Price.
- e) RII may revise or withdraw their bids until Bid/Offer Closing Date. QIBs and NII's cannot withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after Bidding and are required to pay the Bid Amount upon submission of the Bid.
- f) In case the Bid Amount reduces to Rs. 200,000 or less due to a revision of the Price Band, Bids by the Non-Institutional Investors who are eligible for allocation in the Retail Category would be considered for allocation under the Retail Category.
- g) For Anchor Investors, if applicable, the Bid Amount shall be least Rs 10 crores. One-third of the Anchor Investor Portion shall be reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the price at which allocation is being done to other Anchor Investors. Bids by various schemes of a Mutual Fund shall be aggregated to determine the Bid Amount. A Bid cannot be submitted for more than 60% of the QIB Category under the Anchor Investor Portion. Anchor Investors cannot withdraw their Bids or lower the size of their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after the Anchor Investor Bid/Offer Period and are required to pay the Bid Amount at the time of submission of the Bid. In case the Anchor Investor Issue Price is lower than the Issue Price, the balance amount shall be payable as per the pay-in-date mentioned in the revised CAN. In case the Issue Price is lower than the Anchor Investor Offer Price, the amount in excess of the Issue Price paid by the Anchor Investors shall not be refunded to them.
- h) A Bid cannot be submitted for more than the issue size.
- i) The maximum Bid by any Bidder including QIB Bidder should not exceed the investment limits prescribed for them under the applicable laws.
- j) The price and quantity options submitted by the Bidder in the Bid cum Application Form may be treated as optional bids from the Bidder and may not be cumulated. After determination of the issue Price, the number of Equity Shares Bid for by a Bidder at or above the issue Price may be considered for Allotment and the rest of the Bid(s), irrespective of the Bid Amount may automatically become invalid. This is not applicable in case of FPOs undertaken through Alternate Book Building Process.

4.1.4.2 Multiple Bids

- (a) Bidder should submit only one Bid cum Application Form. Bidder shall have the option to make a maximum of Bids at three different price levels in the Bid cum Application Form and such options are not considered as multiple Bids. Submission of a second Bid cum Application Form to either the same or to another member of the Syndicate, SCSB or Registered Broker

and duplicate copies of Bid cum Application Forms bearing the same application number shall be treated as multiple Bids and are liable to be rejected.

(b) Bidders are requested to note the following procedures may be followed by the Registrar to the Issue to detect multiple Bids:

i. All Bids may be checked for common PAN as per the records of the Depository. For Bidders other than Mutual Funds and FII sub-accounts, Bids bearing the same PAN may be treated as multiple Bids by a Bidder and may be rejected.

ii. For Bids from Mutual Funds and FII sub-accounts, submitted under the same PAN, as well as Bids on behalf of the PAN Exempted Bidders, the Bid cum Application Forms may be checked for common DP ID and Client ID. Such Bids which have the same DP ID and Client ID may be treated as multiple Bids and are liable to be rejected.

(c) The following Bids may not be treated as multiple Bids:

i. Bids by Reserved Categories Bidding in their respective Reservation Portion as well as bids made by them in the Offer portion in public category.

ii. Separate Bids by Mutual Funds in respect of more than one scheme of the Mutual Fund provided that the Bids clearly indicate the scheme for which the Bid has been made.

iii. Bids by Mutual Funds, and sub-accounts of FIIs (or FIIs and its sub-accounts) submitted with the same PAN but with different beneficiary account numbers, Client IDs and DP IDs.

iv. Bids by Anchor Investors under the Anchor Investor Portion and the QIB Portion.

4.1.5 CATEGORY OF BIDDERS

(a) The categories of Bidders identified as per the SEBI ICDR Regulations, 2009 for the purpose of Bidding, allocation and allotment in the Issue are RIIs, NIIs and QIBs.

(b) An Issuer can make reservation for certain categories of Bidders as permitted under the SEBI ICDR Regulations, 2009. For details of any reservations made in the Issue, Bidders may refer to the RHP.

(c) The SEBI ICDR Regulations, 2009, specify the allocation or allotment that may be made to various categories of Bidders in an Issue depending upon compliance with the eligibility conditions. Details pertaining to allocation are disclosed on reverse side of the Revision Form. For Issue specific details in relation to allocation Bidder may refer to the DRHP.

4.1.6 INVESTOR STATUS

(a) Each Bidder should check whether it is eligible to apply under applicable law and ensure that any prospective allotment to it in the Issue is in compliance with the investment restrictions under applicable law.

(b) Certain categories of Bidder, such as NRIs, FPIs and FVCIs may not be allowed to Bid/apply in the Issue or hold Equity Shares exceeding certain limits specified under applicable law. Bidders are requested to refer to the Red Herring Prospectus for more details.

(c) Bidders should check whether they are eligible to apply on non-repatriation basis or repatriation basis and should accordingly provide the investor status. Details regarding investor status are different in the Resident Bid cum Application Form and Non-Resident Bid cum Application Form.

(d) Bidders should ensure that their investor status is updated in the Depository records.

4.1.7 PAYMENT DETAILS

- i. The full Bid Amount (net of any Discount, as applicable) shall be blocked in the ASBA Account based on the authorisation provided in the Bid cum Application Form. If discount is applicable in the Issue, the RIIs should indicate the full Bid Amount in the Bid cum Application Form and the funds shall be blocked for the Bid Amount net of Discount. Only in cases where the RHP indicates that part payment may be made, such an option can be exercised by the Bidder. In case of Bidders specifying more than one Bid Option in the Bid cum Application Form, the total Bid Amount may be calculated for the highest of three options at net price, i.e. Bid price less Discount offered, if any.
- ii. Bid Amount cannot be paid in cash, through money order or through postal order or through stock invest.
- iii. Bidders who Bid at Cut-off Price shall DEPOSIT the Bid Amount based on the Cap Price.
- iv. All Bidders can participate in the Offer only through the ASBA mechanism.
- v. Please note that, providing bank account details in the space provided in the Bid cum Application Form is mandatory and Applications that do not contain such details are liable to be rejected.

4.1.7.1. Payment instructions for Bidders

Bidders may submit the Bid cum Application Form either

- i. in electronic mode through the internet banking facility offered by an SCSB authorizing blocking of funds that are available in the ASBA account specified in the Bid cum Application Form, or
 - ii. in physical mode to any Designated Intermediary.
- a) Bidders must specify the Bank Account number in the Bid cum Application Form. The Bid cum Application Form submitted by Bidder and which is accompanied by cash, demand draft, money order, postal order or any mode of payment other than blocked amounts in the ASBA Account maintained with an SCSB, will not be accepted.
 - b) Bidders should ensure that the Bid cum Application Form is also signed by the ASBA Account holder(s) if the Bidder is not the ASBA Account holder.
 - c) Bidders shall note that for the purpose of blocking funds under ASBA facility clearly demarcated funds shall be available in the account.
 - d) From one ASBA Account, a maximum of five Bid cum Application Forms can be submitted.
 - e) Bidders should submit the Bid cum Application Form only at the Bidding Centre i.e. to the respective member of the Syndicate at the Specified Locations, the SCSBs, the Registered Broker at the Broker Centres, the RTA at the Designated RTA Locations or CDP at the Designated CDP Locations
 - f) Bidders bidding through a Designated Intermediary, other than a SCSB, should note that Bid cum Application Forms submitted to such Designated Intermediary may not be accepted, if the SCSB where the ASBA Account, as specified in the Bid cum Application Form, is maintained has not named at least one branch at that location for such Designated Intermediary, to deposit Bid cum Application Forms.
 - g) Bidders bidding directly through the SCSBs should ensure that the Bid cum Application Form is submitted to a Designated Branch of a SCSB where the ASBA Account is maintained.
 - h) Upon receipt of the Bid cum Application Form, the Designated Branch of the SCSB may verify if sufficient funds equal to the Bid Amount are available in the ASBA Account, as

mentioned in the Bid cum Application Form.

- i) If sufficient funds are available in the ASBA Account, the SCSB may block an amount equivalent to the Bid Amount mentioned in the Bid cum Application Form and for application directly submitted to SCSB by investor, may enter each Bid option into the electronic bidding system as a separate Bid.
- j) If sufficient funds are not available in the ASBA Account, the Designated Branch of the SCSB may not accept such Bids and such bids are liable to be rejected.
- k) Upon submission of a completed Bid cum Application Form each Bidder may be deemed to have agreed to block the entire Bid Amount and authorized the Designated Branch of the SCSB to block the Bid Amount specified in the Bid cum Application Form in the ASBA Account maintained with the SCSBs
- l) The Bid Amount may remain blocked in the aforesaid ASBA Account until finalisation of the Basis of Allotment and consequent transfer of the Bid Amount against the Allotted Equity Shares to the Public Issue Account, or until withdrawal or failure of the Issue, or until withdrawal or rejection of the Bid, as the case may be.
- m) SCSBs bidding in the Issue must apply through an Account maintained with any other SCSB; else their Bids are liable to be rejected.

4.1.8. Unblocking of ASBA Account

- (a) Once the Basis of Allotment is approved by the Designated Stock Exchange, the Registrar to the Issue may provide the following details to the controlling branches of each SCSB, along with instructions to unblock the relevant bank accounts and for successful Bids transfer the requisite money to the Public Issue Account designated for this purpose, within the specified timelines: (i) the number of Equity Shares to be Allotted against each Bid, (ii) the amount to be transferred from the relevant bank account to the Public Issue Account, for each Bid, (iii) the date by which funds referred to in (ii) above may be transferred to the Public Issue Account, and (iv) details of rejected Bids, if any, to enable the SCSBs to unblock the respective bank accounts.
- (b) On the basis of instructions from the Registrar to the Issue, the SCSBs may transfer the requisite amount against each successful Bidder to the Public Issue Account and may unblock the excess amount, if any, in the ASBA Account.
- (c) In the event of withdrawal or rejection of the Bid cum Application Form and for unsuccessful Bids, the Registrar to the Issue may give instructions to the SCSB to unblock the Bid Amount in the relevant ASBA Account within six Working Days of the Bid/Issue Closing Date.
- (d) In the event of withdrawal or rejection of the Bid cum Application Form and for unsuccessful Bidders, the Registrar to the Issue may give instructions to the SCSB to unblock the Bid Amount in the relevant ASBA Account within 6 Working Days of the Bid/Issue Closing Date.

4.1.8.1. Discount (if applicable)

- (a) The Discount is stated in absolute rupee terms.
 - (b) Bidders applying under RII category, Retail Individual Shareholder and employees are only eligible for discount. For Discounts offered in the Issue, Bidders may refer to the RHP/Prospectus.
 - (c) The Bidders entitled to the applicable Discount in the Issue may make payment for an amount i.e. the Bid Amount less Discount (if applicable).
- Bidder may note that in case the net payment (post Discount) is more than two lakh Rupees, the bidding system automatically considers such Bids for allocation under Non-Institutional Category. These Bids are neither eligible for Discount nor fall under RII category.

4.1.8.2. Additional Payment Instructions for NRIs

The Non-Resident Indians who intend to block funds through Non-Resident Ordinary (NRO) accounts shall use the form meant for Resident Indians (non-repatriation basis). In the case of Bids by NRIs applying on a repatriation basis, payment shall not be accepted out of NRO Account.

4.1.9. SIGNATURES AND OTHER AUTHORISATIONS

- (a) Only the First Bidder is required to sign the Bid cum Application Form. Bidders should ensure that signatures are in one of the languages specified in the Eighth Schedule to the Constitution of India.
- (b) If the ASBA Account is held by a person or persons other than the Bidder, then the Signature of the ASBA Account holder(s) is also required.
- (c) In relation to the Bids, signature has to be correctly affixed in the authorization/undertaking box in the Bid cum Application Form, or an authorisation has to be provided to the SCSB via the electronic mode, for blocking funds in the ASBA Account equivalent to the Bid/amount mentioned in the Bid cum Application Form.
- (d) Bidders must note that Bid cum Application Form without signature of Bidder and /or ASBA Account holder is liable to be rejected.

4.1.10. ACKNOWLEDGEMENT AND FUTURE COMMUNICATION

- (a) Bidders should ensure that they receive the acknowledgment duly signed and stamped by Bid Collecting Intermediary or SCSB, as applicable, for submission of the Bid cum Application Form.
- (b) All communications in connection with Bid made in the Offer should be addressed as under:
 - i. In case of queries related to Allotment, non-receipt of Allotment Advice, credit of allotted equity shares, the Bidders should contact the Registrar to the Issue.

4.2.1. NAME AND CONTACT DETAILS OF SOLE/FIRST BIDDER, PAN OF SOLE/FIRST BIDDER & DEPOSITORY ACCOUNT DETAILS OF THE BIDDER

Bidders should refer to instructions contained in paragraphs 4.1.1, 4.1.2 and 4.1.3.

4.2.2. BID OPTIONS REVISION 'FROM' AND 'TO'

- (a) Apart from mentioning the revised number of shares in the Revision Form, the Bidder must also mention the details of shares applied/bid for given in his or her Bid cum Application Form or earlier Revision Form. For example, if a Bidder has Bid for three options in the Bid cum Application Form and such Bidder is changing only one of the options in the Revision Form, the Bidder must still fill the details of the other two options that are not being revised, in the Revision Form. The members of the Syndicate, the Registered Brokers and the Designated Branches of the SCSBs may not accept incomplete or inaccurate Revision Form.
- (b) In case of revision, Bid options should be provided by Bidders in the same order as provided in the Bid cum Application Form.
- (c) In case of revision of Bids by RIIs, Employees and Retail Individual Shareholders, such Bidders should ensure that the Bid Amount, subsequent to revision, does not exceed Rs. 200,000. In case the Bid Amount exceeds Rs. 200,000 due to revision of the Bid or for any other reason, the Bid may be considered, subject to eligibility, for allocation under the Non-Institutional Category, not being eligible for Discount (if applicable) and such Bid may be rejected if it is at the Cut-off Price. The Cut-off Price option is given only to the RIIs, Employees and Retail Individual Shareholders indicating their agreement to Bid for and purchase the Equity Shares at the Issue Price as determined at the end of the Book Building Process.
- (d) In case the total amount (i.e., original Bid Amount plus additional payment) exceeds Rs. 200,000, the Bid will be considered for allocation under the Non-Institutional Category in terms of the RHP. If, however, the RII does not either revise the Bid or make additional payment and the Issue Price is higher than the cap of the Price Band prior to revision, the number of Equity Shares Bid for shall be adjusted downwards for the purpose of allocation, such that no additional payment would be required from the RII and the RII is deemed to have approved such revised Bid at Cut-off Price.
- (e) In case of a downward revision in the Price Band, RIIs and Bids by Employees under the Reservation Portion, who have bid at the Cut-off Price could either revise their Bid or the excess amount paid at the time of Bidding may be unblocked in case of Bidders.

4.2.3. PAYMENT DETAILS

- a) All Bidders are required to make payment of the full Bid Amount (less Discount, if applicable) along with the Bid Revision Form. In case of Bidders specifying more than one Bid Option in the Bid cum Application Form, the total Bid Amount may be calculated for the highest of three options at net price, i.e. Bid price less discount offered, if any.
- b) Bidder may Issue instructions to block the revised amount based on cap of the revised Price Band (adjusted for the Discount (if applicable) in the ASBA Account, to the same Designated Intermediary through whom such Bidder had placed the original Bid to enable the relevant SCSB to block the additional Bid Amount, if any.
- c) In case the total amount (i.e., original Bid Amount less discount (if applicable) plus additional payment) exceeds Rs. 200,000, the Bid may be considered for allocation under the Non-Institutional Category in terms of the DRHP. If, however, the Bidder does not either revise the Bid or make additional payment and the Issue Price is higher than the cap of the Price Band prior to revision, the number of Equity Shares Bid for may be adjusted

downwards for the purpose of Allotment, such that additional amount is required blocked and the Bidder is deemed to have approved such revised Bid at the Cut-off Price.

- d) In case of a downward revision in the Price Band, RIIs, Employees and Retail Individual Shareholders, who have bid at the Cut-off Price, could either revise their Bid or the excess amount paid at the time of Bidding may be unblocked.

4.2.4. SIGNATURES AND ACKNOWLEDGEMENTS

Bidders may refer to instructions contained at paragraphs 4.1.8 and 4.1.9 for this purpose.

4.3. SUBMISSION OF REVISION FORM/ BID CUM APPLICATION FORM /APPLICATION FORM

4.3.1. Bidders may submit completed Bid cum Application form / Revision Form in the following manner:-

Mode of Bid	Submission of Bid cum Application Form
All investors Bids	To the Bid cum Application Collecting Intermediaries as mentioned in the Red herring Prospectus/ Bid cum Application Form

Bidders should submit the Revision Form to the same Designated Intermediary through which such Bidders had placed the original Bid.

SECTION 5: INSTRUCTIONS FOR FILING APPLICATION FORM IN ISSUES MADE OTHER THAN THROUGH THE BOOK BUILDING PROCESS (FIXED PRICE ISSUE)

This being book built issue procedure for fixed price issue is not applicable.

SECTION 6- ISSUE PROCEDURE IN BOOK BUILT ISSUE

Book Building, in the context of the Issue, refers to the process of collection of Bids within the Price Band or above the Floor Price and determining the Issue Price based on the Bids received as detailed in Schedule XI of SEBI ICDR Regulations, 2009. The Issue Price is finalised after the Bid/Issue Closing Date. Valid Bids received at or above the Issue Price are considered for allocation in the Issue, subject to applicable regulations and other terms and conditions.

6.1 SUBMISSION OF BIDS

- a) During the Bid/Issue Period, Bidders may approach any of the Designated Intermediaries to register their Bids. Anchor Investors who are interested in subscribing for the Equity Shares should approach the Book Running Lead Manager, to register their Bid.
- b) In case of Bidders (excluding NIIs and QIBs) Bidding at Cut-off Price, the Bidders may instruct the SCSBs to block Bid Amount based on the Cap Price less Discount (if applicable).
- c) For Details of the timing on acceptance and upload of Bids in the Stock Exchanges Platform Bidders are requested to refer to the RHP.

6.2 ELECTRONIC REGISTRATION OF BIDS

- a) The Designated Intermediary may register the Bids using the on-line facilities of the Stock Exchanges. The Designated Intermediaries can also set up facilities for off-line electronic registration of Bids, subject to the condition that they may subsequently upload the off-line data file into the on-line facilities for Book Building on a regular basis before the closure of the issue.
- b) On the Bid/Issue Closing Date, the Designated Intermediaries may upload the Bids till such time as may be permitted by the Stock Exchanges.
- c) Only Bids that are uploaded on the Stock Exchanges Platform are considered for allocation/Allotment. The Designated Intermediaries are given till 1:00 pm on the day following the Bid/Issue Closing Date to modify select fields uploaded in the Stock Exchange Platform

during the Bid/Issue Period after which the Stock Exchange(s) send the bid information to the Registrar to the Issue for further processing.

6.3 BUILD UP OF THE BOOK

- a. Bids received from various Bidders through the Designated Intermediaries may be electronically uploaded on the Bidding Platform of the Stock Exchanges' on a regular basis. The book gets built up at various price levels. This information may be available with the BRLM at the end of the Bid/Issue Period.
- b. Based on the aggregate demand and price for Bids registered on the Stock Exchanges Platform, a graphical representation of consolidated demand and price as available on the websites of the Stock Exchanges may be made available at the Bidding centres during the Bid/Issue Period.

6.4 WITHDRAWAL OF BIDS

- a) RIIs can withdraw their Bids until Bid/Issue Closing Date. In case a RII wishes to withdraw the Bid during the Bid/Issue Period, the same can be done by submitting a request for the same to the concerned Designated Intermediary who shall do the requisite, including unblocking of the funds by the SCSB in the ASBA Account.
- b) The Registrar to the Issue shall give instruction to the SCSB for unblocking the ASBA Account on the Designated Date. QIBs and NIIs can neither withdraw nor lower the size of their Bids at any stage.

6.5 REJECTION & RESPONSIBILITY FOR UPLOAD OF BIDS

- a) **The Designated Intermediaries are individually responsible for the acts, mistakes or errors or omission in relation to:**
 - 1) the Bids accepted by the Designated Intermediaries,
 - 2) the Bids uploaded by the Designated Intermediaries, and
 - 3) the Bid cum Application Forms accepted but not uploaded by the Designated Intermediaries.
- b) The BRLM and their affiliate Syndicate Members, as the case may be, may reject Bids if all the information required is not provided and the Bid cum Application Form is incomplete in any respect.
- c) The SCSBs shall have no right to reject Bids, except in case of unavailability of adequate funds in the ASBA account or on technical grounds.
- d) In case of QIB Bidders, only the (i) SCSBs (for Bids other than the Bids by Anchor Investors); and (ii) BRLM and their affiliate Syndicate Members (only in the Specified Locations) have the right to reject bids. However, such rejection shall be made at the time of receiving the Bid and only after assigning a reason for such rejection in writing.
- e) All bids by QIBs, NIIs & RIIs Bids can be rejected on technical grounds listed herein.

- Details of ASBA Account not provided in the Bid cum Application Form

For details of instructions in relation to the Bid cum Application Form, Bidders may refer to the relevant section the GID.

BIDDERS SHOULD NOTE THAT IN CASE THE PAN, THE DP ID AND CLIENT ID MENTIONED IN THE BID CUM APPLICATION FORM AND ENTERED INTO THE ELECTRONIC APPLICATION SYSTEM OF THE STOCK EXCHANGES BY THE BIDS COLLECTING INTERMEDIARIES DO NOT MATCH WITH PAN, THE DP ID AND CLIENT ID AVAILABLE IN THE DEPOSITORY DATABASE, THE BID CUM APPLICATION FORM IS LIABLE TO BE REJECTED.

BASIS OF ALLOCATION

- The SEBI ICDR Regulations, 2009 specify the allocation or Allotment that may be made to various categories of Bidders in an Issue depending on compliance with the eligibility conditions. Certain details pertaining to the percentage of Issue size available for allocation to each category is disclosed overleaf of the Bid cum Application Form and in the RHP. For details in relation to allocation, the Bidder may refer to the RHP.
- Under-subscription in any category (except QIB Category) is allowed to be met with spill over from any other category or combination of categories at the discretion of the Issuer and in consultation with the BRLM and the Designated Stock Exchange and in accordance with the SEBI ICDR Regulations, 2009. Unsubscribed portion in QIB Category is not available for subscription to other categories.
- In case of under subscription in the Issue, spill-over to the extent of such under-subscription may be permitted from the Reserved Portion to the Issue. For allocation in the event of an under-subscription applicable to the Issuer, Bidders may refer to the RHP.
- Illustration of the Book Building and Price Discovery Process**

Bidders should note that this example is solely for illustrative purposes and is not specific to the Issue; it also excludes Bidding by Anchor Investors.

Bidders can bid at any price within the Price Band. For instance, assume a Price Band of Rs.20 to Rs 24 per share, Issue size of 3,000 Equity Shares and receipt of five Bids from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Bid Quantity	Bid Amount (Rs.)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Offer the desired number of Equity Shares is the price at which the book cuts off, i.e., Rs. 22.00 in the above example. The Issuer, in consultation with the BRLM, may finalise the Issue Price at or below such Cut-Off Price, i.e., at or below Rs. 22.00. All Bids at or above this Issue Price and cut-off Bids are valid Bids and are considered for allocation in the respective categories.

SECTION 6: ISSUE PROCEDURE IN FIXED PRICE ISSUE

This being Book Built Issue, this section is not applicable for this Issue.

SECTION 7: ALLOTMENT PROCEDURE AND BASIS OF ALLOTMENT

The Allotment of Equity Shares to Bidders other than Retail Individual Investors and Anchor Investors may be on proportionate basis. For Basis of Allotment to Anchor Investors, Bidders may refer to DRHP. No Retail Individual Investor will be allotted less than the minimum Bid Lot subject to availability of shares in Retail Individual Investor Category and the remaining available shares, if any will be allotted on a proportionate basis. The Issuer is required to receive a minimum subscription of 90% of the Offer (excluding any Offer for Sale of specified securities). However, in case the Offer is in the nature of Offer for Sale only, then minimum subscription may not be applicable.

7.1 BASIS OF ALLOTMENT

a. FOR RETAIL INDIVIDUAL BIDDERS

Bids received from the Retail Individual Bidders at or above the Issue Price shall be grouped together to determine the total demand under this category. The Allotment to all the successful Retail Individual Bidders will be made at the Issue Price.

The Issue size less Allotment to Non-Institutional and QIB Bidders shall be available for Allotment to Retail Individual Bidders who have Bid in the Issue at a price that is equal to or greater than the Issue Price. If the aggregate demand in this category is less than or equal to 3,000 Equity Shares at or above the Issue Price, full Allotment shall be made to the Retail Individual Bidders to the extent of their valid Bids.

If the aggregate demand in this category is greater than 3,000 Equity Shares at or above the Issue Price, the Allotment shall be made on a proportionate basis up to a minimum of 3,000 Equity Shares and in multiples of 3,000 Equity Shares thereafter. For the method of proportionate Basis of Allotment, refer below.

b. FOR NON-INSTITUTIONAL BIDDERS

Bids received from Non-Institutional Bidders at or above the Issue Price shall be grouped together to determine the total demand under this category. The Allotment to all successful Non-Institutional Bidders will be made at the Issue Price. The Issue size less Allotment to QIBs and Retail shall be available for Allotment to Non- Institutional Bidders who have Bid in the Issue at a price that is equal to or greater than the Issue Price. If the aggregate demand in this category is less than or equal to 4000 Equity Shares at or above the Issue Price, full Allotment shall be made to Non-Institutional Bidders to the extent of their demand. In case the aggregate demand in this category is greater than 4000 Equity Shares at or above the Issue Price, Allotment shall be made on a proportionate basis up to a minimum of 4000 Equity Shares and in multiples of 4000 Equity Shares thereafter. For the method of proportionate Basis of Allotment refer below.

c. FOR QIBS (IF APPLICABLE)

For the Basis of Allotment to Anchor Investors, Applicants may refer to the SEBI ICDR Regulations 2009 or RHP/Prospectus. Bids received from the QIB Category (net of Anchor Portion) at or above the Issue Price shall be grouped together to determine the total demand under this portion. The Issue size less Allotment to Non Institutional Bidders and Retail shall be available for Allotment to Non- QIB Bidders who have Bid in the Issue at a price that is equal to or greater than the Issue Price.

The Allotment to all the QIB Bidders will be made at the Issue Price. The QIB Portion shall be available for Allotment to QIB Bidders who have Bid in the Issue at a price that is equal to or greater than the Issue Price.

Allotment shall be undertaken in the following manner:

(a) In the first instance allocation to Mutual Funds for 5% of the QIB Portion shall be determined as follows:

- In the event that Bids by Mutual Fund exceeds 5% of the QIB Portion, allocation to Mutual Funds shall be done on a proportionate basis for 5% of the QIB Portion.
- In the event that the aggregate demand from Mutual Funds is less than 5% of the QIB Portion then all Mutual Funds shall get full Allotment to the extent of valid Bids received above the Issue Price.
- Equity Shares remaining unsubscribed, if any, not allocated to Mutual Funds shall be available for Allotment to all QIB Bidders as set out in (b) below;

(b) In the second instance Allotment to all QIBs shall be determined as follows:

- In the event that the oversubscription in the QIB Portion, all QIB Bidders who have submitted Bids above the Issue Price shall be allotted Equity Shares on a proportionate basis for upto 95% of the QIB portion;
- Mutual Funds, who have received allocation as per (a) above, for less than the number of Equity Shares Bid for by them, are eligible to receive Equity Shares on a proportionate basis along with other QIBs; and
- Under-subscription below 5% of the QIB Portion, if any, from Mutual Funds, would be included for allocation to the remaining QIB Bidders on a proportionate basis.

7.2 DESIGNATED DATE AND ALLOTMENT OF EQUITY SHARES

(a) **Designated Date:** On the Designated Date, the SCSBs shall transfer the funds represented by allocation of Equity Shares into the Public Issue Account with the Bankers to the Issue.

(b) **Issuance of Allotment Advice:** Upon approval of the Basis of Allotment by the Designated Stock Exchange, the Registrar shall upload the same on its website. On the basis of the approved Basis of Allotment, the Issuer shall pass necessary corporate action to facilitate the Allotment and credit of Equity Shares. **Bidders are advised to instruct their Depository Participant to accept the Equity Shares that may be allotted to them pursuant to the Issue.**

Pursuant to confirmation of such corporate actions, the Registrar will dispatch Allotment Advice to the Bidders who have been Allotted Equity Shares in the Issue.

(c) The dispatch of Allotment Advice shall be deemed a valid, binding and irrevocable contract.

(d) Issuer will ensure that: (i) the Allotment of Equity Shares; and (ii) initiate corporate action for credit of shares to the successful Bidders Depository Account will be completed within 4 Working Days of the Issue Closing Date. The Issuer also ensures the credit of shares to the successful Bidder depository account is completed within one Working Day from the date of Allotment, after the funds are transferred from the Public Issue Account on the Designated Date.

SECTION 8: INTEREST AND REFUNDS

8.1 COMPLETION OF FORMALITIES FOR LISTING & COMMENCEMENT OF TRADING

The Issuer may ensure that all steps for the completion of the necessary formalities for listing and commencement of trading at all the Stock Exchanges are taken within 6 Working Days of the Bid/Issue Closing Date. The Registrar to the Issue may give instructions for credit to Equity Shares the beneficiary account with DPs, and dispatch the Allotment Advice within 6 Working Days of the Bid/Issue Closing Date.

8.2 GROUNDS FOR REFUND

8.2.1 NON RECEIPT OF LISTING PERMISSION

An Issuer makes an application to the Stock Exchange(s) for permission to deal in/list and for an official quotation of the Equity Shares. All the Stock Exchanges from where such permission is sought are disclosed in Red Herring Prospectus/ Prospectus. The Designated

Stock Exchange may be as disclosed in the Red Herring Prospectus/ Prospectus with which the Basis of Allotment may be finalised.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and Foreign Exchange Management Act, 1999 (**“FEMA”**). While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are the Reserve Bank of India (**“RBI”**) and Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (**“DIPP”**).

The Government of India, from time to time, has made policy pronouncements on Foreign Direct Investment (**“FDI”**) through press notes and press releases. The Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (**“DIPP”**), has issued consolidated FDI Policy Circular of 2017(**“FDI Policy 2017”**), which with effect from August 28, 2017, consolidates and supersedes all previous press notes, press releases and clarifications on FDI Policy issued by the DIPP that were in force. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Policy 2017 will be valid until the DIPP issues an updated circular.

The Reserve Bank of India (**“RBI”**) also issues Master Circular on Foreign Investment in India every year. Presently, FDI in India is being governed by Master Circular on Foreign Investment dated July 01, 2015 as updated from time to time by RBI. In terms of the Master Circular, an Indian company may issue fresh shares to people resident outside India (who is eligible to make investments in India, for which eligibility criteria are as prescribed). Such fresh issue of shares shall be subject to inter-alia, the pricing guidelines prescribed under the Master Circular. The Indian company making such fresh issue of shares would be subject to the reporting requirements, inter-alia with respect to consideration for issue of shares and also subject to making certain filings including filing of Form FC-GPR.

Under the current FDI Policy of 2017, foreign direct investment in micro and small enterprises is subject to sectoral caps, entry routes and other sectoral regulations. At present 100 % foreign direct investment through automatic route is permitted in the sector in which our Company operates. Therefore applicable foreign investment up to 100% is permitted in our company under automatic route.

In case of investment in sectors through Government Route approval from competent authority as mentioned in Chapter 4 of the FDI Policy 2017 has to be obtained by the Company.

The transfer of shares between an Indian resident to a non-resident does not require the prior approval of the RBI, subject to fulfilment of certain conditions as specified by DIPP/RBI, from time to time. Such conditions include: (i) where the transfer of shares requires the prior approval of the Government as per the extant FDI policy provided that: a) the requisite approval of the Government has been obtained; and b) the transfer of shares adheres with the pricing guidelines and documentation requirements as specified by the Reserve Bank of India from time to time.; (ii) where the transfer of shares attract SEBI (SAST) Regulations subject to the adherence with the pricing guidelines and documentation requirements as specified by Reserve Bank of India from time to time.; (iii) where the transfer of shares does not meet the pricing guidelines under the FEMA, 1999 provided that: a) The resultant FDI is in compliance with the extant FDI policy and FEMA regulations in terms of sectoral caps, conditionalities (such as minimum capitalization, etc.), reporting requirements, documentation etc.; b) The pricing for the transaction is compliant with the specific/explicit, extant and relevant SEBI regulations/guidelines (such as IPO, Book building, block deals, delisting, exit, open offer/substantial acquisition/SEBI SAST); and Chartered Accountants Certificate to the effect that compliance with the relevant SEBI regulations/guidelines as indicated above is attached to the form FC-TRS to be filed with the AD bank and iv) where the investee company is in the financial sector provided that: a) Any ‘fit and proper/due diligence’ requirements as regards the non-resident investor as stipulated by the respective financial sector regulator, from time to time, have been complied with; and b) The FDI policy and FEMA regulations in terms of sectoral caps, conditionalities (such as minimum capitalization, pricing,

etc.), reporting requirements, documentation etc., are complied with. As per the existing policy of the Government of India, OCBs cannot participate in this Issue and in accordance with the extant FDI guidelines on sectoral caps, pricing guidelines etc. as amended by Reserve bank of India, from time to time. Investors are advised to confirm their eligibility under the relevant laws before investing and / or subsequent purchase or sale transaction in the Equity Shares of Our Company. Investors will not offer, sell, pledge or transfer the Equity Shares of our Company to any person who is not eligible under applicable laws, rules, regulations, guidelines. Our Company, the Underwriters and their respective directors, officers, agents, affiliates and representatives, as applicable, accept no responsibility or liability for advising any investor on whether such investor is eligible to acquire Equity Shares of our Company.

Investment conditions/restrictions for overseas entities

Under the current FDI Policy 2017, the maximum amount of Investment (sectoral cap) by foreign investor in an issuing entity is composite unless it is explicitly provided otherwise including all types of foreign investments, direct and indirect, regardless of whether it has been made for FDI, FPI, NRI/OCI, LLPs, FVCI, Investment Vehicles and DRs under Schedule 1, 2, 3, 6, 7, 8, 9, and 11 of FEMA (Transfer or Issue of Security by Persons Resident outside India) Regulations, 2017. Any equity holding by a person resident outside India resulting from conversion of any debt instrument under any arrangement shall be reckoned as foreign investment under the composite cap.

Portfolio Investment upto aggregate foreign investment level of 49% or sectoral/statutory cap, whichever is lower, will not be subject to either Government approval or compliance of sectoral conditions, if such investment does not result in transfer of ownership and/or control of Indian entities from resident Indian citizens to non-resident entities. Other foreign investments will be subject to conditions of Government approval and compliance of sectoral conditions as per FDI Policy. The total foreign investment, direct and indirect, in the issuing entity will not exceed the sectoral/statutory cap.

i. Investment by FPIs under Portfolio Investment Scheme (PIS):

With regards to purchase/sale of capital instruments of an Indian company by an FPI under PIS the total holding by each FPI or an investor group as referred in SEBI (FPI) Regulations, 2014 shall not exceed 10 % of the total paid-up equity capital on a fully diluted basis or less than 10% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all FPIs put together shall not exceed 24 % of paid-up equity capital on fully diluted basis or paid-up value of each series of debentures or preference shares or share warrants. The said limit of 10 percent and 24 percent will be called the individual and aggregate limit, respectively. However, this limit of 24 % may be increased up to sectoral cap/statutory ceiling, as applicable, by the Indian company concerned by passing a resolution by its Board of Directors followed by passing of a special resolution to that effect by its general body.

ii. Investment by NRI or OCI on repatriation basis:

The purchase/sale of equity shares, debentures, preference shares and share warrants issued by an Indian company (hereinafter referred to as “Capital Instruments”) of a listed Indian company on a recognised stock exchange in India by Non-Resident Indian (NRI) or Overseas Citizen of India (OCI) on repatriation basis is allowed subject to certain conditions under Schedule 3 of the FEMA (Transfer or Issue of security by a person resident outside India) Regulations, 2017 i.e.:

- The total holding by any individual NRI or OCI shall not exceed 5 percent of the total paid-up equity capital on a fully diluted basis or should not exceed 5 percent of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all NRIs and OCIs put together shall not exceed 10 percent of the total paid-up equity capital on a fully diluted basis or shall not exceed 10 percent of the paid-up value of each series of debentures or preference shares or share warrants; provided that the aggregate ceiling of 10 percent may be

raised to 24 percent if a special resolution to that effect is passed by the general body of the Indian company.

iii. Investment by NRI or OCI on non-repatriation basis

As per current FDI Policy 2017, schedule 4 of FEMA (Transfer or Issue of Security by Persons Resident outside India) Regulations – Purchase/ sale of Capital Instruments or convertible notes or units or contribution to the capital of an LLP by a NRI or OCI on non-repatriation basis – will be deemed to be domestic investment at par with the investment made by residents. This is further subject to remittance channel restrictions.

The Equity Shares have not been and will not be registered under the U.S. Securities Act of 1933, as amended (“US Securities Act”) or any other state securities laws in the United States of America and may not be sold or offered within the United States of America, or to, or for the account or benefit of “US Persons” as defined in Regulation S of the U.S. Securities Act, except pursuant to exemption from, or in a transaction not subject to, the registration requirements of US Securities Act and applicable state securities laws.

Accordingly, the equity shares are being offered and sold only outside the United States of America in an offshore transaction in reliance upon Regulation S under the US Securities Act and the applicable laws of the jurisdiction where those offers and sale occur.

Further, no offer to the public (as defined under Directive 2003/71/EC, together with any amendments) and implementing measures thereto, (the “Prospectus Directive”) has been or will be made in respect of the Issue in any member State of the European Economic Area which has implemented the Prospectus Directive except for any such offer made under exemptions available under the Prospectus Directive, provided that no such offer shall result in a requirement to publish or supplement a prospectus pursuant to the Prospectus Directive, in respect of the Issue.

47	The net proceeds of any such sale shall be received by the Company and applied in or towards payment of such part of the amount in respect of which the lien exists as is presently payable and the residue, if any, shall (subject to lien for sums not presently payable as existed upon the shares before the sale) be paid to the person entitled to the shares at the date of the sale.	Application of proceeds of sale
FORFEITURE AND SURRENDER OF SHARES		
48	If any Member fails to pay the whole or any part of any call or installment or any moneys due in respect of any shares either by way of principal or interest on or before the day appointed for the payment of the same or any such extension thereof, the Directors may, at any time thereafter, during such time as the call or installment or any part thereof or other moneys as aforesaid remains unpaid or a judgment or decree in respect thereof remains unsatisfied in whole or in part, serve a notice on such Member or on the person (if any) entitled to the shares by transmission, requiring him to pay such call or installment of such part thereof or other moneys as remain unpaid together with any interest that may have accrued and all reasonable expenses (legal or otherwise) that may have been accrued by the Company by reason of such non-payment.	If call or installment not paid, notice may be given
49	<p>a) The notice shall name a day (not being less than fourteen days from the date of notice) and a place or places on and at which such call or installment and such interest thereon as the Directors shall determine from the day on which such call or installment ought to have been paid and expenses as aforesaid are to be paid.</p> <p>b) The notice shall also state that, in the event of the non-payment at or before the time and at the place or places appointed, the shares in respect of which the call was made or installment is payable will be liable to be forfeited.</p>	Terms of notice
50	If the requirements of any such notice as aforesaid shall not be complied with, every or any share in respect of which such notice has been given, may at any time thereafter but before payment of all calls or installments, interest and expenses, due in respect thereof, be forfeited by resolution of the Board to that effect. Such forfeiture shall include all dividends declared or any other moneys payable in respect of the forfeited share and not actually paid before the forfeiture.	On default of payment, shares to be forfeited
51	When any shares have been forfeited, notice of the forfeiture shall be given to the member in whose name it stood immediately prior to the forfeiture, and an entry of the forfeiture, with the date thereof shall forthwith be made in the Register of Members but no forfeiture shall be in any manner invalidated by any omission or neglect to give such notice or to make any such entry as aforesaid. Provided that option or right to call of forfeited shares shall not be given to any person.	Notice of forfeiture to a Member
52	Any shares so forfeited, shall be deemed to be the property of the Company and may be sold, re-allotted, or otherwise disposed of, either to the original holder thereof or to any other person, upon such terms and in such manner as the Board in their absolute discretion shall think fit.	Forfeited shares to be property of the Company and may be sold etc.

54	The forfeiture shares shall involve extinction at the time of the forfeiture, of all interest in all claims and demand against the Company, in respect of the share and all other rights incidental to the share, except only such of those rights as by these Articles are expressly saved.	Effect of forfeiture
55	A declaration in writing that the declarant is a Director or Secretary of the Company and that shares in the Company have been duly forfeited in accordance with these Articles on a date stated in the declaration, shall be conclusive evidence of the facts therein stated as against all persons claiming to be entitled to the shares.	Evidence of Forfeiture
56	The Company may receive the consideration, if any, given for the share on any sale, re-allotment or other disposition thereof and the person to whom such share is sold, re-allotted or disposed of may be registered as the holder of the share and he shall not be bound to see to the application of the consideration: if any, nor shall his title to the share be affected by any irregularly or invalidity in the proceedings in reference to the forfeiture, sale, re-allotment or other disposal of the shares.	Title of purchaser and allottee of Forfeited shares
57	Upon any sale, re-allotment or other disposal under the provisions of the preceding Article, the certificate or certificates originally issued in respect of the relative shares shall (unless the same shall on demand by the Company have been previously surrendered to it by the defaulting member) stand cancelled and become null and void and of no effect, and the Directors shall be entitled to issue a new certificate or certificates in respect of the said shares to the person or persons entitled thereto.	Directors may issue new certificates
58	In the meantime, and until any share so forfeited shall be sold, re-allotted or otherwise dealt with as aforesaid, the forfeiture thereof may at the discretion and by a resolution of the Board, be remitted or annulled as a matter of grace and favour but not as of right, upon such terms and conditions as they think fit.	Forfeiture may be remitted or annulled
